

Chapter 10

Halloween Special.

As usual, Dillan is woken up by Camy's delicious farts in his mouth. He wakes up, they both go down to the kitchen, and Ingrid arrives. They eat breakfast and go to the TV room. They turn on the TV on any channel. All channels have almost the same content, pure pornography. There was a movie on TV about a Halloween party, where all the characters were fucking each other. Perfect to accompany their morning sex.

They fuck while watching other beings fucking on tv. It only ended when the 3 ones had their insides filled with cum. The doctor arrives, and they receive her.

Dr. Blowfuck: "So, are you excited for the Halloween Festival?"

Ingrid: "Of course! I love Halloween! The candies, the antics, walking around dressed up for anything."

Camy: "I remember it wasn't even Halloween yet, and you had already dressed up as a dildo. And everyone wanted to use you."

Ingrid: "Haha! I remember! It was fun. I never thought I would see the inside of so many bunnies in a single day."

Dillan: "I like Halloween! It was the only party where I could stay out of the house all day and be myself. Not to mention sweets, and games."

Ingrid: "I want to win so many candies that I will no longer have space to store them in my bag, so I will start to store them in my asshole."

Dillan: "And when your rectum gets full?"

Ingrid: "Then I will start to store it inside my pussy."

Dillan: "And when your uterus becomes full?"

Ingrid: "So, I will start to store it in my stomach."

Dillan: "But that way you will already be eating the candies."

Ingrid: "No. I will be storing it ... then they will pass through me, and then I will dump them through my ass and eat again. Only then will I really be eating the candies."

Dillan: "But in that way, it's possible for you to turn candy into shit."

Ingrid: "Fuck off! Candy or shit, it'll be yummy, anyway."

Camy: "Apparently, you will have fun. Just be careful, or Psycho will get you!"

Dillan: "Psycho? Who is she? A halloween legend?"

Dr. Blowfuck: "It's an old horror story, told to scare children."

Camy: "It is not just a horror story. The doctor is only skeptical. Psycho is real! Our past, and history books confirm her origin."

Dr. Blowfuck: "I never said that she is not real. But, her origin was 15 years ago. And what the legend says, has no scientific basis."

Dillan: "Wait a minute! Human freaking out! Can you explain all that?"

Dr. Blowfuck: "Sorry, Dillan. For you to understand this legend, you must first understand our past. The Bunnies' past. Come on! Let's go to the library."

They go out and walk to a part of the city. With that Dillan noticed something he had always seen, but had never paid attention to. The streets of Easter Island, at least those that were at sea level, had sidewalks, but these sidewalks were not for pedestrians, because they had a barrier, and passed through a tunnel under street entrances or intersections, and the bunnies walked the streets. And in some specific points, these sidewalks rose to a considerable height, so much so that access to these elevations was only possible through ramps and stairs. Today, Dillan found out what that was for. The barrier was actually a trail, where the bunnies monorail passed, and the elevations were their stations. The group enters the monorail, and after a while, the doors close, and the train continues traveling. After Dillan asks, the doctor says they were heading for the Bunniacle road. The main road in a neighborhood of the same name, on the other side of the island, a place Dillan had never visited before.

On the way, they follow a road that passes by the side of the natural park, which evolved a large, very dense forest.

Camy: "According to legend, it is in this forest that Psycho lives. And this is not the only legend about this forest."

Dillan: "Yeah! Have you ever tried to scare me with some of them ..."

Camy: "There is also a legend about ectoplasm monsters, which attack anyone who gets too close."

Ingrid: "And what happens with them?"

Camy: "Nobody knows. So it is necessary to be careful. There are so many scary legends about this forest, that after Psycho, this place started to be called Cursed Forest."

Dr. Blowjob: "When we get to the library, I'll explain why these legends don't make sense."

They arrive at their destination. A very busy road, although there are no vehicles. They enter the library. The librarian answers them.

Librarian: "Good Morning! Welcome to the Easter Island Library. Remember, there are only two rules here:"

Librarian: "1- You cannot steal or damage books ..."

Librarian: "2-You can do anything else here, as long as you do it in silence."

Ingrid: "So if I want to gape my asshole with a book, is it okay?"

Librarian: "You just can't damage it, or make noise."

Dillan: "So, is it okay if I masturbate in silence?"

Librarian: "I'm masturbating right now, look."

As they look closer, they realize that the librarian had a hand on her pussy, and a finger stuck in her pucker.

Librarian: "Feel free. And remember. Silence!"

She whispers this while emphasizing her speech with the specific gesture of silence. But, as her hand was rubbing her pussy, and when making the gesture she touches her finger in her mouth, when she pulls her hand away from her face, two strands of vaginal secretions were connecting her index finger to her lips. They enter the library releasing giggles, while the librarian masturbates again.

They arrive at a huge table, with some computers, there were also some bunnies reading some books, others just masturbating, and others masturbating while reading books.

Dr. Blowjob: "Dillan, you can wait here, or if you want, you can walk around, but we'll meet here later."

Dillan decided to sit and wait. The girls separated, each one, going to a part of the library. The chairs were very peculiar. There was a huge hole in all of them, so that when Dillan sat down, his pucker and his balls were exposed for everyone. He found this chair a great idea, especially since he loved to feel a refreshing breeze in his private parts.

Ingrid walked through the huge halls, filled with books everywhere. She finds a bunny who was distracted reading a book, her cock

throbbled, and dripped pre-cum as she read each page. Before she started to masturbate, she felt a small mouth swallow her cock. Ingrid sucked and sucked it, the unknown bunny who concentrated on her reading, as Ingrid was helping her.

Meanwhile, the doctor was looking for the book. After a few minutes she finds this, on a very high shelf. With the help of a ladder, she climbs up to reach the book. On the way down, she is surprised by an unknown bunny, who was positioned on the stairs, so that when the doctor went down to a specific step, her asshole had a direct contact with the bunny's mouth, who started sucking on that tasty tailhole that she had, at the same time that her mouth kissed him.

A mixture of surprise and pleasure, they began to rise and spread over the doctor's body. Her cock hardened in a short time, her tongue dropped from her mouth, hanging outside, while she gasped pleasantly, feeling the sucks and licks on her butt. She concentrated on not making noise, which was difficult, since that tongue, doing wonders in her asshole, made her want to scream with pleasure, for the whole island.

The doctor hands the book over to the bunny who was enjoying her pucker, who places it on a small table next to the stairs. Now with her two legs free, she can better support herself on the stairs, and settle in her current position.

Meanwhile, Camy walked down the halls, until she found a little bunny, who was trying to read a book, but when she saw Camy, her dick and her big balls, she kept looking. Camy passed her, already realizing that she wanted her cock. She picks up a random book, sits down, in a small chair over there in the hall, with her legs wide open, exposing her cock and balls to everyone in the hall. Of all those in the corridor, only the little bunny stared at Camy's semi-hard cock.

She approached slowly, without blinking, staring at the cock's head, half hidden behind the layer of skin. She stood there, staring, for several minutes. Camy thought of all the perverted things she could do with her, just to increase her erection.

Camy: "So? Are you going to do something with my dick? Or are you just going to look?"

Taken by surprise, the little bunny blushed. But even so, she picked up Camy's cock, who closed the book when the little bunny started to masturbate her. She alternated between staring at Camy in the eye, and staring at her dick, which got harder every time she looked.

Back at the doctor, her cock was now throbbing, with a long strand of pre-cum hanging just below her urethra, which swayed each time the doctor's cock throbbled. A rimjob, wonderful, delicious and unexpected. This made her very happy. *"Fuck! What a delicious thing! Could it get any better?"* She thought. The answer came right away. When the unknown bunny grabs the doctor's dick and starts to masturbate her.

The stimuli in her cock, combined with the stimuli in her anal muscles made her cum. She soiled the ladder, the bunny's paw and some books on the shelf with her penile milk. Even after cum, the unknown bunny was not yet finished. She continued to suck, sticking her tongue as deep as possible. This made the doctor keep her horny, and before long, her dick was hard again. The doctor had her ass sucked for a few more minutes, and to her surprise, she came again. This time, the unknown bunny ate the head of the doctor's cock, swallowing her warm, creamy milk.

Meanwhile, Dillan was just waiting, enjoying his exposed anus. Soon he started to think that it would get a lot of attention. While searching for various creatures that lived in the Flat Earth, and different types of asses that they had, suddenly he feels something in his own butt. A bunny took advantage of the opening of the chair and pushed her hard cock into Dillan's asshole, slowly. With each impulse, his lust increased, he puts on a slideshow of various ass images while he masturbates, while the bunny fucks his pucker.

The doctor, finally, decides to move, but the unknown bunny did not want to leave her ass. After swallowing the doctor's cum, she again licked her pucker, masturbating her again. Although the doctor loved all those licks, and wanted to stay there carrying her wonderful tongue inside her asshole and cum for the rest of her life, she knew she had more important things to do.

Dr. Blowfuck: "Wow, thanks. I loved your tongue, it did wonders on my tailhole. I'm sorry, I wanted to stay and let you lick my ass some more, but I have other things to do. Here, this is the address of my laboratory, if you want, go there for a medical exam, lick my pucker some more, or just fuck, whatever, you will always be welcome. By the way, since you've already kissed my ass, let me at least know your name."

Bunny desconhecida: "My name is Misha."

They hand over their phone numbers to each other.

Dr. Blowfuck: "See you later, Misha."

The doctor takes her book back and goes to find Dillan.

With each sip, Ingrid felt her lust increase more and more. Meanwhile, the other unknown bunny, reached her peak, cumming a lot, filling Ingrid's mouth and throat with her cum. With each sip, Ingrid felt her lust increase more and more. She hugs the bunny's hips, gripping her ass cheeks tightly and pushing them away, exposing her asshole. Unfortunately, Ingrid couldn't admire the bunny's tailhole, and swallow her creamy cock milk at the same time. She chose to swallow the cum, her fluids were ejected from her pussy, dripping down her legs, and creating a puddle on the floor. She swallowed to the last drop, leaving no trace on the bunny's cock. Ingrid then leaves, listening to the bunny thanking her for sucking her.

Back at Camy, the little bunny, was so focused on her cock that she was startled when she came. The jet of cum hit her face, she turned her head for subsequent cum shots to paint the rest of her face. After her face is painted white, she opens her mouth to eat the rest of the cream that was ejected out of Camy's cock. After ejaculating, Camy thanks the little bunny and remembers Dillan, she gets up and goes in search of him, saying goodbye to the little bunny. She sat in the armchair, slowly, licking the creamy milk off her face.

They all meet at the table, and they see Dillan being fucked in the chair. They sit beside the boy and wait for them to finish. They had been fucking for several minutes, so Dillan came right after that, painting the computer and the keyboard, with his white and milky load.

At the same time, the unknown bunny reached its peak, cumming inside the boy's asshole, filling his intestines with creamy milk.

She removes her dick from the boy's butthole, and a huge load of cum falls off him. Dillan's pucker was so open, that his large intestine was almost coming out.

The unknown bunny, hugged Dillan from behind, and left without saying a word.

Dr. Blowfuck: "Very well! Now that we're all here, Dillan, let me explain everything to you."

Dr. Blowfuck: "First, to understand this legend, first you need to understand our customs, and our past."

Dillan: "I always had doubts about your customs. For example ... Why do you eat each other? Shouldn't you be herbivores?"

Dr. Blowfuck: "Yes. And we were ... Let me start at the beginning."

The Doctor opens the book and begins to tell the story:

Dr. Blowfuck: "In the past, we were herbivores, like any rabbit. And we lived here on this island, isolated from the rest of the world, without any kind of predator. But, we are rabbits, and you should know how rabbits reproduce."

Dillan: "Yeah. I know."

Dr. Blowfuck: "We love to fuck. We fucked a lot, because of that, we ended up having a lot of daughters. And since we had no natural predators, the island suffered a serious problem of overpopulation, and this caused food shortages."

Dr. Blowfuck: "For many years, bunnies went hungry, and it only got worse with each passing month. We were on the verge of collapse. Then, one day ... A mother who loved her hungry daughters very much, made a very radical decision, but that saved their lives, in addition to saving all the bunnies and our species."

Camy: "This mother willingly entered an oven and baked herself for her daughters. This is insane! Do you have any idea what it's like to be roasted alive?"

Dillan: "Yes I have!"

Camy: "Oh, that's right! Excuse."

Dr. Blowfuck: "Anyway! The daughters ate their own mother to escape hunger. With that, we found that our own taste is great."

Ingrid: "I said!"

Dr. Blowfuck: "When the news spread, the bunnies easily adopted the habit of eating each other. The strangest thing was that we adopted, even more easily, the habit of accepting being eaten, with the greatest pleasure. But it didn't end there. This became an

addiction. At all times, the bunnies wanted to eat more and more bunnies. And as a result, our population began to decline, gradually."

Dr. Blowfuck: "Again, we are once again at risk of extinction, only this time for another reason. But, salvation occurred about 15 years ago. A new law was imposed by the Easter Bunnies, which regulated the act of eating other bunnies. Laws have been modified, and shaped over the years. Until we get to the laws we have today. I believe that you remember these laws."

Dillan: "Yes I recall."

Dr. Blowfuck: "The problem is, not all bunnies have accepted these laws well. Or rather, they accepted and agreed with them. But their addiction was greater than anything. And many times, they broke the law and ate some bunnies. Many of them adopted a preference for children, as they are small, and able to descend a throat more easily, even whole. Well, all those who violated the laws were arrested and taken to psychiatric hospitals."

Camy: "All, with the exception of Psycho!"

The doctor closes the book, as it was no longer needed.

Dr. Blowfuck: "Yes. Psycho, it was the most serious case. Her addiction was so much that she went crazy. Before, she convinced other bunnies to let her eat them, then she started doing it only with children, as they are more influential."

Ingrid: "Hey! >:("

She said as she wiggled her finger inside her tailhole, like someone who wiggled her finger inside her nose.

Camy: "Do you know what *influenceable* means?"

Ingrid: "No ... But I know it must not be a good thing, from the way you said it ..."

She says this while sniffing the finger that she put in her rectum, then sucks on that finger.

Dr. Blowfuck: "Later, mothers began to better educate their daughters. As a result, the number of children who refused their request, because they did not know it, only increased."

Dillan: "The famous phrase: *Don't talk to strangers*. "

Dr. Blowfuck: "Exact! No longer able to convince them, she began to kidnap them, devouring them without their consent."

Camy: "Then she stopped even preparing the children. Now she kidnaps you, and swallows you whole and alive. The legend says that she is so crazy, that she likes to feel the children dying and screaming for help inside her as she digests them. And her madness goes further. You always know when Psycho acted, because after she digests the children, she defecates what's left of them in a public place and decorates the pile of shit with the children's skulls. Which is the only part that comes out of Psycho's asshole, besides her shit."

Dr. Blowfuck: "(sarcasm) Oh, of course! I'm just skeptical. That makes perfect sense! Psycho has a stomach capable of digesting all the bones in a bunny's body, but not the skull. Now do you understand why I don't believe her? And that is just one reason."

Dillan: "And what are the other reasons?"

Dr. Blowfuck: "Ah! I could explain everything. But, why don't you let your girlfriend tell the rest of the legend. Where would she be now?"

Camy: "After Psycho's fame increased, authorities tried to arrest her. Then she ran away. She ran away to that forest where we passed. And there she hides, even today. And on Halloween, as there are thousands of children, often, walking unsupervised on the streets, it becomes a real feast for her. Then she leaves her hiding place and sneaks through the shadows in search of a small unsuspecting child, to be her next meal."

Dr. Blowfuck: "Now let me point out all the holes in this legend."

Dr. Blowfuck: "First: As I said before, *Psycho has a stomach capable of digesting all the bones of a bunny's body, but not the skull?* I don't need to explain that it doesn't make any sense. Right?"

Dr. Blowfuck: "Second: *She comes out of hiding and sneaks through the shadows in search of a small unsuspecting child.* Between the forest where she supposedly lives and the civilized area, there is a huge open field. A very popular natural park. It would be impossible for her to leave the forest and hide in the shadows of the city without being seen."

Dr. Blowfuck: "Third: According to Camy, she inhabits the same forest where there is a legend about ectoplasm monsters, which attack anyone who gets too close. If that were true, she would have been a victim of these monsters."

Dr. Blowfuck: "Fourth: The forest is very dense and unexplored. And the authorities were chasing her. If she went into the forest, she would never have been found, but she would certainly be lost, and she could starve to death, or commit suicide due to depression, for spending so much time without eating a child. But, if she hid at the edge of the forest, she could easily find her way back to civilization and do everything the legend says. But if she hid at the edge of the forest, she would surely have been found and arrested by the authorities."

Ingrid: "I have a doubt. How is it possible for a child to be swallowed whole? How would a child my age fit in a stomach?"

Dr. Blowfuck: "It's not just a bunny's pucker. All the muscles in our entire body are very elastic. Including the stomach."

Camy: "Yeah. Did you forget that I already swallowed you?"

Ingrid: "Oh! Really!"

Camy: "Not only that. I swallowed your sisters too. Both fit normally in my stomach. I felt no pain or discomfort. Not even when they were in my stomach, passing through my intestines, or sleeping in my rectum. On the contrary, when they came out of my ass, I came in liters!"

Ingrid: "Wait! Did you eat my sisters?"

Camy: "It was the only way to keep them quiet."

Ingrid: "Haha! And my mothers say that I am the troublemaker of the family ..."

Camy: "Will we agree that you are not very different from them, in this regard? ..."

Ingrid: "Yeah! ... But, it's not just me ..."

Dr. Blowfuck: "Anyway! With that we can conclude that Psycho is no longer alive. And you can have fun at will, and without fear."

Dillan: "But, the fun of halloween is having fun feeling scared."

Dr. Blowfuck: "I know, but ... (sigh) You understand what I mean."

The doctor looks at the time through the computer.

Dr. Blowfuck: "Holy shit! We've been here for too long. We'd better go now to enjoy this night."

Ingrid: "Will you come with us, doctor?"

Dr. Blowfuck: "No. I help the Easter Bunnies by distributing trick or treating. If you want, you can stop by the castle."

At dusk, at Camy's house, Dillan appears in his ghost costume, trying to look scary, just trying. Ingrid reveals her fantasy. It was not possible to identify what she was. She simply wrapped bands around her body, and rolled in the dirt. It was not possible to know if she was a mummy, or if she had been in an accident. Regardless, she was too cute to be scary. The two are paralyzed when Camy reveals her fantasy. A vampire, whose dress imitated bat wings. Between the two wings, the fabric was almost translucent, making it possible to see her large cock, and her striking testicles, just behind, even with the low light of the night. Her huge breasts were charming, tightened by the dress, with a huge neckline, which had openings, leaving her nipples to sample. Make-up face and fake teeth, she looked beautiful. Dillan even got hard when he saw her.

Someone is knocking on the door. Dillan opens and is faced with a reaper, with a pumpkin head, and holding a scythe in one hand and the doctor's severed head in the other. Dillan is startled and falls to the ground, terrified. The reaper removes the mask and reveals to be the doctor.

Dr. Blowfuck: "Sorry. Did I overdo the fantasy?"

Dillan: "Are you kidding? Its amazing!"

Dr. Blowfuck: "Thank you! I just stopped by to see you. I loved the costumes. Remember that if you want to see me, I will be at the castle."

Camy: "And I will stay here. Handing out candies, and I called the girls to a party full of mischief."

Dillan: "And we're going to walk around until we start shitting candy."

Camy: "Have fun. And remember, do not go to the countryside forest. Or Psycho will eat you."

The doctor sighs, and they part ways. Dillan and Ingrid didn't even know where to start. They decided to start knocking on the neighbors' door. All of them were kind and delivered sweets normally. As they moved away, the way of delivering sweets became more and more creative. Starting with just delivering the sweets, going through magic tricks, keeping the sweets between the breasts for the children to take, until storing them inside the ass, when the children asked for candies, they defecated them in the bags. Some came out dirty with shit, but the kids just loved it even more, that way.

Camy was alone at home, with a bowl full of candies, on the counter by the door, waiting for someone. She thinks to herself and has an idea. Camy filled her hand with a handful of candies, and went, one by one, putting them in her asshole, to make them warm and flavored by the delicious smell of the interior of her rectum.

Camy opens the door when she hears someone knocking. It was a small group of children.

Children: "Trick or treating!"

Camy takes a portion of candy and distributes it to them. They thank you and leave.

Camy: "You're welcome! Happy Halloween!"

As soon as she closes the door, someone knocks again. When she opens the door, she sees that it was a child who was alone. She says: "Trick or Treat", but in a not very lively tone. Camy notes her bag is completely empty. Camy smiled when he realized she was special, worthy of her flavored sweets.

Camy: "Of course! Happy Halloween, cute little one!"

She says, as she turns her back on the girl and raises her fancy dress, displaying her plump, soft ass for her. Then she grabs her ass cheeks and spreads it, so that the girl sees her big, pulsating anus, which opens to pour a bunch of warm candies into the little bunny's bag. The child's tiny cock begins to stiffen as she watches Camy's ass defecate sweets for her.

But when the candies finished coming out of her pucker, Camy felt that there was still more, but they were deeper. She asks the child to wait a little while, while she starts pushing. A fart that Camy was not expecting, passed through her sphincter, and was shot into the child's face, directly into her nostrils. The tasty smell of shit with chocolate, only made her little cock stiffen even more, to the point of pre-cum starting to drain through her urethra, which goes down the tiny head of the child's penis, and begins to form a drop hanging by a thread translucent and viscous, which slowly stretches over time.

Camy kept pushing after the fart, other little farts were coming out of her ass, almost silent, but just as fragrant as the first. Until, finally, the remaining candies came out of Camy's pucker, all glued to her load of shit that came out right after. She filled the child's bag with her feces, who, watching all this, was about to cum. Camy turns around again, just to see the child's reaction. She sniffed and tasted her shit, and when she found out that the taste was 50% chocolate, she came, covering her own candy bag with her cum, confectioning Camy's shit. She takes a handful of shit covered with cum, and walks away eating it, while dragging her bag, now too heavy to lift. She thanks Camy, with her mouth full, while waving her hand with the candy from Camy's ass.

Meanwhile, Ingrid and Dillan go from door to door asking for sweets, always heading towards the castle. Eventually they arrived at the edge of the mountain, but they went towards the laboratory, to visit the doctor and the queens.

Once there they see the Easter Bunnies and the doctor at the entrance of the laboratory, behind a table full of bowls, these filled with chocolate candies ... They were surrounded by bunnies of all ages, however, children were the majority.

Monarch: "Dillan! Sugar!"

The monarch arrives and embraces the boy, and the queen lifts Ingrid on her lap and hugs her too. Then they switch to embrace others.

Dr. Blowfuck: "Glad you came ..."

Queen: "I loved your fantasies. You are very cute!"

Dillan: "Thanks. But what about you? Why aren't you dressed up?"

Dr. Blowfuck: "Well, this has become tradition ..."

Monarch: "If we dress up, bunnies may not know who we are."

Queen: "All bunnies want to recognize us from afar, so they can come and be part of our game ..."

Ingrid: "What game is this?"

Queen: "It's a trick or treat game... See all these candies?"

They see the bowls of candies, and now looking closely, they realized that they were not candies. It was shit rolled up in a round shape, resembling brigadeiro.

Monarch: "They are made with our shit. That is, it tastes like pure chocolate ..."

Dr. Blowfuck: "But, some of them were made with my shit. That is, it tastes like pure shit ..."

Monarch: "They are all mixed up. You can't tell which one tastes like chocolate, and which one tastes like shit ..."

Queen: "Only if you eat. And that's where the trick comes in ..."

Dr. Blowfuck: "I mean, so so... It used to be more fun ... Nowadays, everyone loves the taste of shit, so they don't even care anymore. Some even prefer to eat the trick instead of treat ..."

Dillan: "Well, you can still have fun like that ... They just need to change the focus of the game ..."

Queen: "How?"

Dillan gets 3 shit candies ...

Dillan: "I bet ... that all 3 will taste like chocolate ..."

He eats the first.

Dillan: "Shit Literally. It's shit ... I lost."

Dr. Blowfuck: "Not bad ... So it's fun again."

Queen: "Thank you for helping us, Dillan."

Dillan: "No problem! We have to go ... Ingrid and I want to stop by the high square..."

Queen: "Ok then."

Dr. Blowfuck: "See you later! Have fun!"

Monarch: "Wait! Do you want some more shit-candies before you go?"

Dillan & Ingrid: "Of course!"

The queens and the doctor made a point of creating more fresh shit sweets for them. This taking advantage of that, while they talked, the other visitors, took the candies on their own, and ended it all. The first furnace would be especially for them. They defecated in empty bowls, and rolled her anal chocolates until they created more candies. And they hand over the children, who give thanks and go to the square from above.

Back at Camy, she watched TV in the living room waiting for someone else. A few minutes later, someone else knocks on the door. This time, they were her friends, who came to their party. They switched TV programming from a movie to video clips. The goal? Hold the longest orgy they've ever had. They started now, and would only end when the halloween festival ends, more precisely, when the sun rises. So they started right away, forming a line. When Camy goes up and gets on all fours on the couch, Llena goes behind her and starts to masturbate her, in that posture, it looked like Camy was a cow and Llena was milking her. Dany masturbates her wife's pussy. Her balls are stroked by Jessie, who is masturbated by Vixem in the same way as Camy.

Elsewhere on the island, Roxy ends up meeting a new friend. Her name is Linda, and they decide to go out together to order candy around. But, Roxy wanted to introduce her to Ingrid.

Roxy: "I have a friend named Ingrid, she is my best friend. Come on, I'm sure you two will get along."

Linda: "Sounds good to me. Where she lives?"

Roxy: "It is near here, but it is not there that we will find it."

Roxy takes Linda to Camy and Dillan's house. There, Camy answers the door, and the girls noticed that the house was full. All of Camy's friends were here, including Ingrid's moms who were fucking in the kitchen right behind Camy.

Roxy: "Hi Camy! That is Linda. Is Ingrid here?"

Camy: "Nice to meet you! But not. Sorry. Ingrid went out to order sweets with Dillan. I don't know where they went."

Roxy: "Ah. Ok."

Roxy looked sad. Then Camy offered her shit to make her happy again. And it worked. Not only that, but Linda convinced Roxy the two of them to order candy alone. After all, Linda and Ingrid can meet on any other day. Linda, like Ingrid and Roxy, causes trouble all the time, but in her case, it was due to her extrapolated sense of adventure, her lack of fear, extreme curiosity, and a lot of naivety. And thanks to that, she had the brilliant idea of going to the other side of the island to order sweets there.

Meanwhile, Dillan and Ingrid found a bunch of bunnies in the high square playing challenge games. The rules were simple, one person challenged the other to do something. As there were 26 children playing at the moment, if she succeeds, she receives 1 candy from each member, that is, 25 candies. If not, she will have to give 10 sweets to the person who challenged her. After the round is over, the one that was challenged is the next to challenge someone. One of them was challenged to take ten steps walking with her hands. She, unfortunately, fell on the fifth step. With that she loses 10 sweets.

Ingrid: "Hi! Can we play with you?"

Bunny: "Of course ... Ooooh! The human!"

All the children surrounded the boy. He bends down to talk to them and feels hands feeling his body, from his legs to his ass. One even asked to touch his balls. He obviously allowed it. The kids stared at Dillan's cock, which hardened as his balls were stroked. Until one of them remembers the rest of their game. With that, the children stopped being distracted by Dillan and his private parts, and went on with their challenges.

Meanwhile at the Easter Bunnies castle, near the lab entrance, the doctor's ass gives birth to several pounds of fresh shit, which are deposited on a platter, where she and the Easter Bunnies pick up, little by little, and roll them up to make more pranks, to be put together with the candies.

Queen: "Hey... Chara..."

Dr. Blowjob: "Although the origin is bullying ... You can call me Blowjob ... I already clung to that nickname."

Queen: "OK.... But then, doctor ... I just wanted to say that I am impressed by your fantasy."

Dr. Blowfuck: "Oh thanks!"

Monarch: "Can I make an objection?"

Dr. Blowfuck: "What?"

Monarch: "Your fantasy is very good... But there are a few things missing..."

Dr. Blowfuck: "Go ahead ... Change ..."

She extends her arms and spreads her legs. The monarch thinks for a few minutes and soon afterwards he already knew what to do. She tore the doctor's costume in specific places, then adjusted her body parts for a final touch-up, leaving her tits, her cock, her balls and her anus to sample.

Monarch: "Now it's perfect."

They return to distribute the sweets after they finish rolling the doctor's shit.

Queen: "Answer me one thing, Chara."

Dr. Blowfuck: "..."

Monarch: "How did you make your severed head? ... Was it with papier-mache?"

Dr. Blowfuck: "No ... Let's say I took advantage of an incident that happened yesterday ..."

In the doctor's memoirs, she remembers being working on a somewhat dangerous project. It was a cutting device that used lasers. While trying to get the controls to work, she accidentally bumps into the wrong circuit, and one of the lasers activates and moves past the doctor's neck.

Dr. Blowfuck: "hmm!.... Shit!..."

She says before falling motionless on the device.
Hours later, the doctor reappears from the checkpoint, right behind herself.
She approaches and analyzes his decapitated body.

Dr. Blowfuck: "Has my butt always been that big?"

She scratches her head.

Dr. Blowfuck: "(thinking) But ... What now? ... What do I do with it?"

Flashback ends.

Queen: "What the fuck!"

Dr. Blowfuck: "Yeah! I know ... It can be quite ... Disturbing ... But ... The idea came from this ..."

Meanwhile, Roxy and Linda are on a monorail, going to the other side of the island. While watching all, through the window, they were in a posture that left their butts open, exposing their holes to whoever was in the car. Because it was Halloween, most bunnies were walking the streets. But, there were at least 10 bunnies on the train, and two of them were in the same car as the two children. They stared at the children's asses, while stimulating their genitals with their hands. When they arrive on Bunniacle Road, they start wandering around the neighborhood, asking for candies from door to door. Until they found a group of bunnies that were doing the same thing. Linda soon socialized with the group, and she and Roxy joined them to purchase more candies.

Meanwhile, Camy and her friends were having fun at their orgy. At that moment Camy was fucking Llena's asshole, but someone was knocking on the door. She went to answer it, but for that, she needed to remove her cock from inside Llena, something she wouldn't let happen. If necessary, she would go with Camy to answer the door, but Camy would not stop fucking her ass. And that's what happened ...

They continued walking in a very clumsy way and in strange postures to fuck while walking. They open the door to see a bunch of children in costume, with a happy look transforming and wide-eyed, mouths open and drooling.

It was possible to hear one: "Trick or Tr...", since the children were unable to say anything else, after seeing the two bunnies fucking in the door in front of them. Llena distributed the candies to the children while moaning loudly in their faces, as Camy concentrated on fucking her asshole. Then she turns around so the kids can see her pucker being gaped. Camy slowly closes the door, so the kids have as much time as possible to watch Llena's ass getting fucked. The two return to the living room, where they join the rest of the girls and continue their orgy.

After several challenges, Dillan was challenged to swallow his own cum. He lets out a smug laugh, as he has done it countless times, and with the help of his giant cock, compared to his small body, it was particularly easy for him. He sucks the head of his dick for a while, and when it reaches its peak, he opens his mouth, so that the children see his cum being squirted from his urethra to his tongue. After cum he closes his mouth, tastes and then swallows, and opens his mouth again, sticking his tongue out in a groan of pleasure and satisfaction.

Ingrid complained that the challenges were too easy ... She wanted something more exciting ... The boy looks around and finds an empty can of cheese spray.

As it is now Dillan's turn, he challenged Ingrid to put half of the can in her asshole, run with her to the nature park, skipping in all fours, without letting the can out. There was a detail, she couldn't put the entire can on the butt, only half. She scoffs, saying it was a piece of cake ... After putting the can in the her tailhole, she realized that it wasn't as easy as it looked. When she positioned herself on all fours, her rectum pushed the can out, almost making her ass spit it out like a mouth. The can was cylindrical and smooth, and because it had only been put in half, any sudden involuntary movement of her rectal muscles could easily push the can out. And because Ingrid's asshole was already well used, it didn't have the firm grip that a virgin anus would have. That would have made it easier.

Ingrid starts to skip towards the natural park. The children follow her, but Dillan, being a human, had a hard time keeping up with the group of bunnies that hopped around. When a bunny moves around in that posture, in all fours, and hopping around, not only makes their asses look good and their private parts well exposed, which was something they loved, but they also made them profit their anatomy to the fullest, allowing them to move surprisingly fast.

Despite the repetitive jumps, and the uneven relief, Ingrid managed to keep the spray can crossed in her sphincter. Every time the can came out of her butt a little bit, she made a small effort with her anal muscles, and pulled the can back to her place. She arrives at the natural park and remained in her posture, with her legs spread and her butt sticking out, waiting for the rest of the participants to arrive, which did not take long. Dillan arrives a little late and exhausted, and is surprised by Ingrid's ass, which was upright and open, for everyone to see her shoot the spray can from her anus into the sky, and fall at the boy's feet. She was applauded, and at the time of receiving her prize, the children deposited the candy in her asshole, puffy and open, which she has kept since she spat out the spray can.

Later, Roxy and Linda's group decided to stop ordering door-to-door sweets for a while. One of the children claimed to know the person responsible for creating Easter Island sweets. They go to her house and knock on the door.

Bunny: "(acting) Oh no! I was found!"

Children let out giggles.

Bunny: "Happy Halloween, cuteness!... For those who don't know me, my name is Ciara. I am the island candy artist."

She starts to brag.

Ciara: "Why don't I make candies ... I make works of art. Beautiful and delicious ... Do you want some?"

Children bounce around as they lift their bags of candy.

Ciara: "I have a lot of sweets ... But my works of art, not many ... So I'm going to draw them."

She delivers an equal portion of common sweets to the children. After one by one she took her edible arts and delivered them randomly.

Most of her works of art consisted of candies with the shape and usefulness of sex toys. There were not many varieties of type, but flavors, there were many, from fruits and desserts, to breast milk and shit, including fart, vaginal fluids and cum. As a result, many children received the same sweets, but each had a different flavor, which encouraged them to share their sweets so that each tasted a little.

Some received double dildos made of candy jujube. Instead of being covered with sugar, they were covered with a tasty powder, and just as sweet, which, when mixed with saliva, became a thick, slippery paste. Many children have already started to suck their sweets, others have already stuffed them in their holes, right after sucking them.

The games related to this toy consisted of:

Masturbate. Penetrating their vaginas, anus, or both. One child masturbates the other while tasting its candy. Two or more children kept them in their holes, then took them out and changed them so they could all experience each taste of dildo, mixed with the taste of the inside of each child's butt.

Once they reached their orgasm, they would take their sweets and eat them.

Others received rings made of shortbread cookies, covered in creams of various flavors. The kids dick owners, put them around that and made other kids suck them. As each child received a large portion of their flavor rings, and there were several flavors, and it was possible to place more than one ring in a cock, it was possible to make various combinations of penis cover flavors. When they reached their orgasm, one more flavor was added in the mouth of the one who was sucking.

Others received plugs made of lollipops. They put them and kept them in their holes so that the flavor of their interior remains in the candy, then they removed and sucked them.

A couple of twin sisters had fun with these plugs. First they masturbated while their sweets gave pleasure inside their anus. Then they took them out and licked them, savoring them. Then they repeated the game, but this time, they exchanged the candies, so, they experienced the taste of the candy with the flavor of the asshole of each other.

Then they repeated the game, but this time, one put her candy in the other's anus, so one experienced the taste of herself's candy, with the flavor of the other's tailhole.

Then they repeated the game, but this time, they exchanged the candies, again, and stuck them in their asses, so, one tasted the flavor of the other's candy, with the flavor of herself's pucker.

Others received dildos from different animals made of gelatin whose region of the balls were filled with different creams. There was a small canal, through which the filling was implanted, that acted as an urethra. If the balls are squeezed, the dildo practically ejaculates its filling.

Later Vixem penetrated Camy's urethra with her tongue. It was the first time that Camy had experienced this, it was slightly painful, but extremely pleasurable. She has always been curious to experience this, since Dillan told her about his adventures on Farry Island. At the same time, they heard the sweet and exciting sound and the delicious smells of farts, coming out of Dany's asshole. She was masturbating Jessie, who ejaculated in liters every time Dany farted on her face. Smelling farts was what gave Jessie the most pleasure, she also liked to fart on other people, but getting farts on her face is the best thing.

Someone knocks on the door, again. This time, the two farters went to answer the door.

Children: "Trick or treating!"

Jessie: "Hi, cuteness!"

Dany: "Happy Halloween!"

Jessie takes the tray of candy.

Jessie: "I deliver the treat ..."

Dany: "And I the trick!"

Dany turns around, opens her ass and farts in the child's face, who immediately inhales her intestinal gases, and by her expression, she loves it. And it was not the only one she received. Jessie throws herself over Dany and hands some candy to the child closest to the door. As long as Jessie didn't deliver the candy, Dany continued to fart on her face. When she receives the sweets, she walks away from the door, so that other children can approach and receive it too. And so it was. Dany released several farts in the face of each child. Jessie handed them the candy, and each child came out with a small amount of extra candy, and their fantasies wet with their genital fluids. The two then return to the rest of the orgy and continue.

Back at Dillan and Ingrid, the children continued their challenges in the park. Until Ingrid, bold, said that the challenges remained very easy. Dillan got into it, beside her. They refused to do the children's challenges. They wanted a real challenge ...

One of the children remembered the stories that mothers told to scare her. All the children knew these horror stories. So she demanded her challenge ...

bunny: "Okay. So ... I challenge you two ... to enter the Cursed Forest and find any monsters there."

Dillan: "Cursed Forest ??? You mean ... this forest, here behind us?"

Ingrid: "The same forest where Psycho lives?"

Dillan: "This forest, where we can still easily get lost?"

bunny: "Well, you don't have to go if you're scared."

Dillan: "Come on Ingrid. Let's go somewhere else. A lot of sweets are not worth our liv..."

Dillan: "INGRID??!!!"

He looks back and sees the little bunny disappearing into the woods. He runs behindr her, and once he reaches her, they no longer know the way back. They roam the forest, and as time went on, the strange sounds that came from everywhere, became more and more frequent.

Meanwhile, Roxy and Linda played together.

Linda received a fart-flavored lollipop plug. She masturbated and sucked her candy, but she also played with Roxy, to try her candy and taste her own candy with the taste of her friend's ass.

As for Roxy, she received a blackberry gelatin dildo, filled with cum.

She sucked on the dildo while Linda masturbated, while her sweet stimulated her anus. Then Linda removed her candy from Roxy's pucker, and, while sucking it, she pulled her friend's dildo and squeezed one of Roxy's candy balls, which was still dancing around her throat. With the pull, only the head of the dildo remained in her mouth, and with Linda's grip, Roxy felt her candy cum in her mouth, then Linda pushes it again, making her friend swallow the whole dildo again, while the last milliliters of cum from one of the balls, are poured into Roxy's exophagus.

After that, Linda stuffed her candy in Roxy's mouth, and left her sucking for a while, while she pumped her friend's dildo in her asshole with praise and ferocity, until she reached her orgasm. When she realizes this, Linda removes the candy from her ass and Roxy and sticks it all over her throat to taste it, while Roxy removes Linda's candy from her mouth and puts it in her friend's tailhole again. She still lays her down and starts to lick her pussy.

After Roxy swallowed Linda's orgasm fluids, Linda had an idea. She asked Roxy to stay on all fours, while she used the sticky properties of her saliva and her candy, to attach the dildo to her hip. She gets into Roxy's asshole and starts to fuck her.

Confectioner Ciara wishes the children a happy halloweenn again before closing the door. Even so, the children continued to play with their sweets on the street, in front of her house. She continued to watch them, spying on them through the window. It was a spectacle apart, after all it is not every day that a group of children have an orgy with candies in front of your house.

At Camy's house, someone knocks on the door. Jessie went to answer the door, and sees that it was a single child.

kid: "Trick or treating!"

Jessie was silent for a moment. She was mesmerized by the little bunny.

Jessie: "You're... so... cute!"

kid: "Hihi! Thanks."

She noticed Jessie's cock stiffening.

Jessie: "In between! Please..."

The child enters and follows Jessie into the living room, where she meets, Dany masturbating while watching Camy having her buttohole sucked by Vixem, and her balls licked by Llena.

Licking testicles was what gave Llena the most pleasure, while for Vixem, what gave her the most pleasure was sucking on Camy's pucker. Exclusively Camy's pucker. She has already sucked the anus of countless bunnies, but Camy's will always be her favorite. The reason? ... Nor can she explain.

Camy was surprised that Jessie brought a child inside. But before she could ask, Jessie revealed what she wanted.

Jessie: "Please. Get on that couch, and let me fuck you!"

The child immediately climbs onto the couch and stands on all fours, looking back, waiting for the dick. Jessie wasted no time, and climbed on the couch, right behind her, and already put her cock all inside her anus. Jessie had a very pleasant surprise. That child had already been fucked by countless bunnies, but only children. It was the first time that an adult cock penetrated her hole, so it was pretty tight, like it was still a virgin. Jessie felt it the moment it invaded her intestines.

She skipped the foreplay and started fucking, shoving her cock all over, and at a moderate speed. The child loved to feel Jessie's dick dance in her rectum. It didn't take long for her vagina to start to run "pre-cum", as the child had 3 events to help her feel a little more pleasure. The first, obviously, was Jessie's cock in and out of her rectum. The second was the nerve endings in her tight anus being stimulated the entire length of Jessie's penis, that, plus the sensation of her anus, slowly loosening and getting used to the new diameter. The third was the fact that Llena and Vixem, licking Camy's ass, were right in front of them. Due to the enormous asses of the two licking ones, it was not possible, in the child's eyes, to see Camy's asshole being sucked, or her balls being licked, or her cock throbbing and about to cum, with a thick wire of pre-cum linking her dick's head to the sofa cushion. In compensation The two huge asses, one on top of the other, with their vaginas running, and their pulsating anus, opening and closing, were already a show apart.

Back at Dillan and Ingrid, after walking for so long, the two were already exhausted. They walk a little more, until they reach a small clearing, where there is a swampy tree in the middle of it. Ingrid went up as far as possible. It was not very high, but it was possible to see the lights of civilization after the forest. Dillan leaned against the trunk of the tree, and Ingrid did the same, as soon as she told which way the city was, and they fell asleep. They rested for a few minutes, as they were awakened by strange sounds coming from above them. Upon opening their eyes, they see a mass of blue-green, ghostly-looking slime falling in front of them.

It shapes itself by getting bigger and bigger. Ingrid was so scared that a fart could be heard coming out of her butt, then the root of the tree she was sitting on was covered in shit. Slime advances over Dillan, trapping him in the tree.

Dillan: "Ingrid !!! Run!!!"

As much as she hated the idea of running away and leaving him behind, the little bunny heard his possible last request, and jumped away. But there was another slime at the top of the tree, which quickly descended to the trunk and stretched until it reached and immobilized the little bunny, pinning it to the ground.

The rest of the slime that attached it is shaped into an amorphous and very large body. This only increased Ingrid's fear, to the point of making her defecate much of the shit along with a small amount of candy that was stored in her gut.

Later, Linda continued to fuck Roxy's ass until she came again. Realizing her friend's new orgasm, Linda pushed her hips with all her strength, making Roxy's candy rush into her gut. But, with all the movements she performed, the dildo ended up detaching from Linda's hip and remained in her friend's ass. She then squeezes the other ball of the dildo, causing the cum filling to ejaculate into the pucker Roxy, who felt like a pony was cumming on her butt.

Now it was Linda's turn to cum a second time. With that, Roxy lays her down and sits on top of her. She removes her gelatin dildo from her anus, and makes her friend suck it while she sucks, then bites and eats her dildo. When she finishes eating her candy, Roxy starts to push, pouring her asshole's cum into Linda's mouth, who swallows with pleasure. Not only that, but she also starts to lick her vagina, and, from time to time, rummage in the loliplug penetrated in her friend's butthole, to give her a little more pleasure.

With the stirring of her candy, the tongue in her pussy, and the delicious taste of her friend's anus, it didn't take long for Linda to reach her orgasm. And while her fluids were ejected from her vagina, Roxy removes the loliplug from Linda's anus, licks it a little, and takes it to her friend's mouth, so she can finish it off.

After the orgy, the group decided to ask for sweets from door to door again. With this orgy Roxy and Linda became more intimate. Roxy also realized something that she had never thought of before. She was Ingrid's best friend, they masturbated together, and together they also did all kinds of sex games and other pleasurable insanities, but they never had sex. After that thought, Roxy decided that when Ingrid and Linda meet, it will be with an orgy between them 3.

Back at Camy's house, the child's asshole was so hot, that for the first time, Jessie had premature ejaculation. So much so that, while, and even after feeding her ass with her creamy milk, she continued to fuck that wonderful booty. Now with her intestines full of cum, the child had a fourth event to stimulate her pleasure even more. She came shortly after that. It was only after the child's vagina released her fluids,

soiling the pillow beneath her, that Jessie decided to stop. In the meantime, Camy had come and soiled the couch and floor beside it.

There is a knock on the door. Lenna goes to answer it, and Jessie removes her cock from the child's tailhole, who can no longer close it, so the entire warm, white load of the adult bunny slowly falls through the crater, which was once her anus. She leaves leaving a trail of cum around the house.

Llena opens the door.

Children: "Trick or treating!"

Llena: "Hi! Happy Halloween, treats."

She delivers some sweets to the children, who thank them and walk away to leave, but before Llena closes the door, Jessie appears with the child, who receives her sweets and leaves. She looked like a zombie, walked in an awkward way, and her face that expressed pure pleasure, seemed disconnected from the rest of the world. The children realized what had happened as soon as they saw the trail of white cream that she left, Jessie with her cock semi-hard and covered by that same cream, and the gaped asshole of the child, dripping that cream, which could be seen, between her buttocks while she walked.

Jessie: "Happy Halloween! For all of you!"

She says before closing the door.

In the Cursed Forest, slimes mold themselves a little more, their amorphous bodies adjust to a well-defined humanoid body. Slim waist, rabbit ears, wide hips, big breasts, but no legs, and no genitals. But, their beautiful faces made the two children stop being afraid.

Upon realizing that they were no longer afraid, the slimes release the two, who were curious, remained with them, even without knowing what could happen to them. The slime that held Ingrid on the floor, once he released her, wrapped itself in the pile of shit and candy she deposited right behind her.

The shit travels through the slime tube, and enters her back, being deposited in the belly region. When that happens, the slime licks her bluish-green and translucent lips, which means she was enjoying it, as if she liked the taste, as if she were eating. Not only that, but by her look, she wanted more, so her slime tentacle returns to Ingrid's ass, and without warning, invades her rectum, looking for more food.

Ingrid reacts as usual. Started to moan loudly and squirm as her lust increases. Because it was translucent, it was possible to see a good part of the interior of Ingrid's anus through the slime tentacle, which opened more and more, the diameter of the sphincter of the little bunny. The other slime, who was with Dillan, is excited to see Ingrid squirming with pleasure, while she lifts and wiggles her ass in the air as the tentacle dances in her ass. With that, she wanted to do the same to the boy. She wraps him around with her slime and turns him to face the tree, then a blue-green and translucent tentacle leaves her belly and enters the boy's ass.

Dillan gets excited, instantly, and positions himself in a way that facilitates the entry of slime into his gut. She traveled to the bottom of the boy's large intestine, but found nothing she could eat. After removing her tentacle from his anus, she turns it over again, causes her tentacle to thicken, thereby swallowing Dillan's cock that was already dripping pre-cum due to the affection he received on his ass.

Later, Roxy and Linda's group walk into the city, looking for more houses to receive more sweets. They pass through a dark alley full of garbage, in a fold of a street. Linda was further away from the group, as she was distracted by her sweets that she tried to keep in her pussy, but she couldn't. The candies fell to the floor, so she stopped to pick them up.

Roxy was distracted as she became involved with the rest of the group. The street led to an intersection and the children stopped at the house just around the corner. That was when Roxy missed her friend, and gave up the candies to find her, which was not difficult. She was at the end of the street in front of the alley. But before Roxy could call, Linda heard strange sounds from the alley. She, full of curiosity, and without the slightest sense of danger, went to investigate.

Roxy sees her friend entering the dark alley, and in desperation, runs after her.

When she arrives in the alley, fear takes over her body. She excites a little, but she enters. She slowly follows the strange sounds and now grunts. She sneaks up on the wall and spies the rest of the alley. Her eyes widen when she realizes the source of the sounds. An adult bunny, looking at the starry sky, with half a child coming out of its mouth. Roxy recognized the child's ass. It was Linda. Half of her body was already beginning to descend down her throat, and her legs were struggling uselessly.

Roxy knew exactly who she was. She's heard enough stories. It was Psycho, and she was devouring her friend right now. And all she could do was hope Linda was free. But, even though she was struggling fervently, Psycho made a movement, which made the little bunny slide down her throat, at an unbelievable speed. Linda was swallowed in a few seconds, and after being deposited in Psycho's stomach, she

stopped struggling. The psychotic bunny releases a moan of satisfaction, and sits down, leaning against the wall parallel to the wall where Roxy was hiding.

Roxy, in turn, tried not to despair not to be heard. She knew what would happen next. Psycho will not release her until she is turned into a mass of bone and shit. But she, just as when her teacher did with Ingrid, was terrified, but at the same time, super excited to see her friend being swallowed. Thinking about what just happened, and what is going to happen, Roxy let fluids run into her eyes and vagina.

Psycho: "Aaaahhhh<3<3<3! So tasty<3! So many months, and now, finally, I have a child in my stomach ..."

She rubs her belly.

Psycho: "Thank you, little one, for being my food. You are simply delicious!"

She is silent while admiring the sky.

Psycho: "I hope you're comfortable in there ..."

Linda: "Hhhhhmmhhhhmmffmmm!!!!"

Psycho: "Ah! No, no, no. Honey, don't talk. You weren't supposed to answer. I can't understand you well, besides, it's not good for you to waste oxygen. You don't have much in there."

Linda just settled down better inside Psycho. As if he had accepted the end.

Psycho: "Look. I am not complaining, but generally, children tend to scream for help, and struggle within me. I love it when they do that. But you are so calm. I like that too. It's good to have a smooth digestion, for a change."

Later, someone knocks on the door. Camy went to answer it, and saw three children wearing costumes together.

Children: "Trick or treating!"

Camy: "Hi! Happy Halloween! I loved those fantasies."

She picks up the candy dish and realizes that the sweets are gone.

Camy: "Annh ... Sorry, cuties ... Looks like the candies are over ..."

Children: "(disappointment) Aaaaah ..."

They turn to go ...

Camy: "Wait! ... I don't have any more sweets..."

She rubs her own cock. Children get excited.

Camy: "... but I think I can offer something in their place if it's okay for yo..."

Before she could finish, the one closest to the door advances on her hip. Camy lifts the dress, and the child swallows her cock. The other two look at her while she moans from the little bunny's sucking ...

Camy: "Aaaahhh<3! ... There are two other dick owners in there..."

Camy removes her hardened cock from the child's mouth and takes the 3 ones into the room.

Back to Dillan and Ingrid, after so long having fun with the slimes, Ingrid reaches her orgasm, and her pussy starts to splash fluids. The slime tentacle that dances in her anus, branches and penetrates her virgin vagina, swallowing all the fluids it released. As if all this is not already pleasant enough, the little bunny feels something being pulled out of her intestine. The rest of the shit stored in her insides, is pulled out of Ingrid's ass, inside the tentacle, and taken to the stomach of the slime that gathers all the residues in her belly and apparently starts the digestion process.

At the same time, Dillan also reaches his peak, cumming and feeding the other slime, which reshapes her body while absorbing the boy's cum. What used to be a slime tube sucking his cock, was now the slime itself swallowing his penis. Dillan can see his cock squirting cum inside her. His warm, creamy load clusters around her belly. She releases Dillan's dick and swallows the last milliliters of cum while looking at him with a seductive look.

The other slime continued to penetrate Ingrid's ass. She was already satisfied, but continued to act as if she wanted more, as she liked to give pleasure to the little bunny.

Ingrid: "(Aaaahhhhh<3<3<3!!!) I... I'm already empty....(Oooohhhhoohhhh<3<3<3!!!)... If you want more ... You will have to go deeper ..."

The slime picked up her perverted and delighted tone of voice and knew what she meant. She continued to enter, and now, in addition to her large intestine, her small intestine was filled by the slime tube, which continues to advance through Ingrid's entrails. Her belly rattled, madly, and grew, periodically, and the little bunny kept moaning. It got to the point that she didn't look anywhere else, and her tongue hanging from her mouth, drooled liters.

Dillan had come enough to make Ingrid stop feeling hungry. It was one of the biggest loads he has ever released. But the slime was much bigger than the bunny kid, and she sucked him again, asking for more cum.

However, Dillan had just finished cum, and, with the exception of Camy, the amount of other things, capable of making him cum more than once in less than 2 hours, were almost nonexistent. An Easter Island slime was not one of them, and even if it was, it would still be necessary to fill the boy with pleasure for another 30 minutes for him to ejaculate again. The slime wanted more food now, and she demonstrated that by looking at him with the look of a spoiled child who didn't get what she wanted.

She then penetrates Dillan's urethra with her slime tentacle, which forks, and each end enters one of his balls. The slime runs through each corner of the interior of his scrotum, before leaving. She looks at him and realizes that he liked having his penis penetrated. Ingrid already had her belly almost the same size as her own, and felt that the slime reached her stomach, and filled it quickly, before the tentacle came out of her mouth. Seeing that she had traveled all over the countryside, Ingrid's lust only increased.

A while later Llena and Vixem are doing a 69 on one part of the couch, while the 3 kids are sucking cocks of Camy, Jessie and Dany, on another part of the couch. They had been in this for a while now, Llena, who was underneath, had her whole face covered with Vixem's vaginal fluids, which was only with her mouth covered by Llena's fluids. As she was on top, most of her friend's secretions went to the sofa, but Vixem had already swallowed as much fluid as Llena.

Meanwhile, the three dick owners have reached their peak, and have came, almost at the same time, with a difference of a few seconds. The children, although they had not received any more candy, on the other hand, were now swallowing liters and more liters of hot, creamy cum. The one who was sucking on Camy, literally received a sweet surprise. Due to her cum with a half white chocolate flavor. The three friends came so much, that they stuffed the children's bellies, tripling in size. And by their expression, it was much better than receiving a mere pile of candy.

Camy takes them to the door and says goodbye to them. Looking at the horizon, she realizes that the sun is about to break. Their orgy was about to end.

Camy ran into the room and warned about the sun. They started to fuck, each other more intensely, and always taking turns, so that everyone can enjoy each hole or genital of them all. Finally, Camy called everyone to end the orgy in style. As with Dillan and Ingrid, the friends chose someone to be "the little princess".

Vixem was chosen. In that, Jessie puts her hip on the couch, while the rest of her body stays on the floor. Vixem sat on her girlfriend's cock, who started to fuck her. Llena manages to lie down on top of Vixem so that each can lick the other's pussy. In order not to fall Llena pinned her legs to Vixem's back, so her friend could keep her hands free to do something else.

This other thing was to masturbate Camy and Dany at the same time. And they stayed that way for a long time.

In the cursed forest, when they saw that Ingrid was enjoying being crossed inside, the two slimes face each other, and, by the look, they had an idea.

One of them removes her slime from inside Ingrid. The other kisses Dillan, and then they do what they had in mind. One of the slimes went back into Ingrid's ass, but this time she went all the way in, instead of just using a tube as an extension of her body. The other, while kissing Dillan, came in through his mouth, and it was so fast that the boy couldn't even think about what was going on. He just swallowed and swallowed, until the last drop of slime.

In this, the boy kneels on the floor, while letting out a loud moan, while staring at his belly, incredibly puffed up. Ingrid rolls over and lies on her back after the slime disappeared in her anus, and her belly was also huge.

Suddenly their bellies start to move. Half of one of the slimes comes out of Ingrid's mouth, the other half comes out of her pucker, and she gets up and starts to slide around wearing Ingrid as a dress. Then she pushes her ass down, causing the slime to cross the entire interior at the same time. Until, finally, leaving, leaving Ingrid unconscious of pleasure, and her asshole more gaped than ever. In Dillan's case, it was much simpler. The slime just went through his inside and forced it out through the boy's ass. Although they didn't agree to play this game, it was very pleasant for them, as it was for the two slimes.

But, the slimes still wanted to play more. They shape part of their bodies and, for the first time, the two children saw their genitals being generated, where there was nothing before. Two pairs of balls and a pair of cocks, beautiful, huge and delicious looking. Ingrid stayed on all fours, and Dillan positioned himself, leaning on the tree. One of the slimes went to the little bunny and put her huge dick in her booty, and as the slime was extremely slippery, she was already lumbrified, so she started fucking fast and with intensity. Then she creates a tentacle of her body and goes to Ingrid's mouth, and the tip of that tentacle molds to the shape of another dick, which Ingrid opens her mouth to suck on as soon as she sees it. The other slime went to Dillan's ass and did the same thing, with the difference that, instead of creating another cock to penetrate the boy's throat, she took her tentacle up to his cock, where it curled around, started to masturbate him, and then, penetrated his urethra and, again, forked to penetrate his two balls at the same time.

They fucked until the two kids felt fluids poured into them. Ingrid felt she swallowed slime through both her mouth and ass. Her intestine and stomach were filled with what appeared to be the slime's semen load, due to her orgasm expressions, although the load is exactly the same as the rest of her being.

The other, when she had her orgasm, filled the interior of Dillan's ass, and of his balls as well, making them double in size.

The two children lie on the floor and pass out from pleasure. The slimes, proud of their actions, lay down to relax in a single mass.

Back at Roxy, she continued to spy on Psycho, who continued to digest Linda.

Psycho: "Are you still there, cutie?"

Her belly twitches in response.

Psycho: "Ah. Nice.... Look, I know I said I love to feel the children screaming for help ... But, don't get me wrong. I really hope you don't feel any pain. I hope you will only experience pure pleasure until the end of your life."

Your belly starts to make sounds. In reaction, she starts to moan. Then she gets up and slowly rocks her belly from side to side.

Psycho: "Oooooohhhhh<3<3<3!!!"

She rests her elbows on the floor and stretches her legs, prancing her butt. With that, her puffy belly hangs, swaying slightly, because of Linda, who, inside, was having some spasms, because her nervous system was being digested. Luckily for the little bunny consumed, just as the doctor had theorized, Psycho's gastric juices caused her nervous system to collapse, causing some spasms, but nullifying her ability to feel pain.

Then Psycho sits down and leans against the wall again, rubbing her belly in a loving way.

Roxy finally comes to, realizing that she couldn't do anything else, and staying there was a huge risk. Then she tries to sneak away, but in her first step, she kicks a glass bottle, making a loud and very noticeable sound.

Psycho, immediately, looks at the direction of the sound, and sees the little bunny that spied on her. Roxy, terrified, runs desperately to the entrance of the alley, going through a lot of garbage and making more noise. The child-eating Bunny gets up and goes after her as fast as she can. With Linda in her stomach, the increased weight and volume of her belly, left her slow and flustered, which gave Roxy enough time to escape.

When Roxy arrived at the entrance to the alley, she knew that Psycho would reach her if she saw her running away. It was necessary to hide, then, before the child-eating bunny turned the alley street, and saw her at the entrance, Roxy ran to a cardboard box that was in the middle of a pile of other garbage, left at the entrance of the alley and hid under it. Inside, she covered her mouth so that her panting with fear and tiredness was not heard.

Psycho arrives at the entrance to the alley, and she remain in darkness so as not to be seen. She spies the streets, looking for the little fugitive, and as she lost her trail, she gave up, and returned to the alley, sitting and leaning against the wall, there near the entrance, almost in front of the box where Roxy was hiding.

Psycho talks to the child she digest again.

Psycho: "So you had a little friend... But she abandoned you.... What a shame..."

She hears a small moan coming from her gut. Linda was still alive, even though 67% of her body had already melted. Only her head, part of her chest, her left arm, her butt, and her thighs, were still whole, but her butt and her thighs were no longer connected to the rest of her body. She was sad to hear what her predator said, but, she knew that Roxy was not that type of bunny.

Psycho: "But ... if she stayed, I would have eaten her too ... And I think you wouldn't want that ... Maybe ... Would you like to be digested with your best friend?"

She feels a weak negative reaction inside her belly.

Psycho: "Got it ... You must be happy that she escaped ..."

In fact, she was. Once she was being swallowed by Psycho, Linda hoped Roxy would not come after her, and was relieved to learn that, despite her coming at here, and almost being caught by the child-eating bunny, she managed to escape.

Little did they know that the little runaway was just a few feet away, and was listening to all the talk ... I mean, the monologue.

Psycho: "It doesn't matter ... There's always next year."

The rest of Linda starts to be digested, and Psycho feels it.

Psycho: "Well ... I think that's it ... Goodbye, sweetie ... And thanks, again, for feeding me."

She hugs her belly, then she passes her hand under her belly, reaching for her vagina, and starts to masturbate. Until she cums and falls asleep shortly thereafter. Roxy couldn't risk trying to get out and get caught, so she remained hidden in the box.

Later, at Camy's house, coincidentally, at the exact moment that sunlight illuminated the living room window, the 5 friends came at the same time. While Vixem's fluids filled Llena's mouth, Vixem drank her vaginal juice, while Jessie filled her rectum with her cum, and while Camy and Dany released their hot, creamy load on Vixem's face. Llena's ass, being close, was also brushed with a bit of semen from both.

All 5 threw themselves where it was most comfortable and slept right there.

When sunlight begins to illuminate the sky above the alley, Roxy is awakened by Psycho who wakes up moaning. Her belly was much smaller, but it was still full. Linda was fully digested, and was now ready to leave.

Psycho: "Aaaahhhh<3<3<3! Okay, little friend! Time for you to become one of my sculptures ..."

The psychotic bunny follows her manic tradition, and goes to the entrance to the alley, where she squats and pushes Linda out of her ass. A small amount of shit is poured, then her tailhole expands and expands. Psycho shows pure pleasure on her face, and groans as her anus opens for Linda's skull to cross. Psycho takes the skull, and starts licking it, cleaning the shit stains that soiled it, at the same time, now that her asshole is unclogged, she continues to dump the little bunny, as shit and bones. She wiggles during the process, making her stream of shit pile up, artistically.

With the beginning of the morning, the birdsong of the forest begins. Dillan and Ingrid wake up with their bellies much bigger than before they went to sleep. Something happened to them while they slept, or something happened inside them while they slept.

The slimes wake up and are super happy to see the swollen bellies of the children. They get involved in them and caress their bellies.

Dillan realized that his erection continued, even before he went to sleep, and suddenly his pleasure increased, making his cock more rigid than it already was.

Something inside them starts to provoke incredibly pleasurable sensations. Ingrid stays on all fours, while feeling enormous pressure on her butt. Before she could use her intestinal muscles to push it out, she felt it push itself towards her anus.

Her pucker opens and the head of a slime comes out of Ingrid's ass. She pushes her out, to her hip, where the slime releases her arms and, leaning on the little bunny's ass, forces the rest of her to cross Ingrid's sphincter, who kept on moaning, during the birth.

Dillan felt the same thing, though, in his balls. Two tiny slimes slide down the boy's cock until they exit through his urethra. Dillan loved having the inside of his cock and his urethra enlarged, but it wasn't enough to make him cum. Still.

Ingrid is delighted to increase again. Something that was even deeper was following a journey inside her. She already imagined that it was another slime, since she remembered that she had swallowed slime during sex. This slime developed in her stomach, and now it is going to her tailhole to leave, and Ingrid felt every inch covered, with so much pleasure, that, as the little slime approached her back exit, the greater the amount of fluids that Ingrid's vagina released.

When making the final curve in the little bunny's large intestine, the slime moves towards the light of Ingrid's open anus, who managed to dump this slime with ease, since her asshole had gotten used to the opening of the previous birth. She had an orgasm during childbirth. Dillan was already horny enough, but increased when he watched Ingrid give birth to two slimes, while he felt a slime move inside him, until he reached his rectum. Now it's his turn to give birth through his anus. Dillan feels the slime go through his sphincter, and pushes it out. This gave him enough pleasure for him to cum during childbirth as well.

Now the slimes had 5 offspring and the children had one of the best nights of their lives, thanks to the ectoplasm monsters from the horror legends of this forest. As a form of gratitude, the slimes took them to the edge of the forest, before disappearing into the woods. Dillan and Ingrid threw themselves on the grass and remained there, lying with their asses pointed to the sky, their fantasies practically destroyed and their holes gaped and oozing blue-green goo. That is, until they were found by the same group of children from the night before. They talk to the children, and each of them gives them 5 candies, totaling 130 candies for each. They admired their bravery, and envied the pleasure they had. After that and recovering, Dillan and Ingrid go home to meet Camy.

In the alley, when Psycho finishes defecating, she adorns the pile of shit with Linda's skull, finishing her work of art. She returns to the alley, where she is on all fours and the child-eating bunny digs a tunnel and leaves.

Thus, it is revealed (to anyone) how Psycho passes through the entire island without being seen. Just like the ability to defecate chocolate-flavored shit, only the Easter Bunnies retained the ability to dig tunnels incredibly fast. They can dig, from dirt and sand, to asphalt and volcanic rock. Psycho still possessed this ability, and used it to move from alley to alley, to the forest she calls home.

Roxy watched everything that happened from her hiding place. When she sees it was safe, she comes out of the box and goes towards the pile of shit that was once a friend. She kneels while looking at the shit sadly. She mourned, but realized it was already dawn. In order not to miss the opportunity, she runs her finger over the pile of shit and sucks it, thus keeping a part of her friend inside. She takes her bag of candy and goes home.

Dillan and Ingrid arrive home and go to the living room, where they find the whole room covered with genital fluids and Camy and her friends sleeping, both on the couch and on the floor. They settle on the couch, even though it was covered in cum and fluids, and fell asleep.

They all wake up around noon. Camy, realizing that the two had returned, went to wake them up. This time, Dillan was not sleeping with her mouth open, but her face and Ingrid's were very close to each other. Camy approaches her ass and begins to fart on their faces, which slowly wake up, when they smell the delicious smell of intestinal gases coming from inside Camy's asshole. They wake up and find themselves surrounded by bunnies.

Camy: "Good morning, sleepers!"

Dany: "Did you have fun yesterday?"

Vixem: "By the state of the fantasies, I think so ..."

Llena: "Daughter. What happened to your ass?"

Jessie: "Yeah. What is it dripping from there?"

Dillan: "Good morning, girls."

Ingrid: "Good morning ... Hhhmmmm<3... I can still feel that my pooper is gaped ..."

Llena & Dany: "What?!"

Camy: "Guys ... Turn your asses over here ..."

They stay on all fours on the sofa, Camy and Vixem hold and spread the children's buttocks. Both had their anus so wide that it was possible to see the first curve of their large intestine. In addition, there were several clusters of bluish-green slime around the meat tubes, which gave off a faint glow, illuminating even the deepest parts of their interior. The anus continued to pulse, even with all this opening, and despite everything, it was a very exciting sight.

Llena: "Holy shit!"

Vixem: "Damn!"

Jessie: "Holy Fuck Winged!"

Camy: "What did you two do yesterday?"

Dillan and Ingrid look at each other, and smile at each other in a perverted way, before looking back again, facing the group of friends.

Dillan: "Where do we start? ..."
