

Aspen checked her phone one more time. No, Vera still hadn't answered her text. The Alaskan Malamute sent another message, just in case:

Aspen: Where r u? Trying to find u. Isonport is a big city u know, lol.

She waited a few minutes, but still Vera did not reply. She texted someone else:

Aspen: Trying to find Vera. Let me know if u find her please!

And so, the canine set out looking for her friend.

---

Vera was down by the pier. The gryphon was sitting on a bench next to her horse friend, Hope, and the two were watching the sunset. This is what they tried to get together to do every Friday night, and it was always a very nice time.

Vera didn't notice her phone buzzing, but Hope noticed when she got her own text from Aspen. She flipped open her phone, read it, and quickly texted the dog her and Vera's location. Then she put her cell back into her pocket and turned to Vera with a smile.

"This is nice," Hope said to Vera, smiling at the gryphon. "I always love watching the sunset with you."

"Yeah, I like that too," Vera admitted. She fidgeted. "You know . . . I . . ."

"What?" the horse asked. "Come on," she urged her friend. "You can say it. . ."

Vera hesitated for a moment longer. Then, she took a deep breath, and spoke. "I've . . . well. . . I've always wanted to ask you out on a date every time that we've been here," the gryphon admitted. "But I've been scared that you'll just say no. . ."

Hope's eyes widened in surprise. Vera blushed and turned away, embarrassed. "I probably just ruined it, didn't I?" the gryphon asked, groaning.

The horse put a hand on her shoulder, causing Vera to turn back to her. "No, not at all," Hope reassured her friend. She smiled. "In fact, I wish you had said something sooner. . ."

She put a hand behind the gryphon's head, and pulled her in for a kiss.

Their lips met in an explosive moment, as the two took each other in for quite a time. The smooch was long and lingering, as if the never wanted to let go, but it was Hope that finally released her friend after a minute. Vera was left speechless, and the horse giggled. "You're so surprised," she teased the gryphon.

"I can't help it," Vera said, blushing. "I'm just so glad right now. . ."

She leaned into Hope and hugged the horse tight. Hope rested her head on top of Vera's, and the two happily watched the sunset together. For a long moment, they stared in silence.

“You know,” the gryphon finally said. “I’ve actually . . . had a specific fantasy about you.”

“Oh?” Hope asked, very intrigued. “Tell me more.”

Vera blushed. “W-Well, it takes place here on the pier. . . I like to imagine getting laid right here.” She edged herself onto Hope’s lap, smiling at the horse.

Hope smirked. “You’re not worried about people watching us? This is a public space, you know.”

“Let them watch,” Vera said. “I want you.”

“Alright then,” the horse replied, smiling. “Then stand up, and don’t say I didn’t warn you. . .~!”

The gryphon obeyed her companion, turning around to face Hope. The horse smirked and pulled down first her pants, then her underwear, revealing a beautiful cock underneath. “Take off your pants and lie down on the bench,” Hope ordered, getting up now. “And then I’ll make my way inside of you. . .!”

Vera nodded, removing her jeans and panties, then lay on the bench, so that her stomach was facing downwards. By this time, their activities were catching the attention of the other adults at the pier. Surprised murmurs broke out among the crowd; some were embarrassed to see two people fucking in public, while others were more amused by the sight. It certainly wasn’t something you saw every day at the pier, that was for sure.

Hope smiled as she stood over Vera, and the horse reached down, gently caressing the gryphon’s feathered bottom with her hand. “You’re ready for this?” she asked, taking a condom from her pocket and putting it over her cock.

Vera nodded. “Oh yeah. I’m more than ready, actually. . .”

“Good girl,” the horse purred. “Then I’m going to come inside you. Prepare yourself. . .”

She went on top of the gryphon, and gently pressed the tip of her cock against Vera’s anal entrance, rubbing it against the hole and teasing her companion with its presence. She smirked as the gryphon let out happy sounds. “Oh, you like that, now do you?” she teased.

“I do,” Vera replied, blushing. She could feel Hope’s penis against the opening of her anus, and it. Felt. AMAZING! “Please come inside me. Please. . .”

“Alright, only because you asked nicely,” the horse teased. “Let’s start on in, shall we?”

She gently brought her hands onto the gryphon’s butt cheeks and pushed outwards, widening the anal opening bit by bit. Once it was big enough, she shoved the tip of her cock inside of Vera

The gryphon gasped as Hope began to come inside of her. Holy shit, it felt incredible to be so /full!/ She savored this feeling as the first of the horse's cock slid into her ass, and couldn't wait for more of Hope's member to be inside of her.

The onlookers stared as the horse fucked the gryphon. Some looked away in disgust an embarrassment; some gasped in surprise. A few watched, while others turned away and kept walking. One person in particular had her eyes on Hope and Vera, happy to see the two of them getting closer to each other. . . Regardless, the two of them kept going, now unaware of the stir they were causing. They were so caught up in the moment that neither of them even noticed.

Hope smiled at the sound of Vera's gasp and continued to enter her friend, happy she could please her so much. She slid more of her cock into Vera, going deeper inside of her, feeling the gryphon's anal walls squeeze comfortably around her member. She loved the sensations she was receiving right now, and let out a pleased sigh as she continued to penetrate Vera. Fuck, did this feel good.

Vera was having a great time herself. She moaned as Hope came deeper inside of her, loving how much she was getting filled up, and smiled as the cock slid further up her ass. This was amazing, everything she had ever dreamed, really! Fuck, could it get any better than this?!

Apparently it could. As the onlookers watched, Hope went even further inside of Vera, her cock going deeper into the gryphon's butt, and a moment later, the horse was all in, her entire penis inside of Vera's ass. Hope grinned as all of her member went into the gryphon, and she let out a happy cry. Damn, this was good.

As all of the horse's cock slid inside of Vera, the gryphon let out another moan. She felt so good and full in the back now. . . It was, in a few words, an incredible feeling. "Yes. . ." she cried. "Fuck me, Hope. . . Fuck me. . .!"

"Alright then, I will," teased the horse. She leaned down to Vera's ear and whispered. "Get ready, cutie. I'm going to fuck you real good. . ."

And so, that was exactly what she did. Hope slid her member up and down, going in and out of the gryphon's anal hole: first she did so in smooth, steady motions, but her movements got rougher and harder over time, the intensity increasing bit by steady bit. She let out pleased cries as she brought her dick forwards and back inside of Vera, pleasuring herself and the gryphon. Fuck, she was getting closer now. . .!

Vera moaned as Hope fucked her, and her cries got louder as she became unable to hold herself back. She felt the horse's cock sliding against her anus, and she loved every second of it: she greatly enjoyed the feeling of her friend inside of her, and treasured this moment greatly. She was almost there too. . .!

Hope continued to slid her cock up and down, and her speed increased as the roughness went up. "Almost . . . there. . .!" she gasped as she fucked Vera.

“I’m . . . almost . . . there . . . too. . .!” the gryphon cried out.

And then, the two of them orgasmed: Hope screamed out, and semen sprayed forth from her cock, a huge load that landed right in the condom. At the same time, Vera came, crying out as wetness left her vagina, and landed on the bench below her.

The onlookers gasped as the two friends came, some in shock and horror, others in delight and excitement. It certainly was a sight for all of them to see. And this was just the beginning. . .

Vera and Hope panted, catching their breath. Then Hope slid her dick out of Vera’s vagina, disposed of the condom, and put on a new one.

“Turn around,” she ordered the gryphon. “I’m going to go into your vagina now.”

Upon hearing that, Vera’s heart skipped a beat. First anal sex, now vaginal sex . . . and all with Hope?! Could today get any better?! She nodded and flipped around so that she was now facing stomach up. She could see the nice, sunset painted sky above her, but more importantly, she could see Hope, who was staring down at her with a big smile on her face.

“You ready, cutie?” the horse asked.

Vera nodded eagerly. “Oh yes, yes! I’m definitely ready.”

“Good girl,” Hope said, laughing. “I think you’ll like this quite a bit. . .”

She brought her penis against the opening of the gryphon’s vagina. Like before, she teased Vera, letting herself linger at the entrance, pressing the tip of her cock against the labia with a big smirk on her face.

Vera watched as Hope waited in front of her vagina, stimulating her pussy lips with the tip of the penis. She let out soft sounds of happiness as the horse teased her outside parts—fuck this felt good. And it was only going to get better from here. . .

Hope smiled down at her partner. She wasn’t going to keep the gryphon waiting too long. After one more brief pause, she began, bringing the tip of her dick into Vera’s eager vagina, sliding it inside. She let out a happy sigh as she entered her friend: the gryphon’s inner walls felt just as good as inside of the ass, if not better.

Vera let out a moan as Hope entered her, loving how much the horse was filling up her vagina. It was only a little bit so far, sure, but it was definitely going to get better from here. She squirmed eagerly, wanting more of the horse to be inside of her. And soon, she was going to get her wish. . .

The onlookers stared as Hope began to enter Vera’s vagina. Some had walked away, too embarrassed to see this sex continue, but others still lingered, and there were some new adults who had stumbled onto the scene. The one who had been watching them was still there, and she smiled as she continued to watch Hope and Vera fuck. . . This

was turning out to be a great time. She was happy the two of them were growing closer.

Hope smiled down at her partner and slid more of her cock into Vera, bringing her penis further into the gryphon's vagina. She let out a small moan as more of her entered her friend: she couldn't help it; Vera's vaginal walls just felt so good around her member! They squeezed around her dick in a comforting way, making her feel happy and aroused; the sensations were just . . . incredible. She let out a happy sigh.

Vera, meanwhile, was also having a great time with this. She cried out as Hope went deeper into her vagina, loving that she was getting so filled up right now, and grinned as the cock went further into her vagina. She was having such a good time right now. . .

Hope went deeper into the eager gryphon, sliding her cock further in, until, finally, it was all in. All of her big member was inside of Vera's vagina, and the horse smiled. "How does that feel?" she asked, teasing her partner. "Good?"

"Very good. . ." Vera replied, moaning. Fuck, it felt incredible to have all of Hope inside of her like this. . .

"Is there something you want me to do?" Hope asked innocently.

"Yes, please. . ." Vera begged. "Please, fuck me. . ."

"Alright," the horse said, smiling. "If you say so. I'll fuck you so good, Vera. . ."

And so, she did. Hope slid her member in and out of Vera's vagina, going back and forth. At first, she went slowly, but her speed steadily increased, until she was fucking the gryphon rough and hard, with increased intensity even higher than when she fucked Vera in the ass. The horse moaned loudly as she pleased both of them. Fuck, her arousal was increasing so much right now. . .!

Vera cried out as she was fucked, her screams increasing in volume as she let it all out. She felt the horse's dick go in and out of her vagina, sliding against the inner walls, and it all felt fucking amazing. She loved every single second of it, and didn't want it to stop. She was almost there. . .!

Hope gasped. "Come . . . for . . . me . . . Vera!" she gasped. "I . . . want . . . to . . . see . . . you . . . come!"

"O-Ok!" Vera cried. "I'll . . . come . . . for . . . you . . . Hope. . .!"

And that's exactly what she did. The gryphon orgasmed then and there, crying out as ejaculation left her vagina, wetness squirting out and landing on the horse in front of her. A moment later, Hope came too, letting out a loud, pleased moan as she came, a loud of cum spraying forth from her dick and landing in the condom.

The two of them took a moment to catch their breath. Then, Hope slid her member out of Vera's vagina, threw the condom away, and turned back to the gryphon.

“I have just one more thing for you to do,” Hope told her friend.

Vera sat up, intrigued. “What’s that?” she asked.

The horse smirked, and pointed at her cock. “I want you to suck it,” she ordered the gryphon.

Vera grinned. “Oh, I’ll do that! Gladly.”

“Then get on your knees, cutie pie.”

As the onlookers watched, the gryphon went down on the ground in front of Hope. She knelt on the wooden pavement of the pier, and looked up at the horse’s flaccid penis. Then, a moment later, she began to pleasure it.

Vera leaned forward and brought the front of her beak around the tip of Hope’s dick, licking and sucking her friend’s member as she did so. Her tongue ran around the horse’s shaft, and she hoped she was doing a good job—she wanted nothing more than to make Hope happy.

She wasn’t doing a good job though—in fact, she was going a great one! As Hope felt her cock get licked and sucked by Vera, she let out happy, approving sounds, loving the treatment her member was receiving. “More. . .! Please. . .!” the horse gasped. And so, Vera complied.

She brought more of Hope dick into her mouth, going further up the length of the shaft. She ran her tongue along its sides as she brought more of the cock inside of her, and felt precum dripping from the tip. Smiling, the gryphon happily licked it up, loving how it made her feel. She was pleasing Hope so much right now. . . What could be better?

The horse’s cries got louder as Vera made her way further up her penis. Fuck, the gryphon was good at this—where the heck had she learned to be so good at sucking cock?! It was kind of incredible, honestly. Hope leaned back and smiled as Vera continued to pleasure her, loving every sensation she was receiving.

The gryphon continued to go up the horse’s dick, bringing even more of it into her mouth. She was breathing heavily through her nose now, steadily taking in air as she took in more of Hope’s penis. Until, finally, all of the horse’s big member was inside of Vera’s mouth. It was tickling the back of the gryphon’s throat a bit—it was pretty long, after all—but she didn’t mind. Soon, the real work would begin. . .

Hope let out a loud cry as all of her shaft went inside of Vera’s beak. “Fuck. . .!” she cried, barely able to contain herself. “That feels so good. . .!”

The gryphon smiled, happy to hear that. And then, she began.

She went back and forth, bringing her lips up and down the length of Hope’s dick, sucking cock with expert precision. She looked up at the horse as she did this, wanting to see her friend’s reaction.

And it was quite a good one. Hope let out cry after cry of pleasure as Vera sucked her off, and the horse leaned back. “I . . . I’m almost there. . .!” she cried. “Almost there. . .!”

And that was when she orgasmed. With a loud shout, Hope came, orgasming a load of semen right into Vera’s mouth. It sprayed down the gryphon’s throat, and she swallowed the salty substance, liking the taste of it. The bystanders gasped as this occurred.

Vera released Hope’s member and stood up, sitting back down on the bench. The two sat there for a moment, catching their breath again after such an intense experience. Then, Vera turned to Hope.

“Fuck, I want you in my womb right now. . .” the gryphon said to her companion.

“Oh you do, now do you?” the horse asked, smiling. She threw off her shirt and bra, revealing her nakedness before her friend and the onlookers. “Then I’d better get inside, now shouldn’t I?”

Vera smiled. “Yes, I suppose you should.”

The gryphon turned and spread her legs, leaning back on the bench. Hope leaned down and put her head front of the gryphon’s vagina, staring at the beautiful formation of Vera’s vulva and clit. The gryphon smiled and studied Hope for a second. A moment later, the unbirthing began.

The gryphon’s pussy lips opened, and there was a loud /SLURP!/ It sucked the front of Hope’s head inside of Vera’s vagina, and the gryphon moaned as the first of her prey entered her. This was much bigger than just the horse’s cock, and it widened her entrance significantly, making her feel fuller than ever. It was amazing, and she loved it.

Meanwhile, Hope found herself inside of the gryphon’s vagina: it was a cylindrical tube surrounded by wet, dripping walls and smelling of pheromonal fluid. It was a pleasant, sweet scent, and the horse smiled, closing her eyes. She couldn’t wait for all of her to be inside of Vera.

The gryphon looked at her prey for a moment, and then sucked in the rest of Hope’s head. It got pulled into her vagina with a /SLORP/, becoming sucked inside with the rest of her, and Vera moaned as it stretched her opening even further than before.

“Fuck. . .” she muttered. “That feels so good. . .! I can’t wait to have all of you inside of me, Hope.”

Inside of the vagina, the horse heard the gryphon’s words, but couldn’t reply: the tube was too tight for her to move, never mind attempt to speak. So she simply smiled, and savored the moment, happy she was pleasing her friend.

There were still a few bystanders watching. None of them could believe what they were seeing—after all, a woman’s vagina was consuming a horse alive! But they were too

transfixed by the sight to attempt to stop it. And the one who was happy for Vera and Hope was savoring this moment. . .

Vera took a deep breath, and then sucked up Hope's neck. It was just as thick as her head, and got pulled in with another /SLURP/. She moaned loudly as the horse was forced inside of her, stretching out her insides as it was pulled in. Smiling, Vera leaned back, planting her hands on the floor of the bench, and continued to devour Hope.

Hope smiled as she was forced further into Vera's vagina. She felt herself slide deeper down the thick, wet tunnel, and then, the tip of her head entered a new area. She felt her nose go inside of a new tube: it wasn't nearly as wet as the vagina, as there was no liquid dripping from it. It also felt smaller than the vagina, but more muscular. After thinking it over for a moment, the horse realized that she had reached Vera's cervix. And after that, she would be in the destination she desired most. . .!

The gryphon stared at Hope's shoulders, and took a deep breath. They covered a very wide area, so it would take some effort to suck them in, but once they /were/ in, the rest of the unbirthing would go much more smoothly. Vera stared at the shoulders, taking a moment to hype herself up. Then, she began.

She cried out as she sucked them in, screaming as her vaginal opening expanded to fit the horse's wide shoulders. It took a lot of effort on her part, as she had to focus on opening herself up, and refusing to relent or release the horse. If she stopped, she would have to start all over again, and she didn't want that. And so she opened herself up, bit by bit. Just a bit more. . . Almost. . . Yes, almost there. . .!

. . . And, done! The gryphon gasped as the shoulders slid inside of her vaginal opening, and screamed, "FUCK!" They filled her up extremely well, expanding her entrance and insides in order to slide into her, and she smiled and leaned back, loving the feeling. "That feels so good. . ." she murmured. "You're almost there, Hope. It'll be easier from here. . ."

Upon hearing that, Hope smiled. She was all for that! And as her shoulders were being pulled in, more of her entered the cervix. Sure, it didn't have the nice smell and feel that the vagina had, but it meant she was closer to getting where she belonged! And that felt good.

Vera took a deep breath, and then sucked in the horse's chest. She gasped as her opening expanded to get Hope in once again, enlarging to fit the horse's large breasts. But it felt good, and soon they were in. And inside of the gryphon, Hope had reached her destination.

As her boobs were being sucked in, Hope's head traveled down the length of the cervix, and most of it popped into a new area. She looked around to see a wide open space in front of her, a circular chamber surrounded by wet, dripping fluid. It had the same pheromonal smell as the vagina, and the horse grinned. This was Vera's womb!

The gryphon felt her friend reach the womb, and she gasped. Looking down, she could see a small bulge where Hope's head was, and she grinned. It felt good to have some of Hope in there. . . And soon, all of the horse would be inside of her.

She took a deep breath, and she pulled in Hope's midsection. This was an easier time—well, mostly. As she reached the horse's hips, her entrance expanded again, and Vera cried out in pleasure. It could be difficult at times, but oh boy, did it feel /good/.

Hope was shoved deeper into the gryphon's womb: the rest of her head and neck slid inside of the space, bulging it out further. The horse smiled as fluids dripped onto her face—fuck, did this feel great.

It was just Hope's legs left. After that, all of the horse would be inside of Vera. The gryphon smiled and sucked up Hope's thighs, easily pulling them into her. Just her calves and feet were left now. . . And then, she would be done!

Hope felt her chest slid into the womb, her breasts entering the space with a /pop/. She smiled as her head hit the wall of the area, enlarging the space, and she wondered how big Vera's womb was going to be by the time this was done. It was certainly fun to imagine. . .

The gryphon slurped up Hope's calves, pulling them inside of her with a big smile on her face. She could feel her belly expanding, and it felt great. And now, only the horse's feet were left.

Hope smiled as her midsection joined her inside of the womb, and wiggled her toes eagerly. She wanted to be all in, dang it! She couldn't wait!

Taking the hint, Vera pulled in the horse's feet, her vagina swallowing them whole. Leaning back, she could feel Hope traveling down her vaginal tunnel, and soon, all of the horse was inside her womb.

Hope smiled as all of her traveled down to the uterus. She was all curled up inside, and it felt great. She leaned against the walls, waiting for what would happen next.

Vera gently ran her hand across the big bulge, feeling Hope all tucked away inside of her. "Ah, that feels great," she said, leaning back on the bench. "That was really good. . ." She looked down at her big belly. "How are you doing in there, Hope?"

"I'm doing great!" the horse replied. "This feels fantastic. . .!"

"Good," Vera said—part of her had been scared that Hope wouldn't like it in there. Thankfully, those fears were not realized. "That's great."

It was more than great, honestly. The gryphon felt herself getting turned on all over again. . . She reached down and put a hand over her pussy, and then, she began stroking herself.

Vera ran her hands over her labia, teasing her pussy lips. Then she brought her fingers to her clit and pressed against it, moaning as she did so. Fuck, did this feel good. . .

Hope heard the gryphon masturbating, and felt herself getting turned on too. She brought her hand around her cock and started stroking it, bringing her hand up and down its length. Little cries left her mouth as she did this. Damn, this felt amazing. . .

Vera continued to tease her outsides for a bit longer. She pressed her thumb hard against her clit, stimulating herself with small shouts as she did this. Then, she brought a finger inside of her, and her cries became louder as she pressed it against the walls of her vagina. She was already almost there. . .!

Hope was teasing herself too. She ran her hand faster against her cock, stimulating it immensely as she turned herself on more and more. Then, she brought her hand around it and squeezed it: first it was gentle, then she squeezed harder, making herself more and more aroused. She was getting closer and closer to climax with every passing second. She was going to. . .!

And then, the orgasms occurred. Vera came with a loud cry, spraying wet ejaculation all over her fingers as she came. Inside of her uterus, Hope also came, semen squirting from her cock and mixing in with the wet fluids inside of the womb.

Vera leaned back on the bench and caught her breath, smiling. Today had been such a good time—she was so glad she had confessed her feelings to Hope. And there was only one bystander left remaining. . .

Vera's phone buzzed. Curious, the gryphon reached into her pocket and pulled it out, finding a text from Aspen:

Aspen: Did u have a lot of fun there? ;)

A moment later, another text came in.

Aspen: Turn around lol

Vera did so, and found herself looking right at the Alaskan Malamute! She was standing at the other end of the pier, smiling at the gryphon. "Aspen?!" Vera exclaimed, her mouth dropping open. "Were you. . . I mean, how long. . .?"

The canine grinned and walked up to her friend, sitting down on the bench with her. She put a finger over the gryphon's lips, and then gently rubbed her hands over Vera's big belly, smiling.

The gryphon leaned back with a happy sigh. "Oh, that feels good," she murmured. "That feels really, really good. . ."

The Alaskan Malamute smiled and continued to rub her stomach. Vera let herself be pampered by her friend, and imagined what the future held for her and Hope, now that

the horse knew about her feelings. Things were looking very bright for them, very bright for them indeed. . .

She looked over at Aspen, and smiled. Next time, she would have to get the dog in on all of the fun—that was for sure.

And so, she sat back and watched the sunset, while Aspen rubbed her belly.

Toady had been quite the good day.
