

# The Voracious Wager 2

## By Halcyon and Vivid Lucidity

~.^~.^~.^~.^~.^~.^~.^~.^~.^~.^~.^~.^~.^~.^~.^~.

Violet pulled the backpack up tightly against her back as she stood waiting above the swirling purple portal. She knew that, as soon as she jumped in, it'd send her to a random spot of the terrifying jungle island.

The island, which was called Isla Voraz, was full of all manners of hostile creatures and entities, some intelligent and others feral. It was a very unwelcoming place to outsiders.

But that's just what drew her there. Violet had another bet with her friend Luci, one that was undoubtedly bound to get them into trouble. The two were to descend down into the island and try and survive for as long as possible. Whoever died three times first, was the loser.

"So..." Violet began as she checked to make sure all of her supplies were in order. "Loser has to stay on the island for an extra two weeks after it's all over, right? Is that the game?"

"Yep~" Luci replied, tightening up the straps on her own backpack. In contrast to Violet's it was a bit larger, a fact that made her purse her lips slightly. She knew that it would slow her down a bit ... she hoped that wouldn't screw her over later.

"As soon as one of us dies three times, the other gets a portal out of there. The other gets one too ... just after two weeks~ Think of it like a tropical vacation!"

Luci laughed, giving a mocking jab to the friend that stood on the other side of the swirling portal. They were on a raised platform on the second story of the building, with the swirling portal looming at the bottom. Just jump in and be whisked away.

Easy.

Edging her foot out slightly, she watched as specks of dust fell into the swirling mire. Luci couldn't deny it, looking down at the portal made the hairs on the back of her neck stand up on edge slightly.

"And that'll be you getting that vacation this time," Violet said as she likewise peered into the portal. "After I lost the bet and had to be your slave for that month... ugh, that would have been bad even if you DIDN'T have that annoying cat morph put on you," she said. "But I'm not stressing."

Violet clenched at the knife at her side - the only physical weapon she had. Death was so assured on the island that they had been given three lives. She wasn't naive - she knew she'd lose all three of them in short order. All she had to do was outlast Luci.

"Anything else? That telepathy magic is in working order, right?" She asked.

Luci twirled her knife as well around her finger, before sliding it into a holster on her chest. She hoped

she didn't lose it or anything.

"Ugh, yes, I'm totally the victim here after being mutated against my will! I mean sure, having a dick was pretty fun ... off topic!" Luci blurted, trying to hide her growing blush. The mutation had worn off, reverting her back to any other human girl, but she couldn't deny that the time she had was fun.

*"And I don't know, is it?"* Luci said through her telepathic link towards Violet.

Luci wasn't naïve as well. The jungle was bad, but Isla Voraz? That was worse. An island off the southern coast of the infamous jungle, it was concentrated monsters and danger. The worst of the jungle distilled and purified into an island the size of a small country. Luci doubted even she'd last a day.

Which would make it all the more fun to win.

"Yeah, yeah," Violet laughed as she put her knife away. "Alright, then. Are you ready?" She asked, walking over to stand next to her her friend. "On the count of three, we'll jump."

Peering down into the portal, she steeled herself. It nothing else, it was bound to be a fun few days.

"Yeah yeah." Like a cat, Luci readied herself up for the jump.

"One ... two!"

On the count of two, Luci jumped! She leapt down towards the portal before Violet had a chance to! As she fell, she flipped herself around to face her foe ... and gave her the finger. Both hands, middle digit raised, while she had the biggest shit eating grin imaginable.

If she was going to win, might as well get to boast about jumping first too~

Violet crossed her arms. That bitch! She thought, but then smirked. Well, every second of head start Luci had was another second Violet was safe~

Soon, however, she decided that was enough. She didn't want to be accused of cheating, after all. Violet herself dove right into the portal and was whisked away...

As she fell through the portal however, and found herself whisked into the strange world ... Luci immediately realised she had made a mistake. She slammed into the ground on her back, knocking the wind out of her. Not the best way to land, but hey, at least she was there. Getting to her feet, she looked around and reached out to her friend...

**Luci:**

Hey, you there? Where did you land? I'm in some hills or something. Looks like it's all covered in trees and stuff, and there's a river snaking between them. So where did you land? If you landed in something's open mouth, I think I'll piss myself laughing~

**Violet:**

No, but that would actually have been pretty funny. I think mine messed up. I'm like... on what seems like a really tiny island off the coast of the actual island. Actually, it's so small it's more like a sandbar. Is this right? Should I re-jump? Ah, wait, what am I thinking. Of course that's not even an option. Fuck, my legs are soaked...

**Luci:**

You don't get to rejump sweet heart! Either stay where you are, or start swimming! Just remember that if you die in a boring way, like starvation, dehydration, heatstroke or drowning, that still counts as a death! Is it a long way to swim back to the main island? I hope no sharks get you in the water! Oh, wait am I saying, I hope you do!

I'm currently working my way through the trees, following the river, but going nowhere near it. I know that big beasties like water, so I'm staying far as heck away from it. Just hope that nothing from the sky gets me up here, the cover isn't as thick as I'd like...

**Violet:**

Damn it. Actually, now that you mention it, it seems quite safe out here, relatively, compared to probably what you're gonna encounter over there on land. I wonder if I could just bide some time out here until I get hungry?

Geez, there's actually some dark shapes in the water out here. Fuck, I wonder if I should try and head to land? Oh, shit, are some of them coming closer? W-Wow, this is a little scary...

**Luci:**

Heh, honestly, staying on the island was probably a bad idea anyway. It sounds so tiny that anything in the water would probably be able to snap you up anyway!

But uhhh ... on the topic of dark shapes ... there's something in the sky. Something big. Oh frick ... this ... well ... this is ironic. You know how the first thing that ate you in the jungle was a giant harpy? Guess what I just found? A giant harpy!

What are the odds?! She's flying pretty low, I'm going to hide under this tree and hope she doesn't spot me!

**Violet:**

Oh shit, that does sound dangerous. Watch out; those things are super predatory. But it's funny that you just ran into something that I ran into back when...

Okay, umm, fuck, one of the shapes is definitely coming closer. Okay, it's coming... oh my GOD it's huge... ahhh AHHHH! HOLY SHIT! A giant crocodile just came up onto the sandbar! FUCK! Okay, I'm running away! I'm wading through the water... oh my god, this is terrifying! I've got to get to shore!

**Luci:**

Go crocodile go! Snap her up and churn her down to gator shit! Haha, this is amusing to watch to pass the time as I cower under this tree. I don't want to stay up here too long, who knows what'll come around next!

Okay ... I think I lost the harpy. She's flying off ... yeah, I don't think she saw me in the first place. I'm clear. You on the other hand ... not so much~

I'm following the river now, sticking to the thicker trees. Wait ... hang on ... I think I can see the outlet leading into the ocean! And ... I think I can see that sandbar you were talking about! We might've landed closer than I thought!

**Violet:**

Ugh, you suck. No fair that I'm in peril and you're doing fine. Can you really see me? Am I flailing through the water with a hungry predator chasing me? Because if so, you might be onto me.

Okay, update on my end. All is not lost yet. The giant croc kinda got distracted... because another one lunged into it. Now they're FIGHTING. They're going nuts and attack each other, and I'm just kinda desperately chugging along towards shore. Are they fighting... over me, you think? The thought just sort of makes me shiver. This place is really, really bad...

**Luci:**

Hmmm, I don't know. Crocs can get pretty violent sure ... but why would they fight over a piece of meat as small as you? No offence~ Maybe they want to do something else with you? I don't know, I'm not an expert on crocodiles. And yeah, I think I can see some of those crocs, so I think I'm in the right place! What are the odds we'd land close together like this?

Ooh, what are the odds that harpy I saw before eats you! Haha, that would be hilarious!

**Violet:**

Something ELSE? Ugh, what is it about me? Am I just that alluring or something?

Hah, okay, I managed to crawl onto the beach in a hurry. Whew, I'm fucking exhausted. I need to sit down for a bit. Geez... I don't see you anywhere, though.

**Luci:**

I can't see you either, since crocs are a lot bigger than you! And are you sure you want to rest on the beach, crocodiles can walk on land you know!

That's why I'm staying away from the river, I don't want some frog or something to drag me into the water with it's sticky tongue, ugh. Or at least, I'd like to ... but there's some rocks about, so now I'm next to the river. Ugh, I don't want to stay here much longer! Just going to get out onto the beach and head AWAY from you, until I find somewhere safe. Ooh, maybe a nice, safe cave!

**Violet:**

LUCI, DID YOU SEE THAT?! HOLY SHIT, AHHH! Okay, sorry for yelling! In case you didn't see it, there's a fuckin... ahh! I don't know, is this the Kraken or something? These giant tentacles just rose up out of the water! They snatched up both of the crocodiles and pulled them under the surface... and more came up! Oh my god, this is horrifying!

I'm running towards land as fast as I can. I knew that this place was bad but I never thought I'd get

attacked by a REAL SEA MONSTER!

**Luci:**

A Kraken?! Crap, that's something else! Shit, I can see it all the way from here, that thing is huge! All I can say is that I'm staying WELL away from the water now, and good luck! You're going to need it!

**Violet:**

H-Holy crap. Some... I guess, like, pirates or something just showed up, a-and... is that a hovercraft or a boat? Fuck, I can't even tell. But they just went to war with the freaking kraken! They're shooting bows and arrows and... wait, does that one have a rocket launcher? What is up with this place?

**Luci:**

One must wonder how one runs an agency in which some members are equipped with bows and arrows, while others have missile launchers. And how such members must feel about the short end of the stick~

But I'm not surprised. Isla Voraz has a LOT of rare, valuable things on it, making it ripe for plundering. Oh, on the topic of plundering, they may try and plunder you. So, unless you want to end up as their slave or something, I recommend you get out of there, fast.

I've managed to work my way into some thick jungle, so no beasties from the air or sea are getting me now. Still ... lot of roars out there ... scary. I hope I can find some shelter soon...

**Violet:**

Plundering... me? That's a pretty ominous thing for you to say. But I think that you might have some merit to it, because as soon as they killed the kraken (yup, that happened)... they started marching right up onto the beach. I managed to slip away into the jungle, though. Fuck, I am NOT gonna be a sex slave again!

Okay, I'm creeping around through the brush, now. I'm totally soaked, so it's hard to move around, but at least I've got all my stuff with me. Ugh... I am not off to a good start. But at least I'm still alive.

**Luci:**

Heh, nice call back~ And pity that they didn't capture you as a slave, since maybe I could've bought you from them and had you as a meal three times! Ahhh, that would've been great!

I'm just going through the jungle myself. Everything has started to go quiet ... what the?! I ... I'm stuck! Oh frick, I've been ensnared! I'm covered in all these sticky tentacles, oh crap, they're dragging me upwards! It's a maw trap! Plant that hangs high in the tree, dangling its vines, waiting for anyone to come across ... and it's snapped me up! It's dragging me up towards its maw, ahhhhh!

Gah, can barely move ... gotta get my knife...

**Violet:**

Of all the things in the jungle, and you got caught by a plant? A stationary plant? Heh... sounds like you're chow to me? Ohh, I hope that plant enjoys you, because once you're in its stomach, I'm definitely gonna gloat to you. Now that I'm in the jungle, just gotta find some inconspicuous place to at least wait out a day or two...

**Luci:**

Shut up, it's not funny! It dropped its vines down to catch me, I swear! Nngh, just get that knife, nearly there...

Ugh, it's starting to take me into its mouth, so disgusting! Got it! Take that! And that!

Haha, take that you stupid plant! Cut myself free, just in the nick of time too! Okay, back to walking and looking for some shelter, but I'm definitely going to keep looking up for now!

**Violet:**

You lucky bitch! As far as I'm concerned, that plant should have gotten you.

...

Hey, you there? I'm in a bit of trouble. Was sneaking around, and... I came face to face with a beautiful lamia. She's got a long tail with gleaming brown scales. Her skin is tanned and she's got this beautiful chestnut hair. She's totally nude... And licking her chops as she stares me down. Fuck, she definitely saw me. I might be getting into a fight...

**Luci:**

Of course you say that! Well, I hope that this lamia gets you too, there! Lamias are hungry hungry gals after all, who are you to deny them a meal? Meany~

Ummm ... oh fuck. Uhhh, Violet? I think you might've had the good end of the stick here...

I met a lamia. Several. A pack of them. Six in total.

And they're ALL staring me down, licking their lips. Fuck... doubt I'll be able to fight my way out of this one...

**Violet:**

So we're both in at least some sort of trouble, heheh~ Serves you right!

God, I'm trembling. I'm terrified. The lamia is teasing me now, telling me that once she gets her hands on me, she's going to peel my clothes off like a banana and slide me down into her tail stomach.

Wow, okay, I gotta think fast ahhh!

Okay, I just ran toward her, and... slugged her as hard as I could! She was totally caught off guard... w-wow! I'm running now! I think I got away! But I can hear her chasing me! Fuck, fuck! I need to find somewhere to hide...

**Luci:**

If you can, please run towards me so they're more focused on you than me! Lamias find you attractive or something, right?

Oh ... oh crap. Hey ... fun fact. Remember how I met that cute naga girl back in our last adventure?

Well ... just before I jumped in the portal ... I had some fun with her. Quick hookup. And well ... I still kinda smell like her ... and it's turning them on. Woah!

They ... they pinned me to the ground and now they're fucking me! Fuck! What's going on! One's gah ... nnfnffff ... one's a herm ... she just shoved her cock up my lower lips GAH ... another up my ass...

One of the girls ... I think the leader ... she's making me eat her out ... gross...  
One of the weaker ones ... some runt ... she's a herm ... and is making me give her a titjob...  
And the last two, herms, they're forcing me to jerk them off...

I feel so violated...

**Violet:**

Hah... hah... okay. Whew. I am SO out of breath. I just ran, and ran, and ran... oh my gosh, I'm exhausted, I need to sit down.

Fuck, the whole time I was running, I just kept thinking about her licking her lips. I do NOT wanna spend all day pushing through that pretty tail. Ugh... hah... geez, I'm soaked with sweat.

Phew, lucky you, playing with five cocks at once. Are they, like, human cocks, or reptile cocks? At least you're not in any of their bellies, yet. I'm surprised you still smell like that other one, though, after all else you've been through. Lamias are really weird.

**Luci:**

They ... gah ... nffff ... they have really sensitive noses ... so a little pheromones can really make you stand out. And they're definitely reptile cocks. Really ... gah ... really big reptile cocks. Gah, just a few days ago I was in The Spire, sipping wine with a fancy dress, and now I'm getting fucked by a band of lamias! Life is so unfair, gah!

How long are they going to last for, yeesh? And here you are, getting away scot free! I hope some snake sniffs out your sweat and gobbles you up!

Fudge ... they just came ... there's so much cum here! And now ... now they're just leaving! Not even saying thank you, they've just slithered off, leaving me coated in cum! I'm freaking bloated with this crap, and it's all so sticky, gross! I need to find a river to wash myself off...

**Violet:**

Heh, you sucker. You should be thanking them for the present they left on you, and in you~

I was actually just looking for a river to get a little drink, but I found a bit of a clearing instead. It's kind of nice. I think I'm gonna break for a few minutes and drink some of my canteen. I'm bound to lose it sooner rather than later anyway.

**Luci:**

Yeah, I hope you do lose it! Wow, I sound really petty ... well I'm in a bad mood, so that's why! And I'm not going to thank them! I'm heading towards a river now ... hope nothing tracks me down on the way...

Oh. Oh crap. I can't move a muscle. Not a single muscle. Violet? I've found something a bit ... worrying...

**Violet**

Uh, what is it? I think we're both in trouble, because something's spotted me in this clearing.

O-Oh my god. You'll never guess what's coming towards me. Ohhh geez... It's... a panther boy! Haah... fuck. Remember him? You made fun of me for ages after the last one. This one looks... really tough. Ahh, my legs are shaking. Fuck, should I try to fight him off? M-Maybe I should just play nice and

hope he leaves me alone...

**Luci:**

Hahaha, a panther boy! What are the odds, this is hilarious! At least I can laugh at you in my head... since I can't.

I walked into a clearing ... and there's a giant Venus Fly Trap in there. It's got a head with a great big chomper on it in the central plant ... a head it uses to snap up prey. Prey like me. Thankfully it can't hear, or see ... only sense vibrations. Vibrations like when I walk.

It's looking around for the source, and I'm as still as a stone. Too far to leap back into the trees ... what am I going to do?!

**Violet:**

Fuck, I'm too scared. I-I don't know what to do. O-Okay, he's coming closer. My hands are shaking. His sheath is bulging out hard...

O-okay, I gave up. I put my weapon down and unzipped my shorts. I started pulling them off, and his cock is swelling up out of his sheath... ngh, o-okay, I guess this is happening. I'm pulling my shorts off now. Now my panties.

Heh... what are you gonna do? You sound like you're in trouble... but you still have your knife, don't you?

**Luci:**

Why am I not surprised you're just kneeling over and submitting? But at least you have it easier than me ... I'm in a bit of a pickle. Yes I have my knife, but this thing is still pretty big and dangerous! The entire thing is about as big as a house, and its root system, with its digestive tract, are very large too! I might not be able to cut my way out...

Okay ... slowly ... gently ... tiptoe out of here ... CRAP! It spotted me! Fuck, it's a fight then! FUCKING BRING IT, ARGH!

It's freaking biting and snapping at me, trying to trip me with its tentacles! I'm slashing at it, trying to keep it at a distance! Rargh!

**Violet:**

It's called being tactical, Luci! It's how I've managed to survive this far. But you can be all big and tough with your knife while I just do what he says...

Okay, I laid down on my back on the ground and spread my legs apart to try and placate him. The grass feels rough against my naked parts. Please don't eat me... please don't eat me..

Okay, he's sniffing me now, and his cock is getting even bigger. That's a promising sign...

Yes! Okay, he's turning me over. He's mounting me! I think I might be safe for now... hah, wow, his thing is really warm...

**Luci:**

That's great and all, but I'm fighting for my first life here! Crap, it's hard to fight when you've got a gut filled with cum!

Crap! I tried to get away, and it just snapped its jaws shut over my waist! Hah, still got my knife asshole ... ah crap. It's thrashing me to side to side, and the knife just got flung out of my hand. I'm plant food now...

**Violet:**

hah... ngh... serves... you right! Again... mmh... Sorry, it's hard to think. Panther boy is humping me now. Do you think he likes me? His thing is so thick... ngh... ouch...

Ugh, he's licking my neck from behind. I can feel his fuzzy nuts slapping against me from underneath. Ahh... I was just doing this to placate him, but I think I might cum.

**Luci:**

Well aren't you having fun? I'm currently in a plant's mouth, trying to hold on as it tries to gulp me down! Wait ... no no no!

It gulped me. I'm now being dragged down its tight throat ... gah ... plants are always the worst, always.

You're having a fun time with your panther boy fling, and I'm currently being swallowed by some overgrown house plant, gah! It just dumped me in its gastric chamber, and it's filled with bright green glowing acid. It's going to digest me real quick, isn't it?

**Violet:**

Panther boy is a little rough... mmh. He just pushed my face into the dirt. Umm, okay, ahh... he's breeding me now. Okay, shoot your load inside me. Ngh... that feels nice, and positively primal. It's so thick and warm...

What's it like inside of the plant? I've only been eaten by plants a couple of times, so I don't have a lot of experience with them. Can it really digest you that quickly? That glowing acid, though... I've never heard of that. That's really weird.

Okay, my uterus is totally full of panther-boy cum. Can you let me go now? Nope, he's rooted inside of me. Gotta wait for his barbs to retract. Oh, he's licking my neck again. How sweet.

Okay, a few minutes went by and he finally dismounted me. Now - h-hey! He just slung me over his shoulder! Should I fight back?

**Luci:**

It sounds like he's your boyfriend now, you're complimenting him that much! Maybe he's taking you home to get married or something, since you seem to be madly in love with him at least!

And it's really, really weird in here, that's for sure. Plant guts are unlike any other, they're just so weird. Wait, but this stuff ... it isn't acid. Sorry, I got confused earlier. This green stuff, it's concentrated sunlight. I know that some plants, they purify chlorophyll when it hits the sun, and store it as a glowing green liquid in some sacs to last when times get tough.

Wait, so if this isn't the stomach ... then where the heck am I? There's some sphincters in the walls, maybe they lead to a way to escape...

Crap! I was walking towards one of them, and a swarm of tentacles burst out and dragged me in! I'm now in a tiny sac that's barely big enough to fit me, ugh, let me go! Is it going to digest me now? Oh. Oh no. No no no no no. This ... this is much worse.

This plant ... it has a milking chamber. Some plants ... they have a chamber designed to 'extract' nutritional fluids from females ... and I'm right now in it.

Gotta get out, gotta get out ... oh no, gah, no no no!

The walls are swarming with tentacles, and they're currently all milking my silly! One's shoving up my lower lips, another up my ass, two on my breasts, and one's shoving its way down my throat! It's horrible, simply horrible!

It's going to relentlessly rape me for the next half an hour, then dump me and churn me down into goo. Fuck ... this sucks...

**Violet:**

Oh my god, are you alright? I don't even know how to begin with that. That sounds like a hentai fantasy. Are they like, getting all of your fluids? Like going into your nipples and everything? Holy crap, that's wild... does it, uhh, hurt? I assume that they'd give you some sort of aphrodisiac to make you, you know, secrete more...

Mhm, Panther Boy just carried me right off. I still have my backpack, but we left my shorts and panties behind. Umm... hello? Did you forget about those? Geez...

He carried me through the jungle for like twenty minutes. I can't believe how strong he is. I'm too scared to fight back, though.

Umm, Lucy? All that stuff about panther boy being my boyfriend... I-I kind of think you might be right. He took me back to... I guess this is his home. It's a crude little hit. There's nobody else home. I just sat here for a few minutes as he walked off. When he came back, he handed me a mouse girl.

Luci, I-I think I'm his mate, now. Am I supposed to eat this...?

**Luci:**

No ... no aphrodisiac. Can ba ... barely think. Twenty min...minutes already? Cum more times ... times than I can count. Milking me like a co ... cow.

Lucky ... luck you ... gah ... came again... when will this end?

**Violet:**

H-Hey, are you alright? Luci? I tried to reach out to you but I didn't think you could hear me. You still there?

I swallowed the mouse Panther Boy gave me. In return, he made me take the rest of my clothes off. Now, we're just sitting naked, and he's holding me, rubbing my belly as the little mousey churns in my stomach. It's... super nice.

**Luci:**

Nffff .... ha! Sorry ... I kinda blacked out there! Just came my last time .. and it forced me through into its 'stomach'. The acids are super concentrated, and I'm already falling apart into goo. I can barely feel anything, everything is just so sore ... I hope it doesn't persist after my reformation.

This is so unfair! You've gotten yourself a boyfriend and a meal, and I'm now being churned away to fertiliser! If I find you Violet, and I'm going to get back at you, I promise!

**Violet:**

Could it tell when you were all milked, and then it just slid you right into its stomach? Wow, that's really intuitive. I'm impressed.

To be honest, though, I might be a little luckier than you, but I don't think you'll need to get back at me. Panther Boy took me out back, and now he's urinating on me. Guess he wanted to mark me... ugh, this is gross. But now I DEFINITELY know that I'm his mate. Mmh... but why do I feel like his property? Animals are weird. Yuck, it's all over me...

**Luci:**

Yeah, they are. And it could tell, that's for sure. I'm now just a pile of goo worming its way through its intestines, and don't even expect me to tell you what THAT'S like. I don't even know what I'm looking at. I'm probably going to be reformed and up on the surface in a few minutes...

**Violet:**

Already? That was kind of quick. Although maybe not - It's pitch black out here, now. Once I dried up, Panther Boy took me to his bed. It's made out of leaves and stuff but it's kind of soft. As soon as I got in, though, he climbed on top of me and mounted me from the front. Now he's humping me again... guess he wanted to mate again before bed. Kya...

**Luci:**

I just reformed up on the surface. Grabbed my knife (the plant isn't awake now, must be too busy digesting me, joy...), but I'm naked, got no supplies, and just a knife. This sucks...

**Violet:**

Panther Boy wrapped me up in his arms and came inside me... it's weird taking his fresh load when I still have some of the old one in me. But, mmh, I love those warm spurts that come with a deep creampie...

Okay, Panther Boy emptied his balls out and fell asleep. I think I'm gonna sleep too... you should get some shelter as well!

**Luci:**

Nnngh, you awake yet, house-wife? How's your new boyfriend treating you, spooning you in bed? Rubbing your gut? Gah, I can't believe your luck...

**Violet:**

Luck, huh? You've got some nerve saying that now, after how much you already teased me! For your info, he's out catching us breakfast right now. Last night's dinner is working its way through my intestines... why am I so happy right now~?

How are you doing? Find shelter? It looks like the dawn is just starting to break...

**Luci:**

Yeah, I did find shelter. Don't know how I didn't get eaten though. While you were out eating mouse girls, I was eating grubs like some freak. Ugh.

As soon as it gets bright out, I'm leaving. Longer I stay in one place, the greater my odds of getting gulped are. I need to find some proper shelter.

**Violet:**

Yeah, you're probably right. I feel like I'm probably safe for now with his scent on me, though I'm not letting my guard down. I'm sort of debating how long I should bide my time here before trying to find something else to do.

Ah, Panther Boy is coming back now. Yay! He's got another mouse girl for me! Mmm, I'm gonna enjoy swallowing this one.

His belly is a little bigger, though. I wonder what he ate? Something seems to be kicking inside of him.

**Luci:**

Ughhhhhhhh... this is literally the worst possible news I could've received. Not only are you getting food, but he just ate someone that ISN'T you! This is unbelievable! What's next, is he going to build you a castle for you to spend the rest of your days? Argh! That's it, I'm heading towards you. As far as I'm concerned you're not going to get eaten any time soon in that hut, so I'm going to try and expedite that process. Got a long way to go, but I'm coming.

I just hope I don't get eaten on the way there...

**Violet:**

Huh? How do you even know where I am? You've got to be kidding me. Trying to help him start a breeding harem, you little slut? Heheh~

Okay, he's sitting now and I'm rubbing his belly. Wow, his stomach is really powerful beneath his abdomen! I can feel it crushing apart whatever he must have swallowed. Ehe, he seems to like it!

Mouse girl is kicking in my tummy, too. It'll probably take me a little longer to digest her, but I've got time~

**Luci:**

I know where you 'roughly' are after I saw those crocodiles and Kraken, so once I get there, I figure I'll track you down and be able to do something to you. But I'm of course not going to tell you what that something is, heheh~

Okay, I'm working my way through the jungle now, looking out for stupid plant traps. How is it that the first thing that gets me on this island is some stupid, overgrown houseplant?!

Actually, now that I think about it, I really haven't seen ANY of those plants around here. Wow, this is weird. There's this really big, deep crater here, as if something big had been ripped up. Did somebody dig up a carnivorous plant? But how could anybody do that? Unless...

Oh no. I think I can feel it: there's a giantess about. I do NOT want to become some giant's sex toy! I'm hiding under these tree roots, I don't want to be eaten again!

**Violet:**

What! Oh, shit, really? How can you be sure? Is it just because of the crater, or can you feel the footsteps, too? I personally can't feel or hear anything, but I think I just saw Panther Boy's ears twitch. Maybe he heard something?

It's funny that sex toy is where your mind went first, rather than snack. Although I, too, remember our last hurrah where those giantesses used us... that was a rough couple of hours, huh?

**Luci:**

They got even rougher when you shrunk me afterwards, and I still haven't forgiven you afterwards for that! And I can feel her footsteps, crap, why does this always happen to me? But if your husband's ears are twitching too, maybe we're closer than I thought....

Heheh, thanks for that darling, you were a big help~

As for my little conundrum, well, I've got some good news and some bad news. The good news is that they haven't seen me. The bad news is that there's not just one: there's a whole group of them! They're in a clearing just milling around, there has to be at least six of them! If I could just get them to go towards your little home, heheh, you're safe little spot won't be safe anymore~ But I've got no clue where you are, and I doubt that asking them to help will do me any good. Hmmm.

They haven't seen me, so I'm going to keep it this way, and go back to looking for you. But if I do find you, heheh, I'm going to try and bring those giantesses over~

**Violet:**

I don't know what you mean you haven't forgiven me. Haven't you gotten enough out of use out of me, you know, for that whole month?!

Six giantesses, huh? Holy shit, that's extreme. I don't know how you're going to get all of them to follow you, though, so I'm not really stressing. Just gonna enjoy rubbing this strong tummy~

I hear something too, but it's not quite as big as a giantess. There's some rustling coming from nearby... but I can't really tell if it's something big or small. I hear the leaves and the trees rustling as if something is coming this way.

Panther boy hears it, too, and it's weirdly quiet. Okay, he's getting up now. What could it be...?

**Luci:**

Please be a voracious predator, please be a voracious predator...

**Violet:**

O-Oh my god. It's... It's a giant... a-a giant frog. A giant frog just peeked at us through the... the trees. This this is HUGE! We must be, like, the size of flies to it!

Oh, fuck, what am I gonna do? It's looking at me. Panther boy seems like he doesn't wanna move. I think I could dive and grab my backpack with my knife and stuff, but the sudden movement... Ah, hell, it's lips are moving... I think I'm gonna go for it!

**Luci:**

Hooray! It seems that my wishful thinking has paid off! Enjoy being frog food!

Seeing as you've been dealt with, I'm going to keep going in the way I'm going, but take a wide berth around you. I want to see if I can find some useful shelter in the jungle near the hills, maybe a cave or something.

**Violet:**

Okay, I'm going in three, two one... go!

AH, AHHH! Its tongue slapped against me from behind! WHOAAA!! I'm flying through the air! No, I was so close to getting my stuff! No, don't eat me! DON'T EAT ME!

Ngh... no! I'm sliding down its throat... urgh. I just plopped out into its belly. Ugh, it's SUPER slimy and messy in here... and I'm totally naked. Damn it, I wanted to mate with panther boy one more time. I think I'm gonna cry... stupid fucking frog!

**Luci:**

Haha, smart, awesome frog to me I reckon! And how horny are you that all you want to do is mate with your Panther Boyfriend from inside a disgusting frog's gullet? It sounds like you almost WANT to be my pet again, just so I can sate those urges of yours, heheh~

Oh. I better stay as far as I can away from you as I can, since out of all the people in the world I could share a belly with, you're at the very bottom of THAT list. I'm now at the foot of these mountains, sticking in the thick trees so I don't get gulped by any flying harpies or anything like that. Seems like a pretty peaceful place if I'm honest!

Oh wait, I can see something up ahead, a light! I might've finally found some civilisation here...

Oh. Oh my. I found something even better. Tucked away in a little nook between two trees, glistening like a diamond from the sun is one tiny little settlement of...fairies.

As soon as I saw them, well, I just went wild. I've had enough of eating grubs, so I just chowed down on them like a woman possessed. And haha, their spells do nothing against me!

**Violet:**

I can't help it! You know how I get when something dominates me! Weh...

You caught fairies? And their spells are harmless against you? Well, that's good to know, but I feel bad for the poor little things. How did they taste? And how many did you eat, even...?

Damn it! Stomach acids are gushing out onto me now, and I'm just crying. I'm so upset. I didn't even get to shit out the mice he caught for me. And when I respawn, my scent marking is gonna be gone, which means I'm definitely gonna be just as vulnerable as I was before. Ugh...

The big frog is digesting me and carrying me off. I don't know if you can see it or hear it, but I'm as good as done for.

**Luci:**

Oh, I think I can hear it in the distance. As for how they taste ... I don't know~ As for how many I've eaten ... none~

**Violet:**

...What did you do with them?! I don't say this often, but you're kind of insane, you know that?

**Luci:**

It's called 'lying' Violet, and I'm under no obligation to tell the truth here~ I didn't eat them like some animal, I said "Hello", told them I was just a traveller, and struck up a conversation with them. What, you think I was going to eat them just because I saw them, heck no! That would be mean, you know that!

Turns out that they're pretty good to chat to. I told them that I'm engaged in a bet against someone who frequently eats tinies (which isn't a lie~), and they're more than glad to help me. Oh ... hahaha, this is hilarious! Apparently, they used their magic to 'lure' the frog over to your boyfriend's house as payback for him eating all those mice! Hahaha, this is hilarious! Now that's what I call karma! I told them that the frog got you instead, and while they're a little sad, they're still happy a mouse eater got what they deserved~

**Violet:**

Ugh, this is personal now. If I get my hands on those fairies, I'm going to eat and shit out as many of them as I can. I could be breeding with that hot panther right now, but instead, I'm stewing in the bottom of this fat frog's fat fucking stomach.

Eww, this is so disgusting. I can hear its slimy intestines getting pumped up with its stomach contents. Down I go...

**Luci:**

Oh, thanks for that! I just told them this, and they thanked me for the tip, and are making sure to increase their defences. Why, I think they said that if somebody comes along, they'll shrink them down and eat them. What a tip!

Also, apparently the head of the fairy community wants me to join them, get shrunk down and live with them for a while. That's a really, really tempting offer, really ... hmmm. I don't know. On the one hand, it would keep me safe, but on the other, it would be kinda unfair. And I get the feeling that I'm just a magnet for predators...

I turned them down. Kinda a tough choice to make, but it's for the best. They thanked me, bid me farewell, and now I'm off on my way. Bye fairies, hope to see you soon!

**Violet:**

Bye, fairies. I hope to see you soon, too. Ugh, who am I kidding. This is the absolute worst. I can't believe how gross this frog's small intestines are from the inside.

What time is it now, out there? Frog is starting to metabolize me, so I assume I must have been inside of its digestive system for quite a while, but I always lose my sense of time when I end up disembodied. I think it's sleeping, but I can't be sure. I'm just funneling through with the rest of its remains.

**Luci:**

It's about late morning, we just woke up after all! I'm not surprised that the frog is sleeping though, since it probably gets tired after eating a big meal: you~

**Violet:**

I'm not that big, compared to it. But its stomach already had something inside. And really, its only that time? I'm surprised its digestive tract is so quick, then. I think I'm already three quarters of the way through the small intestines. Ugh, I'm getting all dark-colored now. Gross...

**Luci:**

I was making a fat joke darling~

**Violet:**

H-Huh?! I'm not fat! I mean, I got a LITTLE chubby when I was your pet, b-but that's just because you overfed me! Hey, you're joking, right?

**Luci:**

The more you deny it, the more I think you know it's true~

**Violet:**

Ugh well if I'm chubby, I hope the frog absorbs some of my fat into its body and I respawn without it. I'm a lump sliding through its colon now, by the way. Any new updates from you?

**Luci:**

Nah, nothing on my end. Wait ... I hear something. I hear ... people?

**Violet:**

Do you? What sort of people? Is it something bad? Because I'm already sliding down into the frog's rectum, so if I should have tried to hang out in its body for longer, I already missed my chance.

**Luci:**

I don't know, I just don't know. I'm sticking to the underbrush and moving my way across. It sounds like they're searching for something, and I don't want to be what they find. Are you nearly out of there yet? Maybe they can find you instead~

**Violet:**

Actually, now that you mention it, the rectal walls are rippling around me. That's not a sentence I have

ever wanted to say. Oh, yeah, the frog's starting to poop, I can feel it. But no, I'm not out quite yet. I'm sliding out now, though...

**Luci:**

Well, whether you want to say it or not, you said it, and it's funny~ Pity I don't get to hear you speak it, but hey, I take what I get.

Nnngh, these people, they're getting closer and closer. Not sure how much longer I can last hiding here. I got a few peeks of them, and it doesn't look good.

**Violet:**

The frog finished emptying me out. I'm cooling in the bushes and it stomped away. But I think I can hear voices, too. Are we closer together, perhaps? This is a bit worrying...

**Luci:**

I think we are. I thought I heard some big pounding before ... crap, I just heard the word 'frog' get thrown around. So yeah, we're closer than I thought. I hope I don't get eaten...

Oh crap, it got worse. Apparently ... I think they might be looking for a human to capture ... a human like me. Well great, can my luck get any worse? Shoo, go find Violet instead!

**Violet:**

Umm, you could be me! That would be worse! I can see them right here... fuck! Hey, remember those pirates that killed that kraken? I think... I think this might be them!

Ahh, they're standing near its poop and talking... nonono! I think I'm... I think I can feel myself starting to respawn! Shit, if I respawn right here, I'm done for...!

**Luci:**

Hahaha, that's amazing! From poop to prisoner, what luck! Hehehehe...

Awh shit. I think I laughed a bit too loud ... I think they heard me. Gotta run, gotta run ... ow! What was that? D... dart? Fuzzy ... wha ... no ... no...

**Violet:**

Hey, hey! Stay with me! Don't get kidnapped! That might work out really well for you! Ahh, I respawned, and they saw me respawn! Ahh, I'm naked, and I'm running! I'm... feeling really tired all of the sudden...

**Violet:**

~ ~ ~

Hey, Luci... can you hear me? Luci, are you there?

I just came to. This isn't good... I think I've been kidnapped. I have no idea how long I was out of it.

I'm sitting in a metal cage of some sort. The bars around me are made of metal, and it's impossible to open. The cage is sitting in... what looks like some sort of huge arena pit, though, and it's absolutely boiling in here. Do you think I could be close to the center of the island, close to that big volcano?

There's stands around the pit here. People are funneling in and some of them look like those pirates that kidnapped me. Ugh, I'm already dripping with sweat, and naked, of course. What's going on, here...?

**Luci:**

Gah ... buh ... wha?

You ... you got kidnapped too? Hahaha, what a sucker! I can't believe you got kidnapped! How stupid must you be for a bunch of dumb pirates to get you? I'd never be taken that easily ... oh crap. Uhhh ... does this thing have an erase key? No? Crap...

Ugh ... forget I said anything. I've been kidnapped too, and judging by how much sweat I'm coated in, I'm going to bet that we're in a volcano lair. Yeesh, can these guys be any more cliché? I'm in a dark room, in a cage, and there's a bunch of other cages around. But ... but they're all empty... That's creepy. Really, really creepy. I think they've all been opened ... ugh ... I don't want to find out what happened to them. Lemme see if I can pick this lock...

**Violet:**

A volcano lair? I didn't know that was actually something real. But the more I think about it, the more it makes sense. These guys must be really evil, then. They have to be.

Okay, there's more people in here now, and they're sort of yelling things at me... taunting me. Uh, like, okay, what? Remember that arena from the tower in Pluto? The fight pit thing? I'm sort of getting that kind of vibe here. Except I'm in a cage...

Oh, okay, there's a big gate all the way on the other end. I see it opening up now. What are they releasing some kind of monster in here or something?

**Luci:**

Yes, I think they're going to be releasing a monster 'or something'. Isn't it obvious?! Still, why would they keep in a cage, and not release you? This is weird...

It's really weird for me too. Why are all these cages empty?! And why ... why do I feel like I'm being watched?

This is starting to get really, really creepy. I hope I can pick this lock...

**Violet:**

Oh my GOD AHHHH! It's a- AHHH! Holy shit! Luci, you're never gonna... AHH!

Luci, holy shit, they just released a FUCKING DINOSAUR into the pit! It's HUGE! It's like... ahh... a

T-Rex or something. I'm not totally sure. O-Oh my god, it's terrifying.

Wait, NO! Oh no, oh no... Something beeped on top of me, and the cage just folded open. Ohh, shit, it's looking at me... I-I need to run!

**Luci:**

A dinosaur?! Wow, that's cool! I mean ... uhhh ... oh nuuu ... that's really bad for you...

Awwh, what am I kidding. You vs a dinosaur? Now that's a fight I'd like to watch~ Or could you even call it a fight at that point?

Fudge ... it ... it's getting all cold here all of a sudden. What ... who's that?! I thought I saw someone, corner of my vision... getting jumpy...

Just run to a place it can't get to. That beast will be more than capable of running you down on open ground.

Come on ... come on ... there! Out of the cage, now where's the exit in this place? And why ... why is it to dark? This is getting really, really freaky...

**Violet:**

Luci, that sounds like a trap! They left you in a cage all alone, and you escaped just like that? That's a little weird...

And that's easier said than done! This arena is wide open. It's vaguely circular in shape, and there aren't any corners or anything like that. Not even anything to fight it off with. Fuck, I just gotta run... damn it, this is exactly what these people want, isn't it?

Oh, oh my gosh! Wait, I think I see a way out! YES! It looks like someone left a side door propped open... I think I can make it through! Fuck, just gotta outmaneuver this thing... Shit, I'm making a run for it!

**Luci:**

How exactly would this be a trap?! If they wanted me to be out, they could've just left me out of the cage! I can't see how this is a trap!

I think I'm in some storage area or something, since there's all these crates everywhere in a grid. Some are cages, some aren't. Let me just take a peek in one of the cages, maybe there's someone there to help me...

FUDGE! It's ... it's just bones! A pile of bones! And these other cages ... bones too! The doors are locked, what the heck did this?

I don't think I'm safe here... I keep feeling like something is just over my shoulder...

AAAAAAHHHHHHHHH!

**Violet:**

Hey, Luci? What was that scream? Hey, are you alright?

I outran the T-Rex. You should have seen it; it was freaking awesome! I practically dove into the door, and after he recoiled from slamming his head into it, I ran back and slammed it shut. I can hear everyone's screams from inside the arena... haha, that was amazing!

Okay, I need to find somewhere to hide and plan my next move. This place looks like it's full of cleaning equipment... a bunch of junk. I don't see any other doors out besides the one I came in, though, so I might be stuck in here for a while...

What happened to you?

**Luci:**

There's a ghost! A freaking ghost! Some ... THING ... that's a shadow, moving around like a cloud! I don't know how to describe it! I went around a corner and there it was, I was more than a little freaked out!

I'm now running for my life, and I can hear it chasing me. Says that it wants to digest me just like the rest ... I don't want to go like that! Where's the fucking exit?!

**Violet:**

A-A ghost? Wait, ghosts aren't real, right? It has to be something else. Luci, that's really weird... are you on drugged or something? How can that be?

Wait, shit, someone's coming in. Ah, hell, two slavers found me. Ugh, they're dragging me out by my arms.

Okay, it looks like they had to wait for the arena battle to end before they could come and get me. Makes sense. One of them asked if they should take me to "inspection..." but the other one pointed to a tag on my ear and said I didn't need it. I JUST realized there's a tag on my ear. Ugh, I feel like an animal... I'm totally naked otherwise. I'd better cooperate with them, though...

**Luci:**

A tag?! Crap ... I just saw that I've got a tag on my ear too! How didn't I notice this before?!

And ghosts aren't real you say! Well this thing that's chasing me seems pretty real! If it's so fake, how about you come in here and see for yourself, huh?! Offer yourself up to the nonexistent ghost?

Okay, I managed to get out of the storage room. I hope that thing doesn't follow me. I'm in some underground tunnels, and nobody seems to be around ... yet. Hope I can find some ventilation shafts to hide in. I wonder why they were keeping that ghost in there? Maybe it escaped and is looking for meals?

As for you ... heh, you never seem to catch a break, can you? Heh, imagine if they brought you to the storage room I was in...

**Violet:**

Phew... sounds like we both just barely got away, huh? Man, this place is really scary. Of course, you're still on the run, so you're in a better shape than me, at least.

These two are dragging me through a hallway. Rather than where you probably were, though, I seem to

be going up stairs... I just noticed that one of them is a catgirl, and the other one is a cute foxgirl. They're super strong though. Ow, they're twisting my arms...

Ah, okay, they just threw me into... some sort of suite. I assume it's a high-ranking pirate I'm kneeling in front of, because she's got a desk and everything. Huh? She wants me to kiss her feet? Fuck, no...

Owch! I just got hit with the butt of a rifle. Holy shit, that hurt. Okay, I'm licking her toes, now... She's telling me I'm gonna be a new toy for her pet. Huh? What's her pet?

**Luci:**

What is it with you and feet? Is it some cosmic joke that Violet will always be forced to lick and kiss feet? But hey, at least you're away from that now ... and are now a toy for a pet. I don't want to think about what THAT will be like.

I don't think that ghost thing is chasing me, so I'm in the clear ... for now. There don't seem to be any vents around, so I can't hide ... maybe I can disguise myself? Hah, yes! I just need to find some changing room around here, sneak in, and find a hat that covers up my tag...

**Violet:**

Oh, shut up. I don't make fun of you for always getting shoved up vaginas. Actually, I do. Point taken. You're gonna disguise yourself with a hat, though? Don't you need, like, clothes? Plus, I don't see any other human pirates...

Oh, oh, okay. Wow. So, I thought this bitch's pet was gonna be, like, another slave. Nope... noope... it's... a giant freakin' snake. Oh my gosh, Luci, this thing is huge! And it's coils are so... thick!

Noo nonono... the guards just lowered me into its... its pen, I guess. It's just sort of looking at me. Oh, hell, what's gonna happen to me? I'm a toy, right? Not just a meal...?

**Luci:**

Point taken. Sorry for teasing you like that. And if that snake plays with its food, then I guess that's both? If you know anything about placating sneaks, I suggest you use said knowledge now...

And the rest of the clothes were implied, yeesh! Okay, I think I've found a changing room. Here goes...

Woah, there's a big communal shower in here, and they're umm ... they're having some fun. Looks like a bunch of cat girls and herms going at it, kinda hot actually. Ugh, not important! I need to grab one of their clothes and stick it on...

Please pay more attention to sucking that girl's dick than me ... CRAP!

They ... they caught me. One of them saw me and pinned me against the wall in the shower. They're talking about how I must've escaped ... gah ... so close!

**Violet:**

Ugh, you poor thing... well, hopefully you get eaten or something, because I'm in peril right here, right about now, too...

I don't know a thing about placating snakes, and I think the snake likes me... in one way or another. It

just, like... darted toward me and coiled around me. Fuck, it's so huge, and strong... it wrapped me up like it was nothing. I'm too scared to resist. Ahh, I'm crying.

O-Oh wow, its mouth is HUGE. Ugh, fuck, its breath smells awful... it's licking my face. Tasting me? Is that a thing snakes do? Ugh, I need some advice. Its body is so warm, and I can feel its heart pumping through its scales...

**Luci:**

And here I was, thinking snakes were cold blooded...

Oh. Ummm ... well ... if the snake is warm ... that probably means it just ate something warm. So maybe it isn't hungry? Then again they've got big bellies, so I dunno...

It's looking kinda bad for me. One of the cat-girls slapped some shackles on me (who the frick keeps shackles on their person?) and tied me up to one of the shower heads. They then finished their orgy, put on their clothes, and brought me along. That's where I am now, being strung along by the neck down the hallway. They can't stop talking about how management must've screwed up to let me out like that. Oh, if only they knew...

What the ... they went into a ... break room?! They took off the shackles and tied me to a post at the middle, fudge, I'm on break room duty! They must be able to use me whenever, this is the worst! The cat-girls got some drinks from the vending machine and then left ... so now I'm all alone. Maybe I can pick the lock?

Never mind, I group of big, burly orc girls just walked in. They seemed happy that the 'slut has been restocked' ... so yay, I guess. Some of them got some snacks from the fridge, but the big, burly one pushed me under the table and forced me to lick her out. She isn't even looking at me, she's on her phone! They're not paying me attention to me! This sucks.

**Violet:**

Eh?! Break room duty? God, that sounds humiliating. You're just licking her pussy while she's on the phone? What is it, stress relief or something? Well, on the bright side, if you're chained up, they might not be able to eat you so easily. So at least you're safe licking crotches. Ugh, that must not taste great. Or does it?

And yeah, I was just thinking that about the snake. Imagine that... stealing someone else's body beat by digesting them. Ugh. It's still licking me. Wait, something is happening.

Okay, weird... the boss lady came over to the edge of the pit. She started yelling at the snake to let me go. Says she's just gonna take me for herself, that she changed her mind, what's the...

Ah! AHH! Oh my gosh! The snake just lashed out and... snapped her right up! Oh, gosh, her legs are sticking out of its mouth! Fuck, this is my chance! I gotta go!

**Luci:**

Wait what, seriously?! Your predator ate your CAPTOR, and I'm just stuck here on break-room duty? Is the Universe trying to get back at me for taking you as a pet? Ugh, this is so not fair! And NO, it doesn't taste great, they're so musky and strong down here!

Another one of the orcs just sat opposite the burly one that's making me eat her out, and she pulled

down her pants to reveal ... her dick. Great. I'm now on my hands and knees getting hot-dogged, a cock up my ass and a set of lower lips on my mouth. Nnff ... fudge ... do they have to be so violent about it?

And they're both on their phones! Can't you two be bothered to talk to each other?! And shouldn't you be catching Violet instead of slacking off you idiots?

**Violet:**

Hey, don't give them that encouragement! Let me have my good luck! Kyaah... oh my god, the snake just SWALLOWED the pirate lady. I can see a bulge sliding down its chin.

Alright, I climbed out of the pit, and I'm running for the door. I am DEFINITELY getting out of here. Some guards rushed in, but luckily, it seems like they're too concerned with saving her to worry about me!

Ugh, or so I thought. One grabbed me by the arm. I'm not gonna fight her... what should I do? Also, how are you enjoying your treatment?

**Luci:**

I am not enjoying it, thank you very much, I just ... nnnff ... I'm just moaning along so they go easy on me. Two more sat down and they're making me finger one and jerk off the other with my hands. Oh, one just came all over me, the one in my hand. How'd she cum so fast? Probably been fucking the others or something...

And I recommend you kick, holler and scream loud enough that one of them gets sick of you and eats you then and there, like that cat-girl back in The Marble Spire. Or something, I dunno, I'm a little peeved off right now!

**Violet:**

Wow, I'm surprised they're gang-banging you so readily. I wonder if it's significant to this place that the pirates are so horny? Or pent up? Either way, just keep giving you what they want, and I think you'll be alright.

Ah, hell. Luci? The guards recognized me from my arena fight. They're saying that it wasn't fair I got away before... and now they're taking me back! Aww, man, please don't make me fight another dinosaur, please...

**Luci:**

I don't think they're either honestly. If you had sex on tap in the breakroom, wouldn't you use it all the time? I would, and I bet you know this better than anyone~

And they're putting you back in the pit?~ Heheh, funnily enough, when those orcs finally finished with me, they said they were heading out to the arena. So I guess the games are pretty popular!

Now I'm just covered in cum, in the corner, and trying to free up my nostrils. Lemme see if I can pick this lock... woops, the door just opened, hope they don't see that...

Wait. Nobody's there. Shit, the lights just went out, what the heck? Oh ... oh no.

He ... hey Violet? That ghost from before ... it ... it found me. I'm all tied up ... and it found me. Oh no, no no no no...

**Violet:**

What?! Oh my gosh, that's SO scary! I still can't believe something like this is real... w-wow. Hey, are you gonna be alright? I mean, even besides the game... Hey, what's something like that even do to you, anyway? What's it even look like?

Also, wow, I'm being dragged through the hallway now. I can hear the roar of the arena down below... ugh. Some fight must already be going on. Please, please be something I can win against...

**Luci:**

It ... I don't know! It's getting closer, oh fuck, I don't know what's going to happen to me! Get ... get away from me, get away!

Cold ... cold ... so cold ... no ... cold ... no...

I ... get away ... come closer ... closer ... away ... no...

I ... we ... what? We? Why ... why was I so afraid before? So nice ... so close ... together ... one...

Ugh, my head. Hey ... hey Violet? Ummm ... things have gotten weird. I ... I mean we ... well ... we've gotten a bit closer.

That ghost thing, it's now in my head. I think I've been possessed. Or something.

**Violet:**

In your head? Can you hear its thoughts? Can it hear me? Hey, hello?

By the way, I'm getting brought over to the arena pit now. Rather than a monster, it looks like I'm fighting a big dog-girl gladiator. She looks mean, and hungry. I'm in trouble, I think...

**Luci:**

Ugh, well at least you don't have a ghost in your head! And yes, it can hear your messages, but can't write its own. Which is good, since it'd probably just send expletive after expletive at yo... OW! There was no need for that you biOW! Okay, okay, sorry!

Ugh, I should probably explain what's happened. It, sorry, I mean she, is in my head. I can move around and stuff, and it wants me to go and get something for her. A core, some treasure or something, so it can then escape.

If I don't, well, she says she'll just burst out, encase me, and digest me, before finding someone else. So that's fun!

It's gotten me out of the locks, and now wants me to sneak through the corridors. Ugh, I don't want to be caught like this ... can't she use her powers to help me or something? Oh, you're too tired? Well that's just so great princess, since you're really suffOW! Okay, okay, sorry, fuck, just stop with the shocking you biOW!

Ugh. This is the worst.

**Violet:**

Any updates on your end? I'm in the arena now, the same one as before, and it looks like the crowd is hyping up the other gladiator, the dog girl. Hey, at least give me some credit...!

But on the other hand, I'm not sure if they recognize me as the one who escaped earlier. Remember, that big T-Rex thing that was in here earlier?

Unfortunately, somehow, I think I might have to get more creative if I wanna get away from this one. I think the fight is about to start...!

**Luci:**

Oh yes, how could I forget? A giant dinosaur is pretty easy to remember! And a dog girl? That sounds serious! Reminds me of a story I once read...

Oh, sorry, I got distracted. Guess I wanted to think about anything in my head BESIDES that ghost biOW! Okay, I really need to learn my lesson!

I'm currently sneaking through the halls, trying to get to the captain's quarters, who has the ghost's heart or something. I dunno. Wait, hang on, she wants to be put on. Lemme see if I can think about this in the right way and AHA! FINALLY! I'm so sick of that stupid bitch having to transpose everything I want to say! How dare she try and be the mouthpiece of Queen Ardelia, terror of the wide open seas! For such a terror, you seem to have been killed pretty easyOW! Shut up wretch! Or I'll zap you again!

Anyway, who am I speaking to? What is this 'Violet' I have heard so much about? Luci has had quite a lot things to say about you...

**Violet:**

H-Huh? Uhh... who's this? Is this the ghost that possessed Luci? Hey, I can hear your voice in my head... are you using her telepathy magic? Or your own? Uhh, sorry, your highness - I might be a bit slow to reply. You see, I'd give you a proper introduction, but I'm about to start a... did they say a fight to the death?

Shit, okay, umm... can you ask Luci how many lives we had left? I totally forgot...

**Luci:**

Yes and no. She's using the same magic I am. So think of it as different people at the phone sending a text to the same address. Does that make sense? Don't worry, it should be pretty easy to see when she's on, since she's pretty WHAT THE HECK IS THAT SUPPOSED TO MEAN?! Yeesh, you can get a bit loud, okay? Take it easy! Ugh. She seems to have quietened down now, and isn't zapping me again. Which is good, since it feels like she's freaking half cooked me with all of those shocks.

Wait, fight to the death? That ... that seems pretty normal for a place like this! But I think I know what kind of death they really mean~ Hope you get dumped off in some cat litter Violet!

And I'm pretty sure we've both got two lives each. I got ate by that plant, you got ate by that frog.

Woah, buncha guards just ran past, I just managed to hide in a little alcove. I don't think I'll be able to get into the quarters from the halls, and I don't want to try and get a disguise again. What should I do?

**Violet:**

Eh? You're asking me?! You've GOT to be kidding me - what can I do?

Okay, on my end, the guards finally through me a shitty little sword. Fuck, I'm supposed to defend myself against this hulking dog-girl barbarian? She's got a fucking battleaxe that looks like it could cleave my little thing right in half!

Damn it... ahh, okay, we're fighting! Shit, I'm just pacing around, trying to match her stance... fuck, here she comes! Ahhh!

**Luci:**

Hehe, sword. My sword was quite big and weighty, wasn't it Violet?~ Sorry, I couldn't resist~ Anyway, please don't get cleaved in half, as that would be a waste of perfectly good food!

Wait, what?! Ardelia, I don't understand how that would help at all. No no, don't do that! Ahhhhh!

Awh crap. Okay, so Ardelia has decided to help ... by shrinking me down. Who knew she could do this, since I didn't!

I WILL NOT HAVE YOU INSULTING MY GRAND PLANS, YOU WRETCH!

THERE ARE OTHER WORDS IN THE ENGLISH LANGUAGE BESIDES WRETCH YOU KNOW, ARDELIA!

Okay ... sorry about that. I'll try and keep her off the line. So now it's just like that mansion and party again, why does this keep happening to me?! Okay, now that I've calmed down ... how big am I? One inch. Great. Looks like it'll take me an hour to run to the quarter's now, and that's assuming I don't get gulped...

I've got no other choice. I'll just book it for the quarters, stick to the corner of the walls, and try not to get seen. Luckily, this place is filthy, so there are some cans and stuff to hide in. I hope I don't have to though...

**Violet:**

Ugh, you just love to remind me of that, don't you? Well, sound like you've got some size challenges again, so if I get out here, I'm definitely coming right for you, cutie~

Okay... hah! So me and the gladiator are fighting, and she's SUPER strong. Every swing of that axe of hers makes me feel like she's going to cut me and half. But get this... she's slow. Surprisingly slow! I'm able to dodge most of her attacks... whoa, that one was close! Okay, like I said, I'm able to dodge most of them, so I think I've got the upper hand for now. I just... need to... land one good hit on her!

**Luci:**

The reason I like to bring it up is because it's a good memory from a good time! A better time than this at least!

Heh, at this size, you could probably eat Luci up Violet~

Would you shut up?! Sorry, she got back on the line again. Anyway ... why do they all need to have a

glaring weakspot, I was hoping that you would be eaten by now!

Okay, I've managed to get out of the hallway and into a dormitory. Only way into the captain's quarters is through here. It's a bunch of shared bunkrooms and bedrooms. Pretty disgusting, I'm having to work my way around clothes on the ground and stuff. Ugh. And there is TOTALLY cum soaking into the carpet here. And yep, two dog girls are banging on one of the bunks. What a lovely place to be. At least most of them are asleep. I just need to duck from clothes to clothes...

**Violet:**

Okay, the fight is going pretty well for me. I'm dodging the attacks a little easier now, but I still haven't gotten a hit in. I think that she's getting a little tired, because I can see her chest heaving. Hah! I might actually win this! I might! And I'm gonna come and get you~!

Banging on one of the bunks, huh? That must be a pretty hot thing to watch from your perspective, you little peeper~ what is it with dog girls and constantly being horny, anyway? That's-

...

Ugh... Fuck, my head...

**Luci:**

Wait, your head?! Awesome, awesome! Haha, guess you spoke too soon then! Eat her up dog girl, eat her up! Don't take her as a pet, turn her into poop, haha!

Wow, my day is going amazing now, thanks to that~ I'm getting through nice and easy, and heh, I also get to watch two dog girls have sex! It's kinda hot seeing two massive people, there's just something so ... graceful about it? Celestial? I dunno. Besides, the female bottom makes a funny moaning noise whenever the herm's cockhead slams into her cunt, it's nice~

Okay, time to get moving WOAH! What the ... what happened? Oh ... oh crap. The top ... she found me. She's got me in her hand while she's pounding away at the dog girl under her. She's licking her lips, what is she going to do now?! Shoo, go away! Focus on fucking her, not eating me! Oh ... no ... don't put me there...

**Violet:**

My head is killing me - I can't even process what you're saying right now. What happened was, the gladiator swung her axe so hard while I was distracted... the side of it clocked me in the head and knocked me out for like, two seconds. I came to but I can barely move...

Ugh, the gladiator is already celebrating, and everybody is cheering. Damn it, I think I might have a concussion...

Okay, she's pulling off her pants. What a surprise - she's got a nice package. Ugh, she's ordering me to clean her off in the middle of the arena while everyone watches. Damn it, is this what I get for losing?

Mmh... ugh... I'm sucking her off now. Damn it, why is the crowd cheering so loud? This is humiliating... Wait... why is everything getting bigger...? These dogs don't have magic too, do they?

**Luci:**

Huh, what are the odds? You're being forced to suck off a dog girl, and I'm currently being grinded by one! The big one dropped me into the girl's lower lips, and before I could even run away, she began grinding her cock against me. Not even putting it in, just grinding me into it, forcing me into it! It's so disgusting and smells so bad, yuck! And Ardelia won't shut up about how bad it is for her! Well I'm sorry your highness, it's bad for me too!

Gah ... I think the cock pulled away. Just gotta crawl out and get out of here ... no! Fuck, she slammed the cock in, and is penetrating her with me in it! I ... fuck! This is horrible!

I hope you get the same fate seeing as you're SHRINKING, haha!

**Violet:**

Sort of funny, don't you think? The fact that we're both shrunken by chance, and meeting something like a grim fate at the hands of... giantess dog-girl genitals?

Yeah, speaking of that, while you were telling me what's going on with you, I shrunk... the rest of the way. Until I was like, an inch tall or so. Then, that bitch gladiator fed me right down into her cock head... there's no way the crowd can see what's going on, but she must be accentuating it somehow because they're going absolutely wild about it.

I slid right down and plopped into... ugh, I guess I'm in her balls. Damn it, I shouldn't have complained about sucking her off, because it's ridiculously hot in here. What's gonna happen to me...? Oh, ew, I think she's pulling her pants back up. Nooo...

**Luci:**

Funny?! More like disgusting! Why am I the only one caring about this?! Oh yes, I know you care too Ardelia!

I'm currently getting my face pounded against this bitch's (wait, can I say that about a dog girl? I don't want to be speciesist!) cervix while this massive cock pounds into me over and over again. At this rate, I'm going to end up inside it...

OH FUCK, I DIDN'T MEAN THAT LITERALLY!

The cock sucked me up, what the heck?! Is the Universe against me?! Just one slam and I got dragged all the way down to her balls, ugh, this sucks! I can't see, it's so hot and musky, I'm getting knocked from side to side, and Ardelia is howling like a bansheeOW! And she just shocked me again!

Wait ... what? It's starting to slow. I think I can hear them talking, something about not wanting to breed her again? What? Oh don't tell me I'm going to go up her ass... wait. Why am I going up? Oh fuck ... no no ... no that...

**Violet:**

Are you kidding me?! So you and I are in the exact same boat, then, huh? Well, at least we're still even, right? I guess that's one thing... probably the only silver lining about swimming in a mutt's balls I can think of right now. And I hope you'll excuse me of being speciesist because I'm not TOTALLY concerned about that right now.

Serves you right, anyway. Maybe you'll get shot out somewhere you won't see the light of day for a...

a... ugh, damn it, my skin is itching so hard that it's hard to think straight!

Ah... oh, shit! Ahhh, I'm MELTING! Fuck! Is this always supposed to happen! Damn it, no! NOO!!

**Luci:**

This bitch is getting sucked off, her mouth is so loud! I wish care if you're getting churned, since I'm about to get gulped! Please don't fun, please don't cum. Someone walk in, get attacked, something, ANYTHING to stop this sex!

Fuck ... she came. One massive blast, and I shot right out of her cock... and down the other's throat. I'm in her belly, awash in a sea of semen and chewed up vegetables. I've been eaten ... I'm going to get churned! At least we both going to lose a life.

And heh, I think the two girls have cuddled up and gone to sleep. How cute...

**Violet:**

Yeah, it looks like we both got K.O.'d. So, that means we're both down to one life each, right? What a pity... I was enjoying being ahead of you! Although, come to think of it, I guess I never really was.

So, right down her throat, huh? What's it like inside of her tummy? Is that ghost girl still possessing you, or did she get released when your body perished? I'm curious if you two can talk with each other now that you're both souls in the same stomach. Wait, can't she just escape, since she's a ghost and all? Huh, now I'm REALLY curious.

My dog girl champion churned me up into spunk too. She's not moving much now - I think she must have gone to sleep. Her cock shrunk back down and her balls shrunk back a little bit, so I'm sort of like... laying between her legs and a little ways back up into her abdomen, I think. It's quite warm, though I'm wondering how long she's planning to go around tomorrow with a full load bubbling in her nuts. I guess I'll have to find out the hard way when she wakes up...

**Luci:**

It's hot, disgusting, and filled with cum! That's one of the worst combinations imaginable! As for ghost girl, she screamed at me for my incompetence, zapped me super hard, and left. Oh I'm sorry I couldn't get my ass through a dormitory while a shrunken bitch! Argghhh! What an asshole! Sorry, I had to get that out of my system. At least I can focus on escaping, and not trying to fetch that stupid 'core' or whatever. If I ever do find it, I'm shoving it straight up my ass, just to spite her.

Ugh, sorry, I'm rambling. My girl is curling up to sleep with her bottom bitch, so I might as well just hang around and wait. I'll message ya when she wakes up. What a shitty day...

**Luci:**

Mmmh, hey, Violet, you there? The girl is starting to move about, I think she just woke up. I'm currently wedged in her bowels and it sounds like she's heading for the toilet. How about you?

**Violet:**

Hey there! I was just starting to wonder when I was gonna hear from you. Did you have a good sleep? Hopefully her digestive tract didn't give you too much trouble... oh, wait, I meant to say that the other way around, heheh~

Okay, sorry, that was a bad joke. I'm still in the champion dog-girl's balls, just swirling around with the rest of her sperm. I don't think she's gotten up yet, though... wow, what is she sleeping in or something? I mean, I guess if she spent the whole yesterday in arena combat...

Are you out yet? I wonder how long I'm gonna be in here...?

**Luci:**

I hope you're in there for five minutes, before you get cummed out into some slut's stomach, reform, only to get digested again while I win! Wishful thinking, but hey, sometimes wishes come true!

As for me, yep, she's just slapped her ass down on the toilet. Seems to be muttering something about some bitch not calling her back ... wait, is she talking about her fuck last night? Seriously? I think she's on her phone on the toilet... ugh, people this days.

And ... yep, she's starting to shit me out. The walls are squeezing down, and I'm getting forced out with the logs of her crap. I'm in the toilet bowl now, and heh, at least she's got a nice ass! I hope I reform somewhere good...

**Violet:**

Hah, good for her, putting you in your place! Heh... hey, don't you think it's kind of weird that, just a little while ago, we were walking around on the island, trying to hunt and fight and stay alive and stuff... and now we're basically trapped with this bandit/pirate girls, sliding out of their asses like it's the norm? How's the quality of their toilets, by the way? Running water?

Doggo champion finally woke up over here. I'm still halfway up into her abdomen, but the heat must be getting to her because we're starting to descend down between her legs. I can hear some noises outside, and what sounds like some... fighting? Do you think she's heading to training, or something like that?

**Luci:**

Yeah, she's probably heading off to training. Which is either a good or bad thing for you, since I remember reading that some professional athletes/fighters try and get testosterone rushes to improve their performance or something. In other words, she's either going to jack off in a corner, or in some girl's mouth~

And yes, they have good toilets, nice and fancy with running water. And while it is funny, yes, I still don't appreciate it! Nature I can work with, people are a lot less my thing!

Phew, finally, she's shit me all out. Now just flush me away bitch so I can crawl out through the sewers ... wait ... oh no, no no no! The reformation magic ... it's happening! No, it's too soon!

Fuck ... I just reformed in the bathroom. While she's still in it. Somehow she hasn't noticed me ... fuck it, I'm going to beat her up, my best chance. Wish me luck!

**Violet:**

What?! You reformed IN the bathroom? You're out of your mind! Stop! Ahh, shit... wow, haha, you know, I didn't see that coming. But I guess it makes sense that the reformers would mess up once in a while. Still, though, that's kind of extra humiliating, when you think about it - remember, you've got the element of surprise!

And I didn't think about the testosterone thing. Her balls are just kind of sitting here while she fights. Luckily, she's wearing underwear to keep them in place. Oooh, it's so warm inside...

Oh, hey, hang on! I hear her talking to someone, I think. Okay, they're talking about... ooh, they're talking about yesterday's fight!

Aha, oh, get this! Someone just asked her if I was still in her balls... she said she couldn't remember! YES, I'm down here, you bitch! Let me out! Ugh...

**Luci:**

Ha ... ha ... I did it. That bitch never had a chance. One hand around her neck from behind, and before she could scream, a palm to the temple. She's down, unconscious, and I've got her all to myself. I'm in a little bathroom, got a sink, a toilet and a shower. I reckon this dorm has got several, so I don't have long. Okay, gotta get her clothes...

Damn, some of this stuff is tight! But it's fitting, mostly. I found a wallet in her pocket, her name is Jessica Trayfani. So that's my name now: Jessica. We look NOTHING alike, but our skin colour and species matches at least. Also, she's a herm of course ... fuck, wish I still had my dick. I shoved a few tissues down my pants at least so I've got a freaking bulge.

I've left her in the bathroom, and used a screwdriver to lock it up from the outside. I don't know how long I've got till she wakes up, but I need to be outside of this camp before that happens. Thankfully, there wasn't anyone in the dorm to recognise me, and I'm out in the halls. They're buying my disguise at least...

Oh, pardon, I kinda forgot about you. I guess I just wanted to brag about my awesome bit of spy work! Anyway, are you SURE you want them to know about you? Since aren't you their pet or something? If they cum you out, you're going to fall right back into their clutches... Wait ... are you still in the training room? Cus I'm heading there now~

**Violet:**

You really beat her, huh? That's pretty amazing, to be honest. I'm actually impressed that you pulled it off... So, if I were you, I'd be careful about using that ID card. Because once you pull it out, they will probably immediately recognize that it's not you. But if you keep it away, at least you can pass off as a generic soldier or something that nobody knows?

Still in the training room? I mean, I guess, technically. If by that, you mean, still swirling around in the balls of a girl who is in the training room, then yeah, I'm here.

Things are getting a little... tight between her legs, though. I think she might be getting an erection... shoot, she stopped fighting. I think you were right about what you said, about her building testosterone. Shoot, she might be looking for a place to release... uhh, if I were you, I'd actually avoid the training room right now, unless you cross paths with her by accident!

**Luci:**

Accident? Dear, this is all on purpose. And I'm not going to use her ID card for anything, trust me. I'm in the training room now ... ooh, I see her! Big, muscular dog girl with a massive bulge? That's my girl! Lemme see if I can talk to her now...

Can you hear me? I sidled up behind her, put my hand across her bulge, and started whispering in her ear. I told her that I got really worked up seeing her churn that slave down yesterday ... and I wanna help her work off some stress~

Oh? She just accepted. This was too easy~ I'm heading off to the bathrooms with her now~ Say bye bye to your dog girl dearie, and hello to me instead~

**Violet:**

Huh? Wait, that was you?! Hey, get your hands off of her nuts! Oh, shoot... her balls are really churning now. I think she's getting in the mood... although, I gotta say, it is kind of interesting to see what her body looks like as it subconsciously prepares for... mating, I guess? From the inside...

Wait, what are you gonna do with her? Hey, Luci, this is ME we're talking about, you know, right? Ahh, shoot, I think she's secreting pre-cum already... damn it! Hey, don't forget about me down here, you rat...!

**Luci:**

Don't you understand? If she cums you into me, then I've got you all to myself. And then it'll be a cinch to churn you up one last time, and win this competition easy peasy~ We're in the bathroom now, she's taking down her pants ... fuck! Oh fuck, she's huge! No way I'm going to work this thing down my throat ... gotta use one of my other holes instead.

Wait ... aren't I supposed to have a dick? Fuck, I am! She's looking at me pretty hungrily though, I gotta go ahead with this. Here goes...

Fuck. Soon as I pulled down my pants, she raised an eyebrow and said: "Hey ... I thought you had a dick?" Fudge, my disguise is already falling apart! I thought she would be too horny to notice!

Okay ... just told her that I was getting sick of it, so I took a potion to get rid of it. I mean, it was just so big and long, I could barely walk anywhere without it tripping me over!

**Violet:**

You're gonna get me out of her and take me for yourself?! Hey, leave me alone! That's cheating! Ugh, fuck! This bitch is totally playing right into your hands, too...! Ugh, stop! Keep me in your testicles, you...!

One of your... other holes? You've gotta be kidding me! I don't want to go in there! Ugh... you aren't in heat, are you? Because her seed is REALLY thick, and I do NOT want to be the one to knock you up! Damn it, are you listening to me?

Ha, yes! Eat her up! She's an imposter! A FAKE! Damn it, damn it... don't give me to Luci! Don't!

**Luci:**

Okay, phew, she believed me. That's good, that's good ... she's locked the door, come to me baby...

Wait. She said she didn't believe me. Oh fuck ... oh fuck. I need to get out of here! I gotta fight her! Damnit, she's too strong! I tried to punch her in the jaw, but she just caught my fist, tucked it behind my back, and forced me over the toilet. Wait no no no no no ... argghhhhhh!

She ... fucking fucking me. I ... she's humping my ass ... gosh ... so big, ugh! And she's going on about how she knows I'm an imposter ... ugh! This is the worst, this can't be happening, it can't! I was so close!

**Violet:**

Ugh, how do you think I feel?! It's CHAOS down here! The load is swirling and churning all over the place, and, ugh... I'm swinging back and forth. What is that I'm slapping against?

Ugh, okay, I can feel her throbbing in you, and definitely leaking precum out. She definitely has a load she needs to blow. Augh, I don't think I'm ready for this... I wanted YOU to be inside ME! Okay, okay... let me know if she starts trying to knot you, okay? I want to at least be a little prepared for it...

**Luci:**

Oh yeah, you're really the victim here, and I'm totally going to give you heads up! Ugh ... just cum already! Crap, she is coming! She just knotted into my vagina ... ugh ... there's so much cum! She's bloating my gut! Nnnfnfffff...

She ... she just pulled out. I can barely ... barely move. She's slung me over a shoulder, saying that if I'm going to try and sneak in, I'm going to be eaten like one. What does that mean? Fuck, she's taking me to the arena ... and you're in me!

Wait. Wait. Wait. If ... if I get eaten ... doesn't that mean you get eaten too? We'd both lose!

**Violet:**

Did she knot you?! Ahh, I can feel her tightening up! Noo...!

Is this... oh my gosh, wow! She pumped me right into your uterus... yup, I'd recognize this one anywhere. Geez, she's REALLY breeding you! Look at that thing pump! Wow, that is impressive...

Okay, it stopped, and I'm down in you. It's super warm in here... hey, what are you talking about us both losing?! I never respawned! Doesn't that mean you'd lose and I'd win? Doesn't it? Hey, don't let me out yet, I don't want to respawn here...!

**Luci:**

Crap, it does! I need to get you out of me ... and the only way I'm going to do that is by cumming. This is so stupid! I've just started masturbating, the sooner I get you out of me, the sooner you get eaten. The girls are looking at me weird but I don't care, I need to get you out! If I can get you out into the arena, then whomever gets eaten first loses!

I CAN'T BELIEVE THAT THIS ENTIRE COMPETITION HAS COME DOWN TO THIS. ME MASTURBATING FURIOUSLY IN SOME ARENA!

They just chunked me into the dirt in this arena. I've only got a few seconds before they reveal the monster. I'm currently just masturbating like mad, and while everyone is laughing me at it, I don't care! Gosh ... she's done a number on me, I'm so numb after that! Gotta keep going ... I can start to feel it coming ... come on, hurry up!

**Violet:**

Hey, what are you doing?! What?! No, stop! STOP! Ugh, you can't do that! Loads were meant to sit inside of you and make you pregnant, not get expelled at the earliest opportunity! Wait! Ugh... Okay, everything's swirling and twitching around in here... You can't seriously think you're about to cum, do you?!

I hear the noises coming from out there... what's the opponent?! Have they let it out yet? Come on, whoever it is! Eat Luci up! Nooo...

**Luci:**

Oh ... oh no. The gates just opened ... it's a giant frog girl. She's really big, and is looking straight at me, licking her big lips with her big tongue. There's no way I can beat her, ugh, I gotta get you out of me first!

Screw it, I'm running! I'm diving for cover beneath some log, hand between my leg, hurry up and come out of there you bitch! Crap, her tongue just slammed right next to me, it's kicking off!

**Violet:**

Ohh, this can't be happening! This is SO gross... stop fucking masturbating you absolute slut! Damn it! I hope that tongue snatches you up, and you end up a steamy frog pie before I respawn! Ugh, I am so going to kill you myself if I get my hands on you! Damn it...

**Luci:**

I was going to eat you if I got the chance, and shut up, you're distracting me! Come on ... come on ... think of sexy thoughts Luci ... sexy thoughts ... damn it! Her tongue curved around and she's trying to drag me out, I gotta move! Out in the open again, and she's at the corner, freaking lashing out with her tongue like some sentinel. I'm docking and dodging from tree to tree, masturbating whenever I can. COME OUT ALREADY, GOODNESS!

**Violet:**

Ughh, it's SO hot in hear, and the walls are like, churning and squeezing on me... I mean, on her load... damn it, I'm pretty sure your womanly parts weren't designed for this kind of treatment! Just accept your fate, Luci, come on, you~!

**Luci:**

MY FATE IS AS YOUR RULER, NOT AS SOME FROG GIRL'S SHIT! AND I'M NOT GOING TO LET ANYONE TELL ME OTHERWISAAHHHHHHH!

She just grabbed me by the leg, and I'm in her freaking mouth! She's going to swallow me, crap crap crap. Not ... going happen ... frog fuck ... nyargh!

I manage to get out of her mouth, and I slid down her breasts in a pile of saliva. So gross! I'm at her feet, she's down looking for me, and I'm still masturbating like crazy. Where do I go? She's trying to snatch me up now, but she's struggling, she's not used to prey so close! Hurry up and cum already, I don't have much time left!

**Violet:**

Ugh, you think your energy would be better spent on other things than dealing with me right now! And yet somehow I'm on the edge of getting splattered out onto the ground! No, no, no, this can't be happening! Fuck, FUCK!

**Luci:**

Come on, come on ... gah!

I ... fuck ... I came. She went for me with her tongue, I leapt up and over it ... and it slid across my nether lips. The last little bit to make me tumble over the edge. You're currently splattered over the ground if you're wondering, and the frog giant is busy wondering why her meal just came. Ha, your reformation magic is kicking in, I've still got a shot! Welcome to the arena Violet!

**Violet:**

Moments later, Violet appeared in the arena, blinking back to life - totally naked and shocked at her mortal form being returned to her at that moment.

"No, no, NO!" She screamed as she clumsily got up and began to stumble away, screaming all the while. "This can't be happening. FUCK you, Luci! Damn it, I was SO CLOSE!" She screamed as she bolted away.

Meanwhile, the frog's tongue snaked across her lips - she had just spotted a new meal in plan. It had become a sudden death match of the last one standing!

**Luci:**

Stumbling between the giant's legs was Luci, sweaty, battered, bruised, dirty and haggard. She looked like she had been through a lot ... and would keep going.

"SO WAS I!" She screamed like a wild animal, almost on all fours like one. "AND I'M NOT GOING TO LOSE NOW!"

She knew what was above her, a ravenous giantess. She knew that running away would give her a 50/50 chance of being eaten at best. If she wanted to improve those odds ... she needed to get closer.

"ARGH!" Screaming a primal war cry, she barrelled towards Violet, sprinting out in front of the giantess. She leapt forwards, ready to slam into her ... but the frog girl was faster. A tongue flicked out and slammed into her calf, trying to rip her away. While it didn't stick due to a lack of area, it threw Luci off course, and she merely glanced off Violet before rolling to a stop. She got back up, ready to make her next move, with one eye on Violet ... and the other on the hungry, hungry giantess.

**Violet:**

Violet gasped as she stepped away from Luci's violent stumble, watching that tongue glance off of her and bounce away. Aiming to get as much of a safe spot as she could, away from the frog girl, she hurried in the opposite direction of Luci, who currently had the giantess's attention.

Violet ran behind the giantess and stood underneath of her huge rear, glancing between that and Luci. "Hey, Luci!" She screamed, "Bet you're gonna love this sight when you're coming out of it!"

**Luci:**

"Never!" Luci screamed as she got to her feet, squaring herself off with Violet. Enraged by her taunt, it was all she could think about. Focusing upon her, she gauged her up, figured out her weakness, and how to attack.

"YOU'LL BE THE ONE GOING THROUGH IT!" She wailed before charging forth, bellowing a war cry, right towards her with burning ang...

SMACK!

Only to suddenly stagger to a stop. She blinked, looking about in disbelief ... only to see a giant frog's tongue across her back.

"Oh fuck..."

**Violet:**

When that tongue pulled back, it pulled with an INCREDIBLE strength, shooting Luci through the air while somehow remaining firmly stuck to her bare back. If she turned in time, and only if, she might get a glimpse of a giantess frog girl with a very pleased look on her face. Her open lips approached closer and closer, until...

***SHLURP!***

Luci was snapped right up into the frog's maw. The crowd looked on in disbelief as its cheeks bulged out, sliding its prey around for only a few moments before...

***GLUUURK!***

A gulp echoed throughout the entire arena as a bulge descended from the frog girl's chin, and as she started to swallow her prey whole.

**Luci:**

"NOOOOOOO!" She screamed as she watched the maw approach, only for it to be muffled as she was taken into the hot, wet space. It reeled her in like a fish, the slimy walls clenching down on her hard as she came in. The gooey saliva washed away the sticky glue from the tongue and she tried to escape, she really did. Wrestling and grappling, she tried to move towards the lips, but it was helpless. The tongue manhandled her like the snack she was.

"No no no no no!" She hyperventilated, knowing she had but moments left....

A flick of the tongue, a slide across the spit, and she slid directly into the throat feet first. The slimy flesh gripped her up to the shoulders as it tensed to swallow. She reached out to try and hold onto the tongue...

***GLUUURK!***

...only for it all to swallow her down. Her feeble grip was ripped away and she was dragged down the throat. Screaming.

"Noooooooo! This can't be happening!" She wailed, futilely fighting the rolling peristalsis of the throat as she descended towards the stomach.

**Violet:**

Triumphantly, the frog girl tilted her head back and started gulping, letting her slick throat roll her meal down, down towards her gurgling belly...

Violet watched as it came to a conclusion moments later. Luci slid out the bottom of the frog's throat and splashed down into her stomach, which was already filled with the digested remains of at least five other competitors. Boiling stomach acids started to pour in as the frog laid down on the ground happily, sighing and licking her lips as patted her tummy.

Victorious, Violet ran over to her tummy and began to cheer - she had won! It was over! She had really won! The realization hit her with a rush of adrenaline, making her dizzy.

**Luci:**

Luci yelped as the walls squeezed down on her, the stomach rumbling with the belch. Fresh acids lashed against her skin, making her squeal. She went over to a stomach wall and began to beat against it out of instinct. She could feel herself start to soften up...

**Violet:**

Laying on her back, the frog girl just burped. Nobody seemed to pay any mind to Violet; whether they assumed the frog girl would just eat her later, or whether they just didn't care, it remained to be seen. Instead, the attention was focused on the very satisfied-looking frog, laying on her back and burping as boiling stomach acids jetted into her belly.

***Bwuuurp!***

**Violet:**

It was only a matter of time before Luci digested away inside of the frog girl's tummy. She was all out of options, after all, and had long since run out of the tools she might normally use to break her way out of a predator's stomach. Instead, the boiling digestion converted her into a slimy soup along with the rest of the frog's contents.

As Luci's soul separated from her body, and her third life expired, the magic they had set up in advance teleported Violet away, back to the safety and security of her home.

**Luci:**

With one final slap of her fist against the wall, Luci came apart into a nutrient soup that gurgled through the frog girl's intestines. Everything became distant as she felt her presence mould into the shape of the frog-girl's gut.

"I can't believe I lost..." she called out to Violet.

**Violet:**

The frog girl soon fell into sleep as she napped on the ground, her hand draped across her noisy tummy. Outside, the sounds of her gurgling intestines could be heard echoing throughout the arena as Luci funneled away~

"Serves you right~" Violet teased back. "I hope you have a good trip through the frog girl~ I'm gonna enjoy my spoils! Which are... what, again? Getting to watch you struggle as you have to live on that island for a WHOLE MONTH?"

**Luci:**

"Yes ... can't believe I agreed to this stupid dare. Argh, and I was so close too! I had it, I freaking had it! And now I have to stay here for a whole month!" She pouted, unable to do anything but complain as she was slowly dragged through the frog girl's digestive tract. She could feel herself thicken and turn solid, the frog girl sucking all nutrient from her form.

**Violet:**

Eventually, the frog girl stirred awake. She yawned as she stretched, wandering around in the wide enclosure the pirates kept her in. She eventually wandered over to a freshly dug-out pit, and squatted down over top of it...

**Luci:**

Luci yelped as she felt the world shift for her as the frog girl got up. She had spent the entire time she was sleeping slowly being passed, unable to do anything but sulk on her loss. Now crammed as a thick, brown log in her bowels, all she could do was wait for her to get it over with. It wasn't the first time, but it stung every time...

**Violet:**

The giantess's stubby, frog-like tail twitched as she squatted down, her cheeks spreading and anus twitching... before pushing out a long, thick coil of fresh droppings from her behind. The steamy shit piled up beneath her, followed by a shower of fresh urine...

And just like that, Luci was gone~

**Luci:**

Gone as a pile of droppings, feeling herself cool while urine splashed across her body. Nothing more than waste until she reformed once more.

And, knowing the world she was going to reform into, it wouldn't be long until she would have to reform again. And again. Again and again, until the month was up.

One thing was for certain with Luci.

Now, more than any time ever in her entire life ... did she wish she still had her cock.

**Violet:**

Hey, Violet to Luci! Luci, can you hear me!

Hey, I think that our telepathy magic should work over long ranges, but I'm actually not one hundred percent sure. As far as I remember, we've done it over longer ranges, though, right...?

Anyway, how's your first day as punishment on the island? I mean, can we even call it punishment? It's like a month's vacation on a faraway paradise, isn't it~?

Heheh, I'm joking, of course. But do keep me updated, will you? I've got a calendar marked off on my wall just to remember to check in with you... and I'd LOVE to hear what you've been up to! For starters, did you stay in that fortress after I left, or did you get teleported back out to the island proper? I forget what we had decided in advance...

**Luci:**

A vacation?! Seriously?! You know, it's moments like these that remind me just how much I dislike you...

Ugh, and to answer your question, no and yes. No, it did not teleport me out onto the island. Yes, I did get out however, in that I was STILL IN THE FROG GIANTESS'S GUT! It didn't teleport me anywhere! I just stayed inside the stomach as it slowly churned me away, before I ended up being crapped out in some murky swamp. Guess they just hired her for a few shows or something, I dunno.

Once I dragged myself out, first thought was to find shelter ... but I had barely washed myself off before some giant frog snapped me up! Four times, four FREAKING times I got snapped up, digested, and reformed before I FINALLY got myself out of that freaking swamp. Now I'm cold, hungry, covered in slime, and hiding in the hollow of a log. This sucks. And it's only my first day!

**Violet:**

Oh my gosh, wow! Hasn't it only been like a day, though?! Wait, well, I guess if you count the timezone difference... Yeah, I can totally see you passing through four different frogs' digestive systems in that time. Wow, haha, you really are off to a shitty start. Haha, get it?

Hey, you'd better be expecting the teasing. Don't forget all of the bullshit you put me through when I lost the last challenge. I'm going to definitely make sure I enjoy this... You're just lucky I'm not there to make it harder for you~

Anyway, speaking of the island, remember my panther-boy boyfriend while I was there? I was thinking of using some of our tech to find him and bring him here to live with me~ what do you think? Wouldn't that be fun?

**Luci:**

Wow, you're so clever. And a part of me hopes you don't find him, since I don't want BOTH of you teasing me like this...

And ugh, if this was all cus of last time, then I'm DEFINITELY going to be nicer to you next time we have one of these stupid competitions...

**Violet:**

Don't worry! He doesn't say much. I'm not totally sure if he can speak English, to be honest. Actually,

now that I mention it, I'm surprised all of those pirates could. Did we have a tongues enchantment that I forgot about?

How's that log you're hanging out under? Must be nice to be in some shade... heheh~

**Luci:**

Shade that isn't your shade that is~

And I'm not sure, I never really stopped to think about the whole speaking thing! Guess I just took it for granted! Although, if we truly did have a proper tongue enchantment, I could talk to these beasts and convince them to not eat me all the time...

Hang on. Why ... why the heck is this log so ... soft? Awh crap...

That log? Actually a giant worm that was sleeping. And did you know it had a tentacle maw too?! I'm now in its stomach, wow, it ate me so fast...

Sorry if I'm not being melodramatic as usual, I guess I'm just acclimatising to all of this. That, or I'm still in shock.

**Violet:**

Okay, so I just checked, and remember that immunity shot we took before we went? One of the minor enchantments it had was a lesser tongues enchantment which gave us the ability to comprehend spoken languages in the strict sense but NOT to communicate with animals. So that explains that.

And oh my gosh, are you serious?! How did you not realize that before? Wasn't it like, super warm, or wet or something? Though I guess given the temperature and humidity on the island, I can see how you missed it... where were you hiding, in its mouth? And then it swallowed you? Wow, that IS some rather poor luck. You poooooor thing~

**Luci:**

I was hiding beneath it. I'm right next to a swamp, so everything is hot and wet. Ugh, I never should've told you this, since I'm never going to hear the end of this...

**Violet:**

Heheh, aww, are you getting discouraged already? If you're getting sick of me, you can just message me tomorrow when you're worm crap... if you want~

**Luci:**

I'm not getting discouraged, I'm just a bit tired and annoyed, okay?! I'm going to get through this and be strong. I know what I'm doing, I'm some dumb biAAAH!

What the ... oh crap, this thing has got a tentacle ... nfff ... tentacle stomach! It's freaking milking me, gah, this sucks!

**Violet:**

It's *what*?! Oh my gosh, no way! This is literally too good to be true... I wish so bad that I could see it! Heheheh, you lucky girl~ This is SO funny. I think I'm going to treat myself out to dinner tonight~

**Luci:**

Nfff ... hope you get food poisoning!

**Violet:**

I doubt it, darling~

**Violet:**

Hey Luci, you there? How's your night going? Just got done treating myself to a belly full of mermaid sushi... mmh, it feels so good to be on top~ I wish you were here to give me a nice tummy rub!

Right now, I'm just at home with a glass of tea, waiting for my stomach to settle~

**Luci:**

...right now, I'm waiting for THIS stomach to settle...

It's been raping me non stop for the last ... fuck, I don't know how long. Lost track of the number of times I've cum, and this thing just, keeps going.

Part of me wishes it never spits me out... mostly because it's probably safer in here than out there!

**Violet:**

Oh, aren't you a lucky girl~! See, what are you complaining about?!

Hey, can you tell me a little bit more? Your descriptions along with the... mmh, faint squirming inside of my stomach are getting me a little hot~

**Luci:**

I've currently got two tentacles up my ass thrust away, one latched onto each nipple sucking my milk, two slamming into my lower lips and drinking up my cum, and the final one down my throat. I think it's... it's feeding me some stimulation agent or something, since I'm cumming way more than usual...

**Violet:**

Oh my god, that's so hot~ haah, I hope that wormy keeps you down there forever~ URP! Ah, the mermaids' squirming is making me burp, too. Poor little things don't wanna get digested... Feels good to be on the predatory end of things for a change.

Ahh, I can't wait to see my new boyfriend tomorrow~

**Luci:**

I hope he eats you, then rapes you. In that order~

**Violet:**

Urgh, good morning. Sorry, I passed out as soon as I came last night. Fuck, I'm sore all over... didn't realize how hard the last few weeks have been on me.

How are you holding up over there? The mermaids are down in my intestines. Ooh, I really ate a lot of them last night... other than that, panther boy finally arrives today~ Huh, I figure I should find out his name, don't you think? I wonder if he even has one?

**Luci:**

Oh wow, I'm so sorry for you and all of your loss in how sore you are. You try moving after several hours of non stop tentacle rape! Sometime last night it mercifully shunted me into its stomach, and I was just so battered, it churned me away almost instantly. I'm now wedged in its bowels, just waiting to get squeezed out...

**Violet:**

Ooh, some release, finally! Hey, have you come out yet? I've got an idea - tell me when you feel like it's about to start pushing you out. Then I can use the toilet at the same time, and we can pretend like I'm the one crapping you out, heheh~

**Luci:**

Ugh, no! That's so immature, seriously!

**Violet:**

Is your pred ready yet? Sorry, I can't hold it in, so I'm on the toilet now~ though there was a lot of sushi, so I might be here for a while... ahhhh~

I can't get over how comfortable pooping in my own bathroom is after squatting in the jungle for so long. I wonder how those mermaids feel about it?

**Luci:**

Pretty shitty I'd imagine! Heheh, pun not intended. Sorry, guess I'm looking for any humour to brighten my day, considering how I'm currently being forced out of a monster worm's ass. Ugh, it's so slow as it's forcing me out, come on, hurry up, jeez!

**Violet:**

Whee, I'm so excited! Panther Boy is finally here! Wow, he looks exhausted... I can't blame him, though~ It's definitely rough to be brought to a totally new place like the city, if you've lived your whole life on a jungle island so far! His tummy was already sort of soft when he showed up... I wonder what, or who, he caught to eat along the way!

He seems happy to see me, at least~ How's things on your end?

**Luci:**

I hope it's someone important, so he gets arrested! Ugh, your life is being grand, while I'm stuck in a ditch, being pelted with howling rain, and just trying to go a *day* without being eaten!

I'm in the thicker part of the jungle now, and with it, comes my favourite thing in the world: dinosaurs~ (I'm being sarcastic about that by the way. I hate dinosaurs when they can eat me!)

**Violet:**

Oh, come on! Can't you rely on your affinity for dinosaurs to keep you going? On the bright side, it can be like, a learning experience~ Maybe it can help you out when you go do your writing! Like, inspiration or something like that! Do you know what I mean?

Me and Puribur went right to work~ that's his name, by the way. Did I tell you? Fuuck, I can't remember the last time I've had sex in my own bed. This is gonna be a fun few weeks~! Or however long it lasts, I mean!

**Luci:**

Puribur? *Puribur*? Seriously? That's ... that's so cliché and cringy!

And I'd love to do some writing, unfortunately, paper bark and charcoal isn't really ideal! Nor does the constant, pelting rain help me write much!

Awh crap, I was going to get up and move, but two big dinos have just pounded into the clearing. T-Rexes. Gonna keep my head low, hope the rain makes it too hard to smell me...

**Violet:**

That's his NAME! Don't you think you're being a bit rude?? You know what, I'm not even gonna get mad, because you're just jealous. I am just realizing that I don't have any birth control, though... what?! It's not my fault; I haven't had a mate in ages.

And oh! Are they fighting each other? Or like, working together? If they're not friends, maybe you could turn them against each other? I don't know; I don't really know much about dino behavior.

**Luci:**

Well it seems like they were hunting together, as they quickly snapped me up and are starting to wrestle me from each other's mouths! I'm in both of their maws and it's disgusting, gah, there's so much saliva! I don't care who eats me, just get it over with, fudge!

**Violet:**

Ah, what?! I wanna see! Hey, do you think we can get some magic to like, set up a video feed? Ooh! Maybe I can like, get a drone or something and follow you around! Hey do we have anything like that

lying around?

Oh my gosh, WOW! Ahh, I'm cumming~ fuck, this guy is SUCH a good lay!

**Luci:**

I am NOT going to become the star of some hack reality television show! Take your drone and film yourself having sex instead, not me!

The dino just swallowed me down, don't know which one, but honestly, I don't care. They're stomping away now, leaving me in a gut filled with digesting meat. Not even going to both pounding away at the walls, not even going to bother...

**Violet:**

That's an idea! I totally should have done that, and then sent you the video so you could see what I'm up to while you're gone! Kya, he's cumming in me now~ Oh, eww, what a mess!

Ahh, my legs are shaking, and I'm so warm~ Are you digesting now? Hey, haven't you thought about trying to get, like, a more permanent shelter or something to last you the month?

**Luci:**

I'VE BEEN TRYING TO GET A PERMANENT SHELTER, BUT YOU TRY AND FIND SOMEWHERE SAFE WHERE THERE'S ABOUT FIFTY DIFFERENT MONSTERS PER SQUARE MILE! WHAT, DO YOU THINK I'M JUST GOING TO FIND SOME FREAKING CASTLE LYING AROUND HERE FOR ME TO GET SET UP IN?!?

Just ... sorry for yelling at you there. I kinda got a bit insulted, but it's okay. Just ... I'm more than a little stressed right now, haha. And yeah, I've digested, pretty quick. I wonder who was faster, the dino's gut, or your partner at cumming?~

**Violet:**

That's okay, baby~ I don't mind the temper! And you've got some jokes down in there, don't you? You're right about him cumming quick, but his balls were firing off inside me for a while! He must have been really pent-up, eheh~

I'm pretty sure he's empty now, though. I'm just waiting for his barbs to retract; we're just cuddling in the meantime. Oh! I felt him twitch again... mmh, this is so relaxing, I could just take another nap right here...!

**Luci:**

While you're being cuddled by a cute panther boy, I'm being cuddled by the ruthless villae of a ravenous predator. Life sucks... and this whole thing has just begun!

**Violet:**

Evening, Luci! Sorry for leaving you hanging again - I fell asleep just like I said I would. I woke up a couple of minutes ago and ordered me and Puribur take-out... I went with a box of mouse-people to split between the two of us~

How are things on your end~? Still passing through T-Rex intestines? I'm sure that one isn't the last predator to pump you through its bowels~

**Luci:**

I'm currently being forced out of its rear right now. This is all just so humiliating... And mouse takeaways? Ugh, you always get the good stuff!

**Violet:**

How's its digestion/bowel movement? Healthy? I always wonder how the dinos on that island are getting along...

And I know, right? When you're back, maybe we can get some together... oh, good! They're here! Yes, I'm so excited! Mmmh, they look and smell so good! Oh, he looks hungry too! Perfect...

**Luci:**

Healthy, thankfully. Actually, now that I think about it, it might be safer to be a backed up bowel movement than to be scurrying around on the island. I can't believe I just said that, I can't...

Well, I've reformed and ran for the hills before this beast could eat me again. How bout you? How's your predation coming along?

**Violet:**

Ugh, don't say that. I've BEEN a backed-up bowel movement before, and it's NOT worth it. I don't care how safe it is; I'd rather be out in the wild than stuck in someone's ass for more than a day at a time. Find any shelter yet?

Things are good! I'm- ugh, hang on, someone's stuck in my throat...

glk... glk... ahh, okay, she's sliding down now~ A third mouse just joined the other two in my stomach. Mmmh, and they've all got this seasoning on them, it's sooo tasty~ Watching Puribur swallow them is fun, too! Ugh, he is SO cute....!

**Luci:**

I need to get you on social media, so you can talk about your new crush with someone BESIDES me. How did you find him anyway? Like, it's a big island! Did you retrace your steps and go to his stone hut?

And look, bowels are better than this cursed land, since at least nothing can eat me in there. Okay, I think my luck might've finally turned around. I found an old, abandoned hut. Half rotten, but it should work. Hah, and it's even got some tools in here! I might be able to fix it up and actually live here. I hope anyway...

**Violet:**

Nah, I just pulled the GPS data from our reformer stuff. It was pretty easy to locate him after that. Once

I showed up at his little home, he found me pretty soon after! I used a communication spell to get him to come with me, but to be honest, I'm not sure he really understood what he was getting into...

A hut! Oh, wow, that seems really sort of... fantastic! That's so interesting... I wonder where it came from? Do you think the pirates built it?

Mhm, hearing about you finding shelter on the island is making me a little excited~ Do we have any transformation potions left? I'm thinking about coming back to the island as a big monster just so I can find you and eat you up~!

And about nothing being able to eat you in intestines... CLEARLY you've never experienced parasites... ugh. But that's a long story..

**Luci:**

Oh, that's a long story I'm interested in~ And no fair! Thankfully, we don't have any such potions, and I'm the only one who knows how to make them!

But ... this hut? I doubt it'll be able to withstand ANYTHING coming at it. So, if any beasties come ... I gotta run outside, away from shelter and safety, and hope they eat me elsewhere. This sucks...

**Violet:**

Basically, a couple times I got eaten by a monster with intestinal parasites... but ONE time, my soul actually got absorbed by the parasite eating the creature's food! So I ended up stuck in there for quite a while until I was able to come out... super humiliating. And frustrating.

Ahh, okay, I stuffed myself with a fourth one~ Belly is bulging out now... And going to town~ Ahh, I'm so full!

**Luci:**

Yeah, I've had that happen to me a couple of time myself. For once, I agree with you on something~

**Violet:**

You too, huh? Is there anything that HASN'T happened to you yet~?

Okay, would you judge me if I told you I've found myself on the ground between Puribur's legs? I guess the downside to him always walking around naked is that I just can't help but give myself a taste every once in a while~ I'm not bragging too much, am I?

**Luci:**

Well not right now, no, it's just happened in the past.

And yes, yes I would judge you. But seeing as you've just told me, I'm judging you right now~ Keep it in your pants, will you?~

**Violet:**

Does it count as keeping it in my pants if I'm using my mouth? He's SO yummy, I can't help it. I'm spoiling myself over here~ What's the matter, are you missing it when it was YOUR dick I was sucking?

How's the shelter? Still a-ok?

**Luci:**

The worst thing is that you're kinda right about that. I miss my dick... if I had it, I would've won this stupid competition!

And yes, it's alright, I guess. At least I've got some place to sleep in when it rains.

**Violet:**

Huh? How do you figure? How would that made a difference...?

Wow, he's really hard. Think I can get him to cum twice in one day~?

**Luci:**

It makes a difference in that I can sleep in a rotten bed, but stay warm and dry while doing so. Mmh, nnfff ... eh, got nothing to do, might as well masturbate. Heh, maybe I can cum more than your dear partner, then again, twice in one day isn't that hard I reckon.

Mmmh, this feels good, treating myself like this...

**Violet:**

Oh, look at you, getting your own little release after all your stress~ anything I can do or say to help you out, you little slut~?

**Luci:**

Be quiet so I can enjoy this?~ Wow, that sounded a lot less mean in my head ... well, the head before my head in which you can hear these thoughts or whatever. Am I making sense? Probably ... nnnfff ... probably not~

Wait, wha? There's some noise outside. Just as I was starting to have some fun. Maybe it's something harmless...

...and it's a freaking lizard-man. Hulking, reptillian humanoid with scaly skin, and a keen nose ... for sex. Fudge, did I just ruin my night by masturbating? Just my luck...

If it's going to come after me, I might as well get out of my house, so it doesn't try and trash the place. And it was all going so well...!

**Violet:**

Ooh, his barbs are coming back out! Nice, he is totally gonna blow another load! Ahh, I gotta decide quick if I want it on my face, or if I wanna give the little squirmy mice a bath~

Oh my gosh, are you serious?! Looks like you're gonna get your own bit of fun~ What does he want, you think? Is he hungry, or is he looking for a mate? Hey, maybe if you give yourself to him, he can keep you safe for a couple days~!

**Luci:**

Unlikely. These creatures don't have any intelligence, they're just an animal with two legs, two arms and a tail. Okay, I got out of the hut, now just need to creep through the bushes...

Crap! It bounded out and grabbed me, it's holding me up by the legs! I'm trying to fight it, crap, it just ate me up to my legs already. Just one gulp, come on! That's so unfair! And ... he's making me suck him off while he gulps me down. I can't believe this thing...

**Violet:**

Haha, wow! So that's not even any luck for you, huh? Poor girl~ how does he taste? I bet not as good as my guy over here~ who, by the way, is really starting to leak out precum!

Ooh, yes! His nuts are tightening up! Ahh, cum in my mouth! I wanna swallow it all... and give those little mice a taste of the action while I digest them!

**Luci:**

Of course he doesn't taste nice! Beast cum always tastes terrible, well, most of the time anyway. Wait, don't tell anyone I said that!

Fudge, this thing just blew into my mouth right away, and gulped me down. Now I'm in its gut with chunks of stuff and its own cum. Yuck...

I hope I can find my hut after this...

**Violet:**

Mmh, I can't relate! The feeling of his hot seed flowing across the back of my tongue and into my throat is... haha, wow, that's the sluttiest thing I've heard myself say in a long time!

Mmmm~ What a lovely after dinner treat. But all of this digestion is making me sleepy again... would you mind if I went to bed?

**Luci:**

I wouldn't particularly mind, no. I just came apart into nutrient/semen goo, so I'm just going to be sluicing through this thing's intestines until morning...

Nighty night, I guess.
