Tulip sat down on the dinosaur's head, putting all her weight on the living toilet without hesitation, her ass cheeks slightly parting themselves, her hole hovering over the open maw. "Well, this is a little uncomfortable… I'll have to get a seat for myself to use later on. But it works for now~"

Oh god… s-she wouldn't… this must've just been an elaborate tease, a little bit of light hazing for her new roommate… s-surely she wouldn't actually shit inside her mouth… That was just too far…

"Hnngh…"

CW: Non-con, Extreme Cruelty, Betrayal

Misteria University was known for many things, primarily rumors of its high population of students who engaged in extreme and kinky activities with little to no repercussions and the many disappearances of those students.

What it was not known for was doing many experiments of varying legality in the university's lower levels.

Dr. Lianna, a reindeer in a white lab coat and literally nothing else, made marks on a checklist, examining the papers on her clipboard. This was her personal underground lab, located many levels below her above-ground professor's office; the lab could be accessed via an elevator in the same hall as her office, as long as you hit the floor numbers in a very specific order. Currently, only a few select faculty and students knew of the lab's existence, and even fewer knew how to get there.

DING!

Speaking of which…

Tulip the bunny girl walked into the lab, wearing a white shirt, black ripped jeans, and a simple black jacket. As she walked, she yawned, her large ears hanging behind her, swaying

back and forth. “Dr. Lianna…” she spoke to the reindeer, “What could you possibly need me for at 3 AM?” The brown-furred bunny briefly looked over the professor’s clothes. “And why are you naked?”

“Sorry, Tulip, but I needed to do this at nighttime. Also, I’m not naked - I’m wearing a lab coat.”

Tulip stared at her breasts and slit, neither of which were hidden by the unbuttoned lab coat. Not that the sight was new to her - Tulip and Dr. Lianna were good friends. With benefits. “Right, ok… And why am I here?”

“Recently, a student of mine completed a research project that led to her finding the bones of a rare species of dinosaur, specifically, a therizinosaurus. She had some theories about reviving dinosaurs using their bones, so we worked together for a bit to see if we could make it work. It went far better than I expected, though I had to finish the last stages on my own.”

“Uh, where’s that student?”

The professor pointed to a private bathroom, connected to the lab. “Turns out she was more well-suited to a career in plumbing, rather than research~”

“Ah, I see,” Tulip responded, chuckling. “I’ll be sure to use it before I leave.”

“Well, you may want to save it.” The professor grabbed a remote out of her lab coat’s pocket, pointed it at a metal wall, and clicked a button. Slowly, the metal slid down, to reveal a layer of glass on the other side. “The revival went very well… in fact, so well…”

The metal wall eventually slid all the way down, revealing an anthropomorphic dinosaur in a small glass enclosure on the other side, looking around, confused.

“...That Misteria now has a new student.”

“Woah.” Tulip stepped toward the glass; the dinosaur was surprisingly cute, but also intimidatingly large. Her body was covered mostly in grey and red fur, with her breasts and belly being more of a light pink-skin color. Her tail was large and beautiful, made up of reds and yellows, and being very large. She had an inquisitive, confused look in her eyes, but she didn’t seem dumb. She walked like any other intelligent anthro would.

“She woke up about a month ago. I’ve been explaining the world to her and running experiments. For the next experiment, I was hoping to give her a little more real-world experience, and I think having a roommate could help with that.”

“I see - you want her to stay with me, in my dorm, then?”

“If it’s not too much trouble, then yes, I was hoping so. I heard what happened to your last roommate, so I know you have a spot open… though I would probably ask you not give this dinosaur the same treatment that you gave Amily.”

Tulip giggled, remembering her last roommate, Amily, a sheep who had… well, not lasted long. Living with Tulip was a task not to be taken lightly. “Depends exactly what you mean - it’s hard for me to live with someone if I can’t have any fun with them, *especially* if they’re submissive~”

“Well, I more mean I’d just prefer it if you’d keep her alive and accessible. Besides that, you can do with her as you wish. She may be large, but she’s also quite shy and timid. I doubt she’ll put up much of a fight, no matter what you choose to do to her~”

“Oh~? Almost sounds like you *want* me to mess with her a bit~”

“Admittedly…” Dr. Lianna smirked. “It might be somewhat of a fantasy of mine to hand over a rare, living archaeological discovery that could potentially change the field of science as we know it to a bunny girl who will likely do unimaginably disgusting things to it.”

“Well then, you’ve chosen the right bunny~”

“Great~ Well then, let’s get to work setting her up~”

Tulip, Dr. Lianna, and a dinosaur all stood in the bunny’s dorm room. Although it had two beds, one of those beds had clearly been converted into more of a storage area for the bunny’s clothes. The dinosaur was blindfolded, gagged, and had her hands tied; it was a bit of a barbaric way to transport her, but Dr. Lianna and Tulip tended to create that kind of scenario when they were left alone together.

“Call me if there are any issues, ok?” Dr. Lianna said, heading toward the dorm room door. “Do you need clothes for her, or anything like that?”

“Hmm… I think I have all the clothing she’ll need. She’s not going out in public anyways.”

Of course, Tulip and Dr. Lianna were both dressed and clothed, while the dinosaur was entirely naked.

“Right. It would be best if no other students saw her. Have fun, and tell me all about it~” Dr. Lianna said, with one last little smirk, as she left the dorm room…

Leaving Tulip with her new roommate.

“Alrighty then…” Tulip reached up, removing the blindfold and gag from her new roommate; immediately, the dinosaur began to look around in confusion, her eyes showing clear nervousness. “Welcome to your new home~”

“U-um…” the dinosaur responded, her voice quiet and clearly unsure. She was taller than Tulip, almost by a full foot, but she still felt intimidated by the bunny… for multiple reasons. “W-where am I?”

“My dorm room, and now, *your* dorm room as well. I’m Tulip; it’s nice to meet you~”

“Oh, right, Dr. Lianna said I’d be staying in a dorm with someone she knew… Er… n-nice to meet you too… I’m Irina.” Understandably, she still seemed pretty uncomfortable. “Um… c-could you maybe untie my hands? And could I put some clothes on?” She blushed, looking away from the bunny, holding her thighs together to hide her shame, though it wasn’t working particularly well.

“I can untie your hands, but I don’t think any of my clothes will fit you,” Tulip said, lying. “Don’t worry, we’re both friends - we can be naked around each other, don’t you think~?”

“W-well…”

“Don’t worry, you’ll get used to it~ Would it make you more comfortable if I also took off my clothes~?”

The dinosaur’s eyes widened; she blushed a bit harder. “Um…” She squirmed a bit.

“Oh~? Does that thought excite you~?” Tulip took off her jacket, and grabbed the collar of her shirt, slowly pulling it off and revealing her chest, wearing a pink bra. Her breasts were noticeably large, and clearly, the dinosaur was noticing them. “Like what you see so far~?”

The dinosaur gulped. She’d had a month to get used to being alive again, and she was told she’d be rooming with someone, but she was hoping she could adjust to it slowly. Being naked and tied up, with her life basically in her new roommate’s hands, was not ideal for her. But at the same time… well, admittedly, she was insanely horny, and she was in desperate need of relief from that horniness. “Mmm…” She couldn’t help but stare at the bunny’s soft breasts… “A-a little…” she murmured.

“Good, because there’s plenty more where that came from~” the bunny said, grabbing her belt buckle and slowly undoing it. The dinosaur’s gaze shifted down to Tulip’s crotch as she dropped her jeans… and then dropped her panties, revealing her full lower body, muscular calves, soft, fuzzy, plush thighs, large and fat ass… And, most unexpectedly, her dick, which was hard and ready to go, and also quite long.

Irina huffed; her slit was already dripping. Dr. Lianna hadn't given her any opportunities to get off, and it was very difficult to finger herself with her very long, very sharp claws. It certainly helped that Tulip was *extremely* attractive. She was speechless, just squirming in place.

"I can see this is getting you *quite* excited~ Unfortunately for you, though, I'm not very into vanilla~" Tulip turned away, and went to her dresser. "If you're desperate enough, though… We can make something work~"

"Mmnnn…" The dinosaur shivered. "W-what did you have in mind?"

"Dr. Lianna actually just recently gave me a little invention of hers, and I'm thinking you may be the perfect one to try it out on~"

"A-a toy?"

"Well, sort of~ You won't be naked anymore, at least~" Tulip pulled out a black, latex, rubber pair of panties.

Irina's eyes immediately widened. "O-oh…" she said, biting her lip…

"Not your sort of thing~?"

"N-no, actually, well…" The dinosaur gulped. "There were a few experiments Dr. Lianna ran on me, a-and a lot of them involved latex stuff like that, to keep me, um, i-in place…"

"Hmm, you don't have a good relationship with latex, then?"

"N-no, not that… Actually… I-I'm really into it…" She blushed much harder, embarrassed by her newfound obsession with rubber.

"Oh, really~? Then this works out perfectly~" Tulip smiled mischievously. "These aren't just underwear, darling… Why don't you try them on and see for yourself, though~?"

"S-sure…~"

The bunny finally untied the dinosaur's hands, and gave her the latex. Feeling a bit relieved to finally have some privacy, she put the underwear on, finding that they stretched well enough to fit her, even though they were quite tight. For a moment, she did have the thought that she could escape if she wanted to - after all, she had been told by Dr. Lianna that she wasn't allowed to go out in public or anything, and it seemed like she'd be a lap experiment for a long time, which was not exactly something she yearned for - but it would be difficult to easily find another opportunity to do something fun with a hot bunny. "Er, n-now what?"

“I believe I just have to do *this*~” Tulip pushed on the dinosaur’s crotch, making the dino immediately yip in surprise… but what happened next was *far* more surprising.

The latex suddenly began to grow out, spreading out over the dinosaur’s body, down her legs and up her stomach. “Woah…” she looked a bit freaked out, but she didn’t stop it. “I-is it supposed to be doing that?”

“It is, don’t worry. And don’t move too much~”

The latex carefully covered every inch of her, down her legs, over her feet and even between her toes… over her tail and all of the fur on it… her chest, her breasts, her arms and hands, even up to her neck… but it stopped right before it reached her head. She moved around a little; it was *very* tight, and she could feel that rubbery latex material all over her, the sensation of it being noticeable but not unpleasant. “I-it’s nice…~” she admitted.

“Good~ But there’s more to it than just that~” Tulip sliced a claw down on the crotch; a hole opened up, revealing the dinosaur’s slit to the open air, the latex seeming to move back to make the perfect little hole for it. “See~? Now you can be all covered up…” The bunny pushed her tip up to the slit, but didn’t quite go inside. “And I can still have full access~”

“Mmph…” Irina tried not to show how horny the feeling of Tulip’s throbbing tip against her slit was making her, but the way her body shivered and her tail wagged made that difficult.

“And it has even more than that~” The bunny walked behind Irina, grabbed her arms, pulled them back, and pushed them together. And, when she let go, they stayed that way, the latex seeming to fuse together.

Irina tried to move her arms, but found they were stuck that way. “O-oh… w-wow, t-that’s pretty strong…” she said, suddenly feeling unsure about giving this amount of power away to someone she just met.

“Mhm. I’m sure you see how much fun we could have with this, as long as you’re willing to trust me~” Tulip touched the latex near her throat, and slowly moved her finger up; the rubber began to spread onto her face, slowly. “Are you willing to be my toy for a little while, Irina, and let me use you as I wish~? I promise it’ll be fun~”

The lab experiment didn’t know if she really had a choice… “I-I’m not sure…”

“It’s your choice…” Tulip pushed her cock up against the slit once again. “But if you say no, you won’t be getting any relief for all that horniness for a long time~”

“Mmmnnnggh…” She was *so* horny… She knew this was a bad idea, but… “A-alright… I-I’ll be your toy…~”

“Good~” The latex spread up, covering her mouth, her nose, even her eyes, up to the very top of her head. Two holes remained beneath her nostrils so she could breathe, but her vision was now cut off, she couldn’t move her mouth to speak, and all sound was heavily muffled. “Now that you’ve agreed…” Tulip pulled her dick away, and motioned for the latex to cover the dinosaur’s pussy back up; Irina visibly shuddered in surprise at that feeling. “The *real* fun can begin~ One thing I forgot to mention, that latex *can* be removed, but only if I use a key to do so! I know you can’t see it, but I do have it, right here~” The bunny held up a key, like one you’d see for a house. Small and silver. “Be a good girl, and I will let you out… *eventually~*”

Irina shivered in fear. She was starting to regret this a *lot.* But her hands were bound, her body was covered in rubber, and she was just too timid and shy to try anything… m-maybe if she was good, the bunny would still fuck her? That’s what Tulip wanted, right?

“I’m not actually particularly interested in having a roommate, at least, not someone who I have to actively share my room with… but I *do* like having a nice, big, cute, and very rare toy to play with~ And it just so happens you can serve some other purposes as well~” The dorm room had two closets, large enough to barely fit a person inside; one was the bunny’s closet, and the other would be for her roommate, if she had one. Right now, it was empty… but it wouldn’t be for long. “Come on, in here~”

Tulip led the blind dinosaur into the closet, turning and positioning her to her liking. “Kneel~”

Irina hesitated, not totally sure about this…

“*Kneel*, toy~ Don’t disobey me~ If you do, I don’t mind punishing you - I’m sure you wouldn’t like to spend a few days just standing there in your latex suit without even the slightest bit of pleasure, would you~?”

“Nnmmm…” She kneeled, as commanded. Quickly, the latex on her ass, thighs, and calves melded together, making it so she could no longer stand up, or really, move anything except for her upper body. This was only getting scarier.

Tulip used a claw to open a hole on her mouth; immediately, she took a breathe in of fresh air. “O-oh god…” she spoke. “W-what are you—”

“Shh~” Tulip grabbed her head and shoved her dick inside the dinosaur’s mouth. She thrust it in as far as she could get it, a full foot-long of bunny shaft, so big it went into her throat. She audibly choked on it, struggling, breathing through her nose so she didn’t suffocate. “If you want pleasure, you’re gonna have to help me get some first~”

Her shaft was so large, Irina struggled to handle it, immediately finding herself making desperate *glrk*ing noises as it bulged out of her throat visibly… but she was given no choice in the matter. Tulip held onto her head and began to fuck her mouth like it was a fleshlight, sliding

her cock all the way out and forcing it all the way back in, throat-fucking her like it was nothing unusual at all, the bunny huffing and panting as her shaft throbbed and twitched. “God, that feels good~ I wish all those scientists could see this~ Rare dinosaur, brought back to life, immediately turned into a fleshlight for some random college student~”

Irina shivered and squirmed in place, unable to stop the bunny, the throat fucking so uncomfortable and unpleasant, it couldn’t have been over sooner… B-but surely, this would eventually lead to her getting fucked the normal way, r-right? She just had to bear with it…

And eventually, Tulip did stop, shoving her dick all the way in and cumming down the dinosaur’s throat. Hot, sticky, salty semen; she barely even had to swallow with the force at which it came out. It was an excessive, unreasonable amount, coming out fast and hard as the bunny moaned in pleasure. “Damn, that was nice~ You’re a good toy~ I wonder if your other holes are as pleasant~” The bunny chuckled; that made the dinosaur feel a bit hopeful! “But I won’t be using them today; after all, that took quite a lot out of me, and I have some other things I want to try with you~” Irina’s hope was quickly drained.

But the bunny didn’t pull her cock out; rather, it stayed right in its place. “I actually do have something else I want to try with you… how do you feel about toilet play~?”

Irina shivered. If she could’ve shaken her head - if it wasn’t skewered on the bunny’s cock - she would’ve done so, and told Tulip, very clearly, that she was *not* into anything that had the word “toilet” involved. Urine and feces just grossed her out. She couldn’t imagine being into anything even involving them, much less something where she would actually be consuming them.

But Tulip wasn’t giving her any room to make her disinterest clear.

“Hmm, well, it doesn’t really matter if you like it or not. After all, you can’t move, and you agreed to be my toy… so surely, that means you won’t mind being my *toilet* too, right~?”

“Nnnghh!!” She groaned, her voice muffled by the still-hard cock deep inside her throat, trying to give some indication that she was *not* ok with that.

“Hmm~? Use your words, darling. Oh, but you can’t, can you? Too bad~” Tulip chuckled evilly. “But it’s worth it if you’ll get fucked eventually, right? Certainly you can handle swallowing just a few mouthfuls of my urine~ It’s not too bad, I’m sure… and feel just how long my shaft is~ Don’t you want this inside of you~?”

“Mmmm…” W-well, she *did* really want that, and every moment that passed was only making her more desperate. If swallowing a little urine would get her there… well… It couldn’t taste *that* bad…

“Gosh, I already need to pee pretty badly. My bladder is *bursting*~” The bunny pulled her cock out of their mouth. “Move your head up, vertical~ It’ll be easier to hold it all in that way~”

“Um…” She could finally speak again… “I-I’m not really into this, h-honestly…”

“But you *do* want to have sex with me, don’t you~?” Tulip pushed her chin back, up, until she was vertical, just as the bunny wanted.

“Mmm… y-yeah, I-I do, b-but isn’t there another way we can, um, g-get there?” She wanted to argue or be a bit more firm, but she couldn’t. She still felt so shy and nervous…

“I’m afraid not~” Tulip pointed her cock into the open maw. “Just a few mouthfuls, and you’ll be one step closer to me using that hole as much as you want~”

“A-alright…” Still, really, it couldn’t be *that* bad… And it was probably going to be worth it… and who knew what Tulip would do if the dinosaur refused, especially with this rubber bodysuit? She opened her mouth wide and braced herself…

And Tulip didn’t waste a moment.

“Ahh~” The bunny moaned as she pissed, hot and steamy, a dark, golden color that glimmered so nicely in the dorm’s warm lighting, right into the open dinosaur’s mouth. Irina flinched as she tasted it; it was so bitter, so strong, like beer, but far worse… It made her tremble in disgust. She didn’t have to actually *swallow* this, did she? She couldn’t imagine…

“Go on, swallow~” Tulip commanded, as the maw filled further and further up, the pooling urine making the sound of piss hitting toilet water. “Be a good toilet~ Or else, you’re going to overflow, and I really don’t want to clean that up. There’s nothing attractive about a dinosaur covered in my urine, you know~? I won’t want to fuck you for a long time after seeing that~”

Oh no… s-she *had* to swallow… The level of the piss was getting higher, if she didn’t do it soon, it would really start overflowing. She worked up as much courage as she could, and gulped down a good amount.

The bitter taste was overwhelming; it made her throat feel tight and hard… She shuddered in discomfort. How many more times would she have to do that? And Tulip wasn’t stopping… “Go on~” the bunny commanded…

GULP… GULP… GULP… t-there was so much… it was so gross… she could feel her belly filling up with piss… *GULP… GULP… GULP…* h-how big was Tulip’s bladder, and why was her urine so strong and dark… *GULP… GULP… GULP…*

Finally, the bunny stopped, and, slowly but surely, Irina swallowed what remained, shuddering and trembling the whole time, hating every moment. “G-gah…” she groaned, panting, regaining her breath… “T-that was horrible…”

“Oh, I’m sure it couldn’t have been *that* bad~” the bunny said, shaking her cock off, letting a few more drops hit her latex. “You’ll get used to it eventually.”

“G-get used to it?” She repeated, concerned. “Y-you aren’t going to do it again, a-are you? I really don’t like it, i-it’s really gross…”

“Well, why wouldn’t I~? If I need to use the bathroom, I have to go all the way out of my dorm, down the hallway, and to a public, dirty stall. But if I have a toilet installed right inside my dorm room, I don’t have to go anywhere~ I don’t even have to worry about wearing any clothes! I can just get up, point my dick in your mouth, start pissing, and let you handle the rest~”

Irina’s heart beat fast with fear… surely, Tulip was just messing with her, but still, she didn’t like this at all… “Mmm… I, um…”

“What is it~? Better say it fast - my stomach’s a bit upset, so I’m gonna need the toilet again soon~”

“H-huh?”

“You heard me. I must’ve eaten something bad, because my stomach’s been acting up recently, and right now, it’s *really* aching. If I don’t use the toilet soon, it’ll be a disaster, so I need to use it.”

“Um… w-well, g-go ahead?” Irina said, desperately hoping Tulip didn’t really mean what she was thinking…

“Oh~? How nice of you~ I didn’t think you’d be so open to it so fast.” The bunny turned her ass toward the toilet slave. “Better prepare yourself, because this really is going to be a whole lot worse than the piss~”

“Huh? W-wait, wait!!” Irina tried to pull her head away, but she couldn’t move it an inch, the latex holding her in place. “I-I thought you meant you were to use an actual toilet, n-not me!”

“I *am* using an actual toilet, darling~ As I said, you’re my toilet now, so this isn’t any different from me using one made of porcelain, really. But it *is* a lot more fun~”

“G-god, p-please, please don’t, t-this is too much…”

“Oh, don’t be so worried - you’ll get used to it eventually, like I said~ The first time is always the hardest~” Tulip forced her lips open, the latex now forcing her to keep her mouth

nice and wide. The bunny's belly gurgled; she held onto it for a moment. "Wow, it's really acting up… this is going to be rough~"

"Wait, please don't—!"

Tulip sat down on the dinosaur's head, putting all her weight on the living toilet without hesitation, her ass cheeks slightly parting themselves, her hole hovering over the open maw. "Well, this is a *little* uncomfortable… I'll have to get a seat for myself to use later on. But it works for now~"

Oh god… s-she wouldn't… this must've just been an elaborate tease, a little bit of light hazing for her new roommate… s-surely she wouldn't *actually* shit inside her mouth… That was just too far…

"Hnngh…"

FRRRBBBRRRTTT!!

The bunny let out a monstrous fart, right in the latex-bound slave's face. It was so revolting, she could feel her nostrils burning from the inescapable scent. But that was barely even a precursor to what was coming next…

"Mmmnn…" Tulip groaned; her belly bubbled. "I feel so *bloated* right now… Let's fix that~"

The smell of Tulip's gas was nasty, but even worse was the smell that followed it… the pure, unfettered scent of brown bunny waste. The dinosaur truly hoped her nose was deceiving her as she got a whiff of a fresh log's odor… And heard the sound of one slowly sliding out of the bunny's ass.

"It's a big one to start with~" Tulip said. "Too bad, would've been better if I could've done a little load for your first one, but unfortunately for you, you're a toilet, and toilets are made to be used~"

The bunny clenched her fists, struggling a bit, really pushing to get this log out. It was firm and very wide, ripping her ass enough to hurt, but it would feel so good once it was out. Neither of the two girls were actually able to see the log (Tulip just wasn't looking), but if they had, they would've seen that it was so large, it might not even fit inside a toilet's drain.

As it crept out, the bunny held her cock and stroked it again, not as exhausted as she'd said. "You'll be able to taste it pretty soon~" She promised, and she was right, as the shit hit the tongue.

“Nnngh…” The toilet trembled. It was just as gross as she’d expected, if not more. The bitterness of the urine paled in comparison to the overwhelming grossness of this log of shit. It was hard but slimy, and so thick and wide, slowly going further down into her mouth… she could feel it on either end of her lips. It went further in, down, down to her throat… no, no, no… if this was a joke, surely, it was time for the joke to be over…

But it wasn’t. “Ahh, finally~” Tulip said, as the log separated from her ass and went all the way into the open mouth. She sat up a bit and took a look; it was maybe a little less than a foot long, but plenty wide, and it wasn’t going anywhere. “Better swallow, toilet~ I don’t plan to wait for you, and this load has only just begun~” Tulip chuckled. “But boy, what an unfortunate position for a rare dinosaur to be in, a big log of shit in your mouth, a bunny’s toilet slave… Let me show Dr. Lianna~”

Tulip took out her phone, snapped a picture of the gross, humiliating sight, and sent it off. “There we go - just sent her a picture of it~ Maybe I’ll post it online, too~ See what the world thinks of my new prehistoric toilet~”

“Mmmm!!” She loudly groaned, the log of shit sliding into her throat, slowly but surely… She wanted this to be over so bad… She’d only learned about the internet a few days ago, but from what she understood, anything that was on the internet could be seen by *anyone* around the world, and having pictures of herself eating shit online… It was unimaginably humiliating. But she couldn’t stop Tulip. All she could do was desperately hope that was also just a tease, just a joke, but the bunny girl clearly wasn’t joking about turning the dinosaur into a literal living toilet, so why would she be joking about posting pics of her online?

“You don’t like that idea~? Well, then, I won’t do it… so long as you swallow my whole load of shit~ But if you miss even a single bit of it, I’ll be making sure everyone gets to see lots and lots of cute pictures of my new toilet getting used~”

“Nnn…” T-there was no way she could swallow that log… b-but she had to… If she had any hope of escaping from this hell, she’d just be ridiculed by anyone on the outside. She’d just be known as a weird dinosaur who got used as a toilet… She couldn’t…

Slowly, she began to swallow the log… bit by bit, it crept down her throat, into her body. Eventually, it was out of sight, down her throat. She hated every moment.

“Good girl~!” Tulip congratulated. “Well, then, now that you’ve made some progress, I’ll let out the rest of the load. Better keep swallowing, nice and quick, or else it’s going to overflow, and that means I get to post pics~” Tulip sat down on her before she could say a word, and…

PPRRRTT!! PFFFTT!! PNNNNGH!!

Log after log came roaring out, Tulip holding her stomach for support, as she released a torrent of shit, far greater than what she’d expected to come out. “Nngh, wow, that’s a lot,” the

bunny said, unable to control herself; large logs of slimy, drippy, soft shit filled her toilet's mouth to the brink, to the point where the bunny had to stand up a bit just to keep letting it out. Pieces of brown fell all over her head, piling up high on top of her, many of them sliding down her body or just dropping right onto her lap.

The dinosaur just shook in disgust. It was unbelievable…

"Gosh, that was rough~" Tulip said, laughing, as she pushed out a bit more onto the pile, a few more pieces plopping into the muck. "Well, that was a little unfair… Swallow what's in your mouth, and I won't post anything. But obviously, no fucking tonight… I can't imagine putting my dick into you after you've got all this shit all over you~"

No way… e-even after all this, the bunny still wouldn't fuck her… She couldn't even refuse to swallow out of dismay; she couldn't let those photos go up. She started to swallow down shit, filled with disappointment over not getting to feel Tulip's shaft inside her slit… Still… m-maybe, eventually… S-surely she'd fulfill her promise at some point… Irina just had to keep pushing…

And, with her ringer off so it would make no sound… Tulip went ahead and took *plenty* of photos of the disgusting mess in front of her. As she waited for her toilet to finish flushing, she went ahead and began posting them everywhere she could - Twitter, Instagram, Reddit, even 4chan, and of course, on any porn site where they were fitting. Maybe she'd even make some money off of them.

As soon as all the shit was swallowed… "Well done, darling~ I was getting worried - thought I might have to unclog you~" The bunny tittered. "Also, I changed my mind, and went ahead and posted a few pics. Hope you don't mind~! If it's any consolation, they're doing really well~"

"N-no…" Irina murmured… "Y-you didn't really… d-did you?"

"I did. Have I ever lied to you before~?" Tulip pushed Irina's mouth closed, and the latex formed back over it, muffling her. "I'll read you some of the comments later. For now, though… I'm all done using you, so get some rest~ If I need to piss or shit again, though, I'll be sure to come and use you~! Better settle in…" slowly closed the closet door. "You're going to be here for a *very* long time~"

Days passed. Weeks passed. Months passed. Irina was used like a toy and toilet every single day by the bunny, no matter what she wanted, and because of that latex suit, she couldn't do a thing to stop it. It became her life; she never learned to like even a moment of it, but she did grow used to it… Or at least, as much as she could. The taste of shit was something you could never really get used to.

Irina had no idea how long it had actually been, but Tulip did tell her every time a day passed… Given that Tulip wasn't lying. She'd posted lots of videos and pictures, and they were doing so well, the bunny was making money off of them. Any chance of Irina living a normal life was basically over.

And still, Tulip had never once fucked her in the pussy. The bunny had no problem using her mouth, or even her ass sometimes, but what she really wanted, she could never have. The bunny would constantly tease her, even put her dick up to the slit and tell her she was about to do it, but she never would. Still, Irina held on to some hope that it would happen eventually, but she was kept in constant chastity, constantly pent-up and desperate.

It was a day just like any other… Rarely, Irina would be allowed to leave the closet, but she'd never get to see where she was going because of that rubber over her eyes. But Tulip was taking her elsewhere today. "Come on, Irina; it's been a while since I used an actual toilet. But don't worry, you'll still get to enjoy it~"

The bunny dragged Irina into the nearby public bathroom, into a stall… Tulip sat down on one of the toilets, and made the dinosaur kneel in front of her. Without hesitation, the bunny grabbed her head, shoved her dick inside Irina's mouth, and began fucking her, while also loudly shitting in the toilet, every *PLOP* and *PLUNK* echoing in the room. Irina's mouth was thoroughly used, filled, her throat being invaded by the cock over and over again, as she had to smell the nauseating scent of Tulip's waste… it was *overwhelming.* Where was that key that was supposed to free her from this? She was actually into latex before, but now, she couldn't imagine enjoying another second of it. She didn't believe that key even existed.

"Ahh~" The bunny came, moaning as she squirted semen into the dino's throat, and then, she began pissing inside of her like it was nothing. "That felt good~"

Irina didn't respond; she was just so used to it now, she could barely even think a thing as she swallowed urine…

She did, however, hear something…

Tulip took out a silver key, looking just like any other house key, but it held more importance to that. It was the key to this little latex device, the only way to get Irina out of there. If used, the key would make the latex device go back down to just being a pair of rubber underwear, and it would fall right off of her. Otherwise, only small holes could be made in it; it couldn't shrink back down, and it couldn't come off her body. There were no duplicate keys, and from what Tulip remembered, Dr. Lianna only made one of these suits…

The bunny smirked, and dropped the key into the toilet, watching it slowly settle down on top of her shit, as she pulled her cock out of Irina's mouth. She reached behind her, grabbed the handle… and pushed it down, watching as everything inside the bowl swirled, and swirled, and swirled… eventually going down the drain. The key was gone.

“W-what was that?” Irina asked, curious about the sound of the plop.

“Oh, nothing… just a piece of trash I had in my pocket. Come on - back to your closet~”
